2024 Summer Olympics

The Olympics will be held in Paris, France. They will start on July 26 and end August 11. There are 40 Olympic games. Some include running, horseback riding, swimming, gymnastics, diving, marathon swimming, and many more. They have been attempting to clean the river for the past five years, so the swimmers are safe and healthy. The first Olympic games were in 776 BC in Greece. In ancient Greece, the only people allowed to be in the games were men, but they also had to do it nude. Today all athletes, men and women, are welcome, and fully clothed.
