

ACADEMY OF FINANCE

at University High School

Business Communication and Technology

This course is designed to provide an overview of current business, finance and information systems. Emphasis is placed on developing proficiency with computer applications, so that they may be used as communication tools for enhancing personal and work place proficiency in an information-based society. This also includes proficiency with computers using spreadsheets, presentation applications.

Accounting Applications Honors

This course emphasizes double-entry accounting; methods and principles of recording business transactions; the preparation of various documents used in recording income, expenses, acquisition of assets, incurrence of liabilities, and changes in equity; and the preparation of financial statements.

Economics and Financial Services Honors

This course presents basic topics in economics, including the principles and practices of banking, credit, and consumer lending in the United States. Additional emphasis is placed on money, credit and banking, economic growth and stability, characteristics of different economic systems and institutions. The students are also introduced to credit functions, principles of credit risk evaluation, loan creation, debt collection, and stocks and bonds.

Personal Finance Honors

This course is designed to develop an awareness of the need for care and organization in planning for the wise use of economic resources and financial products available through a study of savings, credit, insurance, investing, risk management, banking, and financial goals. Students are provided with the concepts necessary to understand international trade as well as career opportunities offered by lending institutions.
