Regular Meeting

SUBJECT: 2024 California Schools Dashboard Report

December 16, 2024

---

### BACKGROUND

The 2024 California Schools Dashboard was released to the schools and the public in November. The Dashboard is a part of a State and Federal accountability system including eleven local and state indicators compared to previous years' indicators to show growth or the lack thereof. Information is presented by district, school, and sub-group, and is available to all at <https://www.caschooldashboard.org/>. Data is indicated by colored gauges with blue indicating the ideal for all categories, with Red representing the lowest end of the spectrum. This year, the College and Career Readiness indicator is represented by the colored gauge for the first time since both growth and status are available. The Science indicator is on the Dashboard for the first time, but does not have a color since there is only one year of data, so no comparison can be made. The Local Indicators are either Standard Met or Standard Not Met. The purpose of the Dashboard is to give meaningful data to all educational partners regarding areas of strength and areas for continuing improvement in student learning and achievement.

### ANALYSIS

Oakdale Joint Unified's 2024 CA Dashboard shows that OJUSD is in line with State results and with the results of other districts in the county. For the Local Indicators, which contain both quantitative and narrative data, OJUSD received Standard Met on all five indicators. Chronic Absenteeism has shown a further reduction this year keeping OJUSD in the Yellow/Medium category, and Suspension Rate has improved to Yellow/Medium from Orange/Low as behaviors improved slightly. The Academic Indicators, which include English Language Arts and Math, both improved with English moving from the Yellow to the Green/High category and math remaining in the Yellow/Medium category. English Learner Progress remains in the Green/High category, and our Graduation Rate improved, putting the District in the Blue/Very High category. College and Career Readiness, which received a low last year, though no color categories were applied, has moved to the Yellow/Medium category, with a small improvement that we will build upon.

### REPORT

Gillian Wegener will present a report on the 2024 California School Dashboard.
