MEDIA RELEASE

Foundation for Fresno Unified Students Receives Grant from PG&E Foundation

The Foundation for Fresno Unified Students has been awarded $25,000 in funding from the PG&E Foundation. The grant is being used to purchase jackets for students in Fresno Unified.

"On behalf of the Foundation for Fresno Unified Students, we are deeply grateful to the PG&E Foundation for their generous $25,000 grant. This support will provide essential warmth and comfort to our students, ensuring they are equipped and ready to learn during the colder months. Thank you for investing in the well-being and success of our Fresno Unified students," said Wendy McCulley, CEO, Foundation for Fresno Unified Students.

The Foundation for Fresno Unified Students is the strategic fundraising partner for Fresno Unified, working with schools, the district and the community to accelerate progress for students

through the funding of highest impact investments.

“We are grateful to community partners like PG&E, who are providing direct assistance to our students through funds for jackets to keep them warm in the months ahead,” said Interim Superintendent Misty Her.

“We are pleased to partner with the Foundation for Fresno Unified Students in providing funds for jackets. The district provides educational and enrichment programming for over 70,000 students, and it is an honor to step in and help meet the needs of those who may need a jacket to keep warm this winter season, enabling students to focus on their academic success,” said Joshua Simes, vice president, PG&E.
