

INTENT-

- To develop knowledge and understanding of key Biology, Chemistry and Physics topics
- Students to apply this knowledge and explain key ideas within Science, applying them to a range of typical and frequent assessment points.
- To develop basic practical skills and data analysis.

The bigger picture:

The year 7 curriculum starts to develop an understanding of key scientific concepts needed throughout the curriculum and creating a building block for later years. The curriculum is also designed to start developing an enquiring mind through key practical's that will allow for skills needed for Required practical's at GCSE to be built on.

**Bilton School Planning for Progress over Time
Programme of Study 2024/25**

IMPLEMENTATION

	Term 1 Introduction to Science, Acids & Alkalis, Cells								Term 2 Cells, Energy, Particles								Term 3 Particles, Energy, Reproduction								Term 4 Solubility Investigation, Electricity								Term 5 Electricity, Atoms & Elements								Term 6 Ecosystems, Ecosystems Project							
KS3	02/09/2024	09/09/2024	16/09/2024	23/09/2024	30/09/2024	07/10/2024	14/10/2024	21/10/2024	HOLIDAY: 1 WEEK	04/11/2024	11/11/2024	18/11/2024	25/11/2024	02/12/2024	09/12/2024	16/12/2024	HOLIDAY: 2 WEEKS	06/01/2025	13/01/2025	20/01/2025	27/01/2025	03/02/2025	10/02/2025	HOLIDAY: 1 WEEK	24/02/2025	03/03/2025	10/03/2025	17/03/2025	24/03/2025	31/03/2025	07/04/2025	HOLIDAY : 2 WEEKS	28/04/2025	05/05/2025	12/05/2025	19/05/2025	HOLIDAY : 1 WEEK	02/06/2025	09/06/2025	16/06/2025	23/06/2025	30/06/2025	07/07/2025	14/07/2025				
Year 7	TTD x 2, Intro to Science L1 Intro to Science L2, 3, 4 Intro to Science L5, 6, 7 (Review) ETT Acids & Alkalis L1, 2 Acids & Alkalis L3,4, 4.5 (Mid Review) Acids & Alkalis L5, 6 (Research Lesson), 7RP Acids & Alkalis L8RP, 9 (Revision), Cells 1 Cells L2, 3, 4								Cells L4.5 (Mid Review), 5 (Research Lesson), 6 Cells L7RP, 8RP, 9 (Revision) ETT Energy L1, 2 Energy L3, 4, 4.5 (Mid Review) Energy L5, 6, 7RP Energy L8RP, 9 (Revision), Particles L1 Particles L2, 3, 4								Particles L4.5 (Mid Review), 5, 6 Particles L7RP, 8RP, 9 (Revision) Reproduction L1, 2, 3 Reproduction L4, 4.5 (Mid Review), 5 Reproduction L6, 7RP, 8RP Reproduction L9 (Revision), ETT, Solubility Invest. Progress and assessment	End of topic test (ETT) Follow on questions to test previous knowledge through the Unit. FAR completed approximately every 6 lessons.								End of topic test (ETT) Follow on questions to test previous knowledge through the Unit. FAR completed approximately every 6 lessons.								End of topic test (ETT) Follow on questions to test previous knowledge through the Unit. FAR completed approximately every 6 lessons.								End of topic test (ETT) Follow on questions to test previous knowledge through the Unit. FAR completed approximately every 6 lessons.								End of topic test (ETT) Follow on questions to test previous knowledge through the Unit. FAR completed approximately every 6 lessons.															
Required Practical (RP)	Introduction to Science: Skills throughout Topic Diagrams/Units/Graphs Acids and Alkalis: Testing Substances with UI Making and recording observations.								Cells: Studying Cells Using a Microscope Writing a method Energy: Testing Energy in Food Graph								Particles: Making Crystals Writing a risk assessment. Reproduction: Skills Converting Units								Solubility Investigation Electricity: Voltage/Current Investigation Graph								Atoms and Elements: Skills Variables								Ecosystems: Quadrat Sampling Planning an Investigation							
Homework <i>(ensure that this is NOT stand alone, but clearly advances or embeds knowledge and understanding)</i>	Educake Homework								Educake Homework								Educake Homework								Educake Homework								Educake Homework															
Key Vocabulary/literacy opportunities	Introduction to Science: Laboratory, Safety, Goggles, Equipment, Method, Table, Graph, Results, Conclusion. Acids and Alkalis: Acid, Alkali, Neutral, Neutralisation, Indicator, pH Scale Cells: Cell, Nucleus, Cell Membrane, Cytoplasm, Cell Wall, Chloroplast, Diffusion, Osmosis, Organ, Organ System.								Cells: Cell, Nucleus, Cell Membrane, Cytoplasm, Cell Wall, Chloroplast, Specialised Cell, Diffusion, Osmosis, Organ, Organ System. Energy: Energy, Kinetic, Thermal, Light, Sound, Electrical, Chemical, Nuclear, Gravitational Potential, Elastic Potential, Transfer, Power, Work Done, Efficiency, Fuel								Particles: Particle, Solid, Liquid, Gas, Vibrate, Melting, Boiling, Diffusion, Pressure Reproduction: Reproduction, Sperm, Egg, Fertilisation, Foetus, Pollination, Seed Dispersal, Germination. Guided Reading Activity: Reproduction - To be confirmed								Electricity: Electricity, Ammeter, Voltmeter, Current, Potential Difference, Resistance, Series Circuit, Parallel Circuit								Atom and Elements: Atom, Element, Periodic Table, Properties, Metal, Non-metal, Groups, Periods Ecosystems: Respiration, Classification, Food Web, Food Chain, Producers, Consumers, Pesticides, Ecosystem, Habitat, Population. Guided Reading Activity: Exploration of the dangers of electricity and features of electrical devices that help to protect us from these dangers.								Ecosystems: Respiration, Classification, Food Web, Food Chain, Producers, Consumers, Pesticides, Ecosystem, Habitat, Population. Guided Reading Activity: Exploration of the different types of zoo and an evaluation of the advantages and disadvantages of their use in conservation.							

<p>National Curriculum Links</p>	<p>Acids and alkalis:</p> <ul style="list-style-type: none"> defining acids and alkalis in terms of neutralisation reactions the pH scale for measuring acidity/alkalinity; and indicators reactions of acids with metals to produce a salt plus hydrogen reactions of acids with alkalis to produce a salt plus water <p>Cells:</p> <ul style="list-style-type: none"> cells as the fundamental unit of living organisms, including how to observe, interpret and record cell structure using a light microscope the functions of the cell wall, cell membrane, cytoplasm, nucleus, vacuole, mitochondria and chloroplasts the similarities and differences between plant and animal cells 	<p>Cells:</p> <ul style="list-style-type: none"> cells as the fundamental unit of living organisms, including how to observe, interpret and record cell structure using a light microscope the functions of the cell wall, cell membrane, cytoplasm, nucleus, vacuole, mitochondria and chloroplasts the similarities and differences between plant and animal cells <p>Energy:</p> <ul style="list-style-type: none"> comparing energy values of different foods (from labels) (kJ) comparing power ratings of appliances in watts (W, kW) comparing amounts of energy transferred (J, kJ, kW hour) simple machines give bigger force but at the expense of smaller movement (and vice versa): product of force and displacement unchanged other processes that involve energy transfer: changing motion, dropping an object, completing an electrical circuit, stretching a spring, metabolism of food, burning fuels. 	<p>Particles:</p> <ul style="list-style-type: none"> the properties of the different states of matter (solid, liquid and gas) in terms of the particle model, including gas pressure changes of state in terms of the particle model. conservation of material and of mass, and reversibility, in melting, freezing, evaporation, sublimation, condensation, dissolving diffusion in liquids and gases driven by differences in concentration <p>Reproduction:</p> <ul style="list-style-type: none"> reproduction in humans (as an example of a mammal), including the structure and function of the male and female reproductive systems, menstrual cycle (without details of hormones), gametes, fertilisation, gestation and birth, to include the effect of maternal lifestyle on the foetus through the placenta reproduction in plants, including flower structure, wind and insect pollination, fertilisation, seed and fruit formation and dispersal, including quantitative investigation of some dispersal mechanisms. 	<p>Electricity:</p> <ul style="list-style-type: none"> electric current, measured in amperes, in circuits, series and parallel circuits, currents add where branches meet and current as flow of charge potential difference, measured in volts, battery and bulb ratings; resistance, measured in ohms, as the ratio of potential difference (p.d.) to current differences in resistance between conducting and insulating components (quantitative). 	<p>Atoms and Elements:</p> <ul style="list-style-type: none"> a simple (Dalton) atomic model differences between atoms, elements and compounds chemical symbols and formulae for elements and compounds the varying physical and chemical properties of different elements the principles underpinning the Mendeleev Periodic Table the Periodic Table: periods and groups; metals and non-metals how patterns in reactions can be predicted with reference to the Periodic Table <p>Ecosystems:</p> <ul style="list-style-type: none"> the interdependence of organisms in an ecosystem, including food webs and insect pollinated crops the importance of plant reproduction through insect pollination in human food security how organisms affect, and are affected by, their environment, including the accumulation of toxic materials. 	<p>Ecosystems:</p> <ul style="list-style-type: none"> the interdependence of organisms in an ecosystem, including food webs and insect pollinated crops the importance of plant reproduction through insect pollination in human food security how organisms affect, and are affected by, their environment, including the accumulation of toxic materials.
