

Baldwin Union Free School District **WORK-BASED LEARNING**

In order to effectively prepare our students for the future world of work, we need to allow them to explore career paths and various professions beyond the four walls of a classroom. Baldwin Union Free School District's award-winning School2Career program gives students the opportunity to experience the world of work firsthand.

Through our community partnerships, Baldwin High School students participate in internships, shadow days, seminars and paid-work experiences, which help develop transferable skills for college and career. Additionally, students can explore possible career interests and network with individuals in the workforce. For more than 20 years, the district has forged dozens of partnerships with public and private entities to allow for these unique real-work experiences to take place. Join us in our mission to reimagine education for the 21st century learner!

Benefits of Collaborating with Baldwin UFSD

- Make an impact on the life and professional development of a Baldwin student (see other side for specifics).
- Benefit from help with projects or tasks needed for the company or office.
- Gain brand advocates and increase publicity.
- Build up social media presence with our technology savvy learners.
- Lower recruitment costs.
- Obtain a new perspective to help develop your place of work.
- Develop more talented and innovative pool of future employees.
- Strengthen local business climate and foster economic growth by contributing to the creation of a skilled regional workforce.

HAVE AN IMPACT ON BALDWIN STUDENTS

As one of our community partners, you will help students:

- Gain real-world experience and increase marketability.
- Develop soft skills, such as problem solving, communication, teamwork, leadership, and critical thinking.
- Acquire technical skills in their career field of interest.
- Build a network that can lead to post-secondary opportunities.
- Get feedback from professionals to increase personal growth.
- Connect the classroom to real-world learning experiences.
