

# Barnes Building

***COhatch Spirit of Entrepreneurship- offers coworking, private offices, meeting room & event spaces.***

- Began to vacate building in 2018, due to deterioration and cost-prohibitive nature of the extensive building renovations that would have been needed.
- Due to these cost issues, the district made plans for the abatement and demolition of the building.
- Recently Schiewetz Foundation partnered with COhatch to conduct a comprehensive feasibility study for reuse of the building.
- District is open to reuse proposals that are:
  - *Budget-Neutral*
  - *Continue to give BOE control of the property*
  - *Allow for district/community use of the building*
  - *Aligns to the Kettering City School District's Mission*
