 - This update will require LEAs to download the new version of the tool from the TSDS 'Utilities' webpage.
 - During this download, LEAs **may** also be asked to download and update to .Net 8.0.4 to completely update the tool.

TSDS SUBMISSION REMINDERS

ECDS PK Assessment Data Reminders:

- LEAs will need to obtain their Beginning of Year/End of Year (BOY/EOY) PK assessment data directly from their ECDS PK assessment vendor. LEAs will load this data into the ODS, as they have done in prior years.
- LEAs must load their Student Parent Extension XML from their Student Information System (SIS) prior to loading their Prekindergarten Assessment Metadata and Student Assessment Data into the ODS.
- LEAs are encouraged to work with their ECDS PK assessment vendors, as soon as possible, to resolve any issues with their BOY/EOY assessment data related to missing or incorrect student UIDs.

DATA STANDARDS & GOVERNANCE TEAM

TEDS UPDATES

PEIMS Summer Submission rule **44425-0078** has been downgraded from a fatal to a special warning. **LEAs will need to revalidate their data to clear this rule as a fatal.**

- 44425-0078 states, 'If DISCIPLINARY-ACTION-REASON-CODE is 04, then the DATE-OF-DISCIPLINARY-ACTION must be less than (before) September 1, 2023.'
 - In August of 2023, **DISCIPLINARY-ACTION-REASON-CODE '04'** was a valid code, but on September 1, 2023, it was no longer a valid code.
 - TEA collects the **DATE-OF-DISCIPLINARY-ACTION (E1036)**, which is defined as the date on which the disciplinary assignment was **ordered**, not the date that the incident occurred.
 - The Issue: Students that were assigned DISCIPLINARY-ACTION-REASON-CODE '04- Possessed, Sold, Used, or Was Under The Influence Of Marijuana or Other Controlled Substance' at the end of August may have been ordered one assignment at the end of August and a second assignment in September. For example:
 - The first action of OSS is dated in August to accurately report when the action was assigned.
 - The second action of DAEP is dated in September to accurately report when the action was assigned.
 - **The above error is firing because the second DATE-OF-DISCIPLINARY-ACTION was assigned in September.**

- The following TSDS Upgrade Project guidance has been recently published:
 - Education Organization
 - School Calendar
 - Enrollment
 - Restraint
 - Student Special Education Program Eligibility Association
 - Student Identification Demographics

Welcome to the DMC

The Data Management Center (DMC) consists of an application that allows you to monitor and validate your data, and an individual operational data store (IODS) that serves your local organization. Education organizations store all of their TSDS reporting data in their individual ODS prior to promoting it to the data collections in TSDS. Together, these two systems:

- Allow LEAs and ESCs to synchronize near-real-time updates via API between their source systems and their IODS
- Enable LEAs and ESCs to perform rigorous validations on their data early in the submission process
- Provide LEAs and ESCs the ability to search and view their data in their IODS

Use the button below to monitor, and validate your organization's data and administer your IODS.
