STRUTHERS HIGH SCHOOL GRADING SCALE AND GPA FORMULA:

The following method will be used in factoring final grades, even with College Credit Plus courses taken from any college/university.

For full year courses, or semester CCP courses, each nine weeks will count for 20% and the midterm and final will both count for 10%. Semester courses are weighed at 40% for each nine weeks and the final exam will count for 20%. The following system using point calculations will be used. A student receiving the following grade will receive the corresponding points: (Similar to G.P.A. Calculation)

A= 4 B=3 C=2 D=1 F=0

Full Year Classes- Each 9 weeks grading period will be worth 20% and the mid-term and final 10%

Semester Classes- Each 9 weeks grading period will be worth 40% and the final 20%

The following chart will determine final grades:

Final Grade Avg.	Grading Scale	Points for Grade
A: 4.0 – 3.5 - A= 90-100	4 Points	B: 3.49 – 2.5 B= 89-80 3 Points
C: 2.49 – 1.5 C= 79-70	2 Points	D: 1.49 – 0.5 D= 69-60 1 Point
F: 0.49 – 0.0 F= 59-00	0 Point	

Important Disclaimers:

1. Students giving no effort (receiving 0%) the 3rd , 4th Nine Weeks and Final exams may not pass a full year course regardless of the first semester performance.

G.P.A. Formula

The committee to evaluate and recommend the formula for calculating final grades as well as G.P.A has adopted a solution:

For 1 credit courses (Year-Long classes):

- Six grades will determine a final grade for the course
- The four nine weeks grades and a midterm and final assessment grade will comprise the six grades
- Each nine weeks grade will be worth 20% of the final grade
- The mid-term and final will each be worth 10%

STRUTHERS CITY SCHOOLS

BOARD OF EDUCATION OFFICE

Mr. Peter J. Pirone Jr., Superintendent
Mr. Ryan R. Cene, Treasurer

For Semester courses:

- Three grades will determine a final grade for semester courses
 - The two nine weeks grades and a final assessment grade will comprise the three grades
 - Each grade period will be worth 40% and the final exam will be worth 20% of the final grade
- Only the final grades will be used in determining Grade Point Averages.

College Credit Plus 30 CH Policy:

Determination of College Units/Full-time Status:

Assure each student does not exceed full-time status. Calculate full-time status as follows:

- 1) Determine student's number of high school ONLY units,
- 2) Multiply that number by 3, and
- 3) Subtract the result from the number 30.
- 4) That number is the total number of college credits that CCP students may earn that academic year.

Example 1: Struthers offers a possible 8 credits per day.

A student takes 4 credits per day at SHS.

$$4 \times 3 = 12$$

$$30 - 12 = 18 \text{ available credits left for CCP classes}$$

*** This student may earn a maximum of 18 college credit hours this year.**
