

ISF Form: Re-enrollment-Annual Authorisation for Educational Local Field Trips 2025/2026

The School has planned a series of educational local field trips that are an integral part of the educational plan and class schedule and that will take place over the course of a single day, for a duration not exceeding the daily school hours and within the territory of the municipality of Florence/Bagno a Ripoli and/or neighboring municipalities.

In order not to require specific authorizations for each educational local field trip, the School considers it useful and appropriate to use a single authorization form valid for the entire school year 2025/2026. It is understood that parents will be notified, through the usual means of communication, of each educational local field trip.

Guided tours (taking place for a duration equal to or longer than the daily school hours and outside the territory of the municipality and/or neighboring municipalities) and educational trips (lasting more than one day and including at least one overnight stay) will continue to be authorized by families from time to time with a specific form.

Taking note of the above, parents/guardians:

- Are aware that participation in educational local field trips represent complementary activity to the lessons
- Declare that they are aware of the rules of conduct given by the accompanying teachers
- Release the School, except as provided for in the applicable law, from any liability for damage caused by the pupil(s) due to negligence, carelessness or non-compliance
- Authorize their child/ren to participate in educational local field trips that will take place during the 2025/2026 school year accompanied by the school personnel.
