Enrollment key protects your course by only allowing those with the key to enroll into your course. When students register for your course they will be asked for the course ID and enrollment key if you created one.

Don't forget to make the course available to students by checking the box.

Your course has been created!
For students to enroll in this course via direct login, you will need to provide them two things:
 The course ID: 79825 Tell them to leave the enrollment key blank, since you didn't specify one. The enrollment key acts like a strangers from enrolling in your course. If you want to set an enrollment key, modify your course settings
If you plan to integrate this course with your school's Learning Management System (LMS), it looks like your sch LTI key and secret established - check with your LMS admin. If so, you will not need to set up a course-level co course-level configuration for some reason, the key and secret can be found in your course settings
