RQS

I've spent nine transformative years within this district, watching my mom dedicate seven years at one of the high schools. Over time, I've developed a profound affection for our schools, which extend beyond mere classrooms—they're homes. The teachers transcend their roles: they're family. The teachers prioritize their students' education and well being above anything else, inspiring and guiding future generations. Their dedication exceeds academics: they nurture emotional growth, ensuring each student receives the respect and support they deserve. Through life challenges, they provide steadfast guidance, selflessly placing students' needs before their own. Their impact will stay with every child that they ever taught, at least it will stay with me.

Like one teacher that I will never forget, my first-grade teacher, who made a lasting impact during a challenging time. When Covid-19 forced us into virtual learning, she went above and beyond. Then, surprisingly, she joined us back in second grade, moving up a grade level just to continue to teach us. This heartfelt gesture left an incredible impact on me and all of the kids who were with me.

The School district holds a special place in my heart. From preschool, to my future high schools. Each school represents cherished memories and milestones, shaping my childhood.

School Buses

When you think of how to get to school you think of the iconic yellow bus and yes that is no different from our buses but what is special is the bus drivers who devote their time so that all of the kids can get from to and thro. The bus drivers ensure that they drive as safely as they can so that the kids can have the best experience whether it's to school or to your home.

How was the bus ride?

Really?

Great! I can't wait to go to school tomorrow!

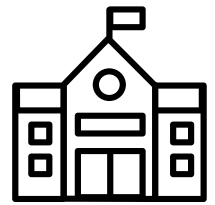

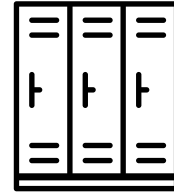

Yup! Hehehe!

Yayy!

Here we are!

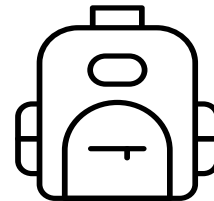

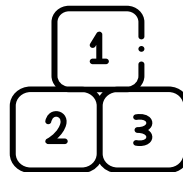

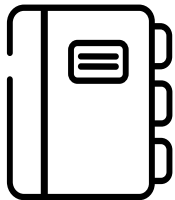

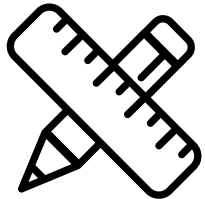

Counselors

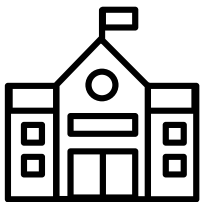

The school counselors are there for the lessons to teach you about yourself and to help you if you have any problems and will just be a great person to talk to.

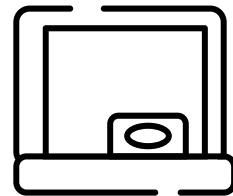

We all know that even though there is a big world full of people it can feel like a very lonely place, but the counselors are there to talk to you when nobody else will.

Conclusion

I believe that the schools deserve all the recognition in the world for what they do and nothing that I wrote proves them justice, but as one smart man once said “one small step.” I am hoping that this will open up more people into seeing the true light of out amazing schools and build their own great appreciation for the schools.

I  RQS!
