Strategies Teaching Educators, Parents, & Students  
A BRAIN INJURY SCHOOL RE-ENTRY CONSULTING PROGRAM

*A National Model for Concussion and  
Traumatic Brain Injury School Re-Entry Programs*

## Return to Learn After Concussion: Official Training Registration Process

## Steps to Register Official Return to Learn Concussion Management Team (CMT) Training Course

**STEP 1:** One person from the school building (typically the administrator) must go to [www.brainsteps.net](http://www.brainsteps.net) and click on the appropriate state's orange

**button:** "Concussion Management Team Registration"

- Enter the names of each individual team member who will be serving on the CMT
- If a school building has more than one CMT, this form will need to be filled out separately for each team.
- Each separate school-based CMT must consist of at least 1 Academic Monitor and 1 Symptom Monitor per team.
- Team members will not be approved for the training course unless their name is on this CMT list.
- The CMT training course is intended to provide training and processes specific to CMT members so they understand how to monitor and academically support students following a concussion.
  - The course is not intended for district wide-in-services.
  - The course must be viewed individually.

**STEP 2:** Next, each individual team member must register themselves at [concussions.brainsteps.net](http://concussions.brainsteps.net) to register to view the online 5.5 hour interactive *Official Return to Learn CMT Training Course*.

**STEP 3:** Within a few days, the BrainSTEPS Program will cross-check each team member's name with the school provided list of CMT members from STEP 1.

- An automated email will be sent to each CMT member at your school when their account has been approved.
- The CMT team members can then return to [concussions.brainsteps.net](http://concussions.brainsteps.net) to log in and begin the course.
