Holden R-3 Student a Published Author

ReadyAimWrite Kids, an independent publisher of books written by kids for kids, visits Holden Elementary each year thanks to the efforts of Robin Eissler, School Librarian. Students are encouraged to write and shown that putting your thoughts and imagination down on paper can create something magical!

Holden 3rd grade student, Anderson Ringen, was chosen to be published because of his creative story about students traveling around the world. He will be recognized for this accomplishment at the ReadAimWrite assembly on Oct 11 and signed copies of his book will be available. Read more about Anderson and his book at:
