A. Ms. Donna Guiffre, Assistant Superintendent, reviewed the attendance data for the 2008-2009 school year. Last year the attendance policy was changed to help students and the district achieve better results regarding school attendance. Since the 2003-2004 school year, the attendance percentage has steadily declined. For the 2008-2009 school year, the district had an increase in attendance (95.1%), which equates to 742 days that students were in school more than the previous year. However, lateness to school declined over the previous 2007-2008 school year. The Attendance Committee is recommending, in an effort to address lateness, that the current policy be amended to include the Advisory Period.
