## Learning Focus This Quarter

**Reading:** During Second quarter, students will have completed their first of four common assessments in Reading. This assessment is to evaluate the students on their learning. There are three components to the assessment: Grammar, reading comprehension and writing. This assessment will count as a product grade in Reading and Writing. We will be in a new module that will revolve around Informational Text and students will be reading about historical places, documents and symbols that represent our nation.

**Writing:** Students will produce simple, compound, and complex sentences; write a personal narrative, and write an informative text to examine a topic and convey ideas and information clearly.

**Math:** During 2nd quarter, students will learn about area concepts and relate area to multiplication and addition. They will also use place value understanding to round whole numbers and add and subtract within 1,000. Lastly, they will represent and solve two-step word problems using addition, subtraction, and multiplication to assess the reasonableness of answers.

**Social Studies:** Students will learn discuss leadership in their communities, state and nation
