

2023-2024 ACPS TECHNOLOGY SURVEY RESULTS SECONDARY STUDENTS

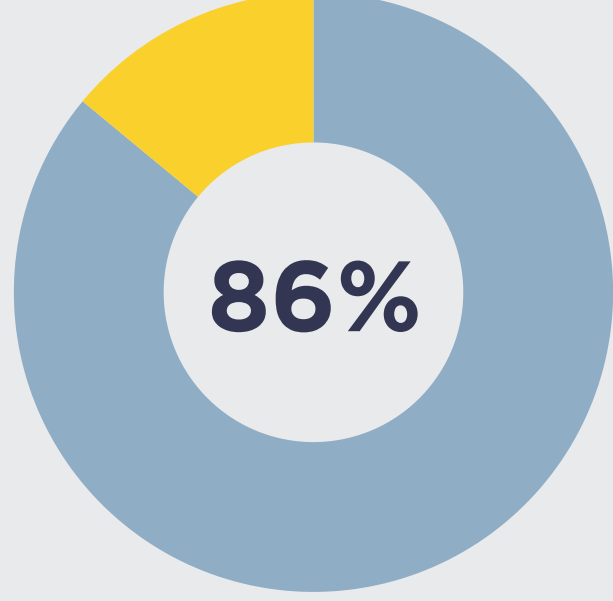

PARTICIPATION RATES

3006 middle and high school students participated in this year's survey. This represents **41%** of students.*

*as of March 2024 enrollment

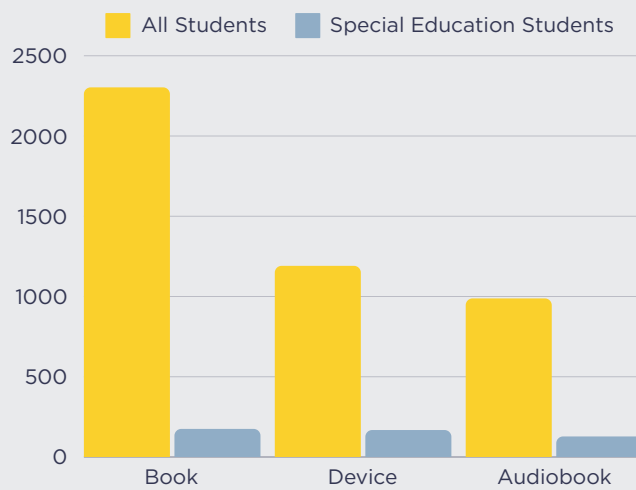

DIGITAL CITIZENSHIP

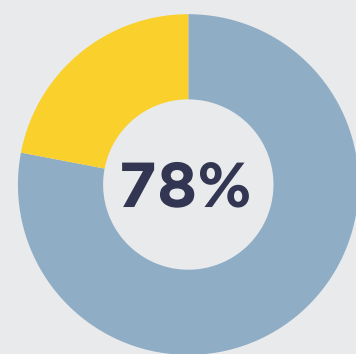

86% of students report receiving instruction in digital citizenship.

READING PREFERENCES

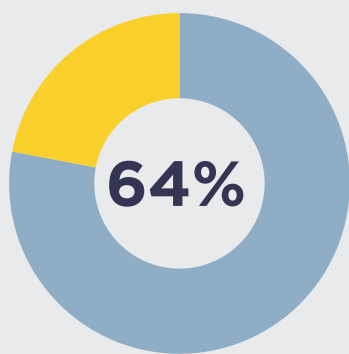

While all students generally prefer reading with a book, SPED students have an equal preference for reading with a book or device.

TRUSTED ADULTS

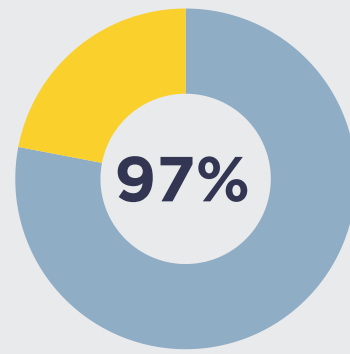

78% of students report having a trusted adult in school to report online incidents to.

JOB READINESS

64% of students report that school is preparing them with needed technology skills for the workforce.

STUDENT GRADES

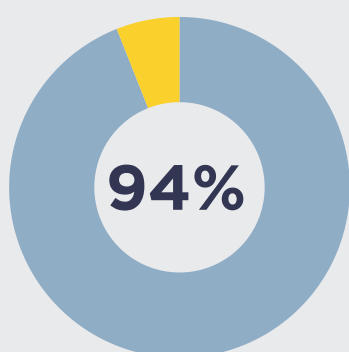

97% of students report that they know how to check their grades in PowerSchool.

COMMUNICATION

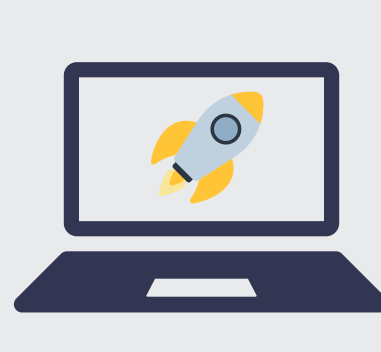

Most students prefer a balance of face-to-face and email, over other forms of teacher communication.

HOME INTERNET

95% of students report having reliable or sometimes reliable high-speed internet at home.

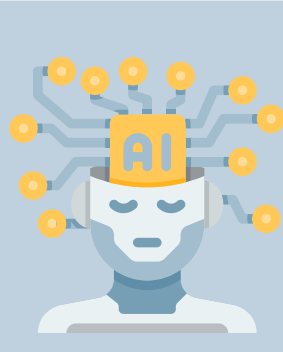

SCHOOL DEVICES

A majority of students feel that their school technology is fast enough to complete their work.

ARTIFICIAL INTELLIGENCE

AI Use

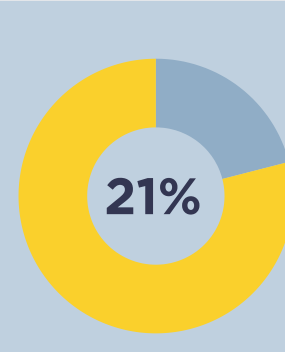

A **majority** of students report that they have not used any common generative AI tools, such as ChatGPT or CoPilot.

AI Risks

Students are equally interested in learning about **how generative AI works**, as well as its **privacy risks**.

AI Ethics

21% of students report learning about AI ethics in school. ACPS will implement new AI ethics lessons in Fall 2024.

LEARNING MANAGEMENT & ASSESSMENT

Overall, **most students** report that Schoology (our Learning Management System) and Illuminate (our assessment system) are **meeting their needs**.
