Happy Holidays

We hope everyone had a restful and joyful Thanksgiving break filled with gratitude and quality time with family and friends. During this holiday season, we are excited to highlight the achievements of our students

As a reminder, Christmas break will begin December 23rd and run through January 3rd. Let's make the final days of 2024 productive, meaningful, festive, and focused on learning.

Field Trips...

Our students have been expanding their horizons through a series of enlightening field trips. A group of students recently visited **Sinclair Community College's** STEM event, where they engaged with cutting-edge technologies and interacted with professionals in various scientific fields.

Additionally, a separate visit for the junior high schoolers went to the **Dayton Metro Library** to support younger learners and share a love for reading and research. Both trips underscored the importance of continuous learning beyond the classroom walls.

After School Activities

- ✓ High School Basketball
- ✓ High School Bowling
- ✓ Cheerleading
- ✓ Future Farmers of America (FFA)

Athletics

Our high school's JV and Varsity teams hit the courts for the first two games of the season, facing tough competition. While they came up short on the scoreboard, the players exhibited resilience, strong teamwork, and commendable sportsmanship.

The coaches and student-athletes are using these early-season challenges as learning experiences, refining their strategies, and motivating each other to come back stronger for future matchups.

Agriculture Updates

Our agriculture program is gearing up for an exciting new phase! We have recently installed advanced machinery that will greatly enhance our hands-on learning experiences, providing students with invaluable exposure to modern agricultural technology.

To showcase these developments, we're hosting an **Open House on January 13th**, where families, community members, and prospective students can tour the facilities, learn more about the updated tools, and meet the staff and students driving this transformation.

Smart Lab Update

We are proud to announce that the school's new **Smart Lab** is fully operational and ready for exploration. This state-of-the-art space features a 3-D Printer, green screen, and Apple computers.

The **Smart Lab** will provide the tools and resources for students to bring their dreams and ideas to life, develop digital skills, and engage in with interactive multimedia.
