

Superintendent's Report

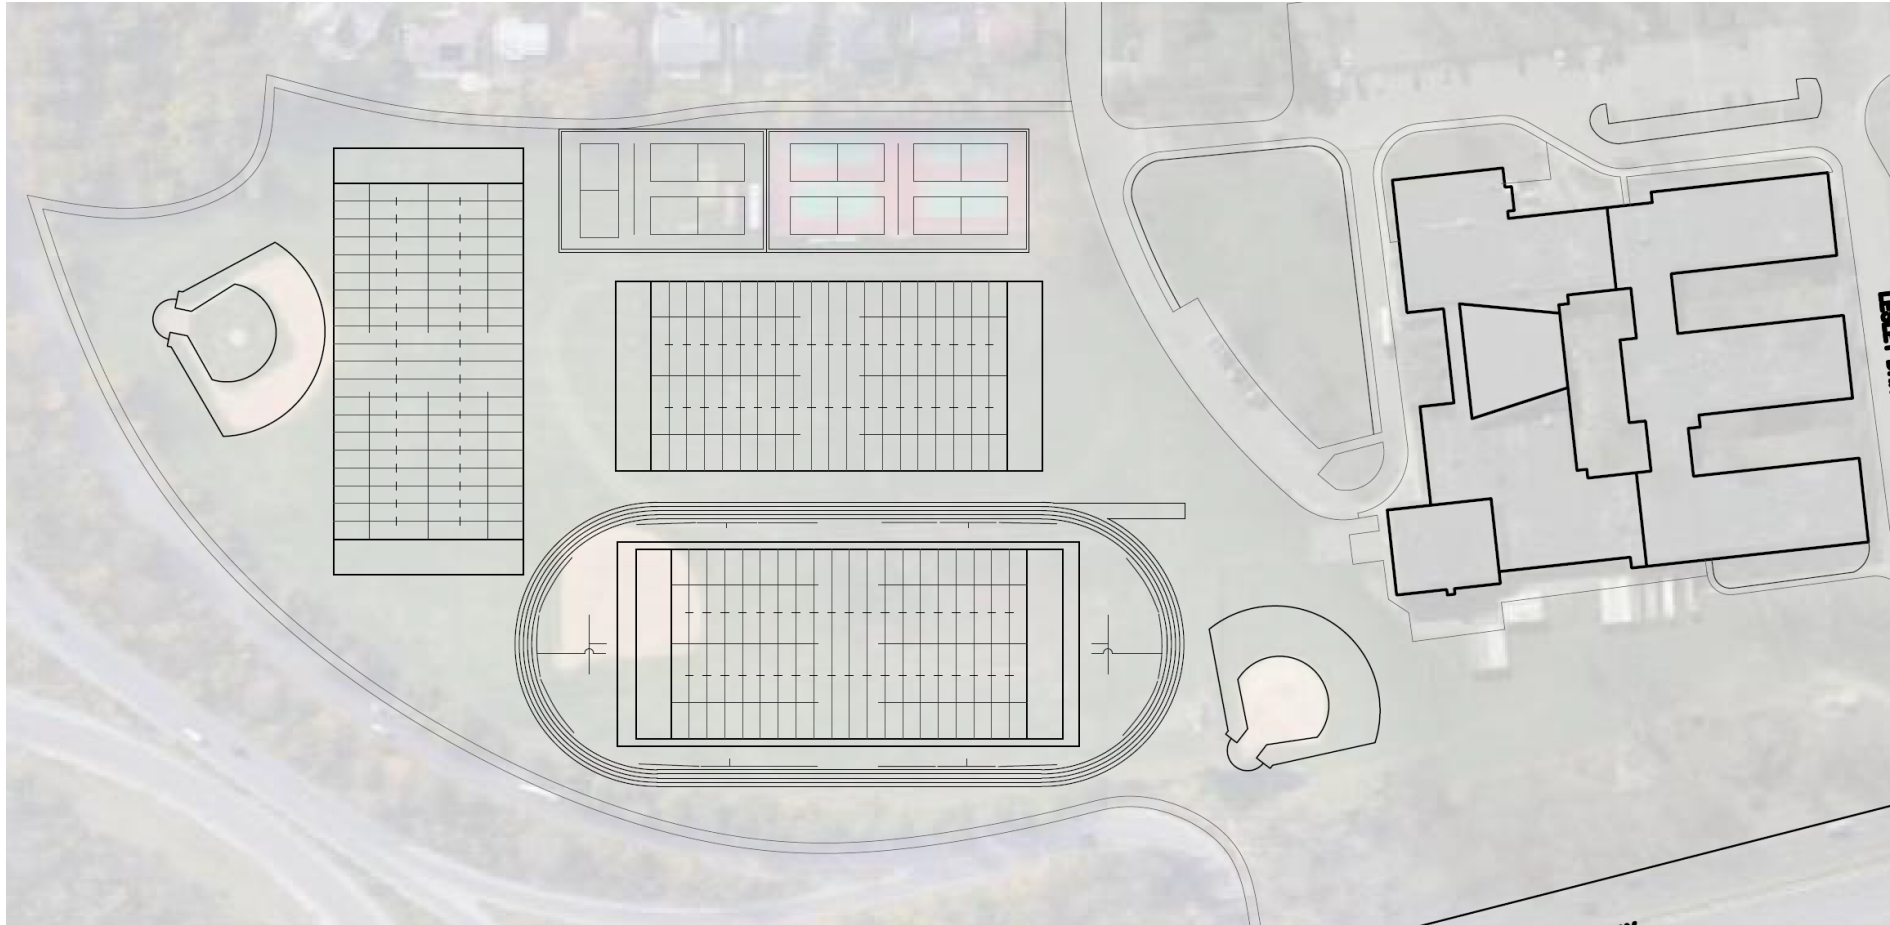

Syosset Central School District
October 2023

Woodbury School Potential Uses

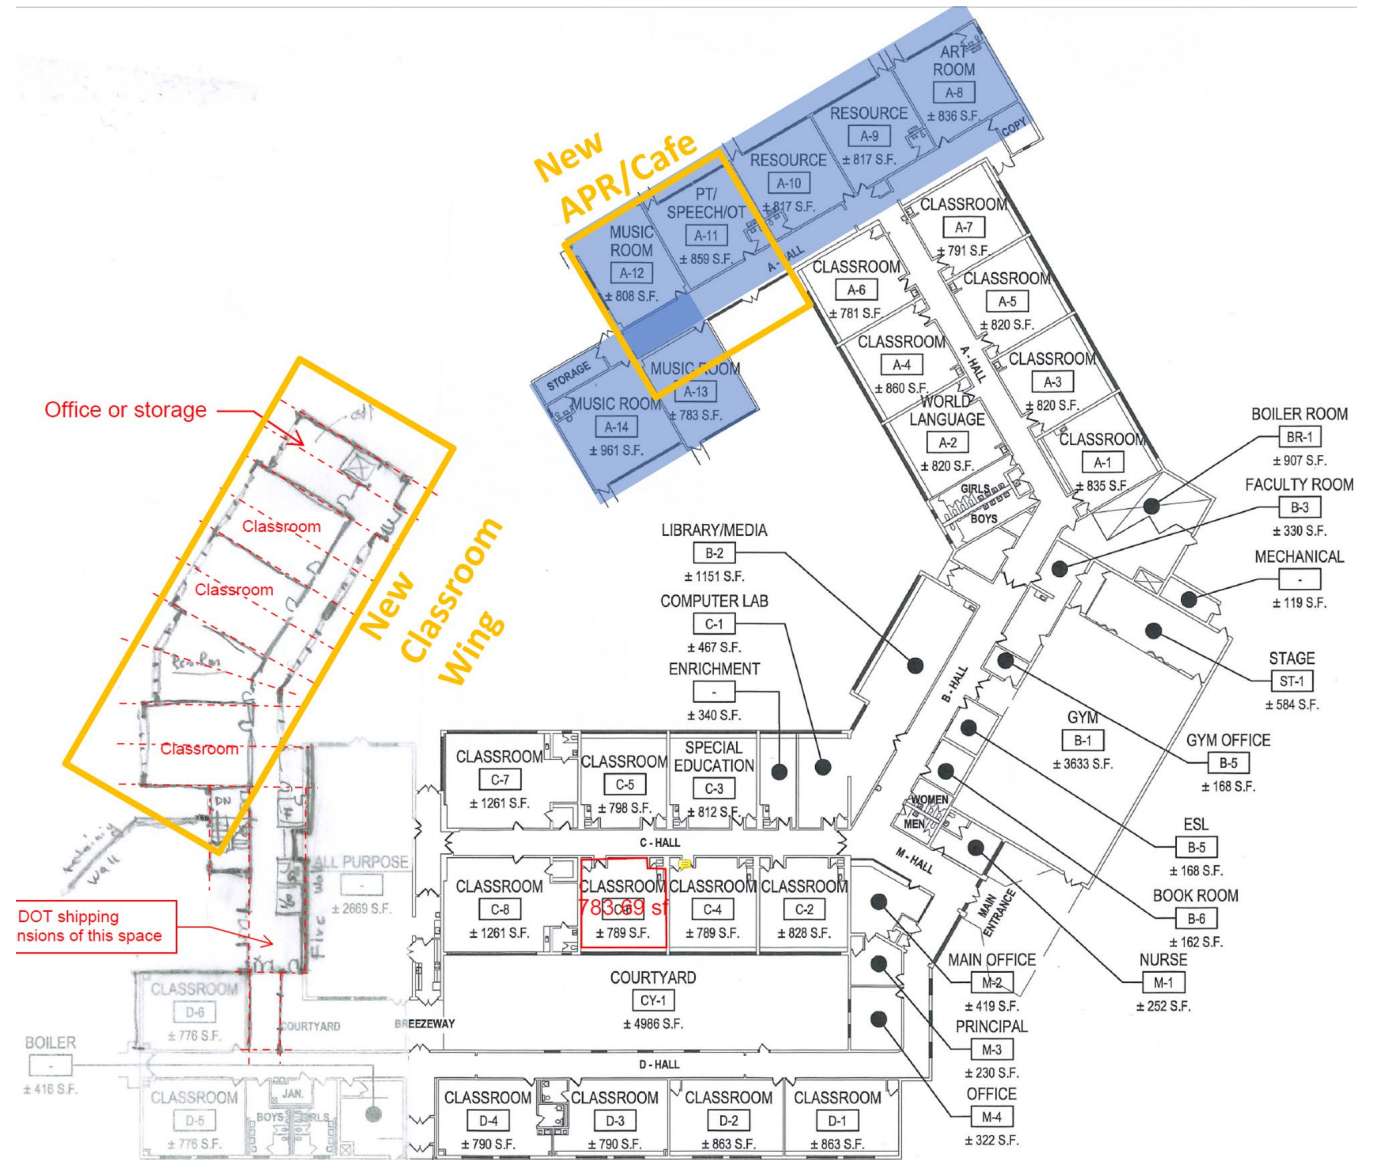

- Small Pre-k program
 - Would be aidable for construction
 - Gym would be used for PE, OT and PT services, etc.
 - The pre-K program could be targeted to service a more special needs population.
- Adult education
 - The Gym could be a multi-use space after hours for adult education (also building aidable).
- Staff professional development.
 - Using the gym as a multi-use space, it could serve as a conference area for staff training during the day when not needed for Pre-K gym/OT/PT.
- Community Center
 - The conference room/gym space might also be useful for community groups seeking to host after-hours meetings (homeowner associations, etc.).
- Business Office Space
 - We would relocate offices from South Woods to free up classroom space for growth.

HBT Site Plan (Conceptual)

Berry Hill Portable Replacement (Conceptual)

Facilities Priorities Layers

District	Bond	Project	Layer
	\$49.3 million	Annual Visual Inspections	Health & Safety

	\$1.9 million	HBT Track	Athletics Growth and Comparability
	\$8.7 million	Additional Gym SHS	

Breaking News?

- The Inflation Reduction Act may contain grant funds to deal with climate-related concerns, such as additional air conditioning in schools. We're exploring the viability for large spaces like gymnasiums.
