TIA and Class Roster Winter Submission

For many Texas school systems, Class Roster Winter Submission will be business as usual. TIA guidance and training will only apply to districts that meet one or more of the following criteria:

- Employ teachers who are National Board Certified (NBCTs)
- Employ teachers with an existing TIA designation
- Will be approved to issue new 23-24 teacher designations under their local designation system (district notifications on 2.1.24)

You may be wondering,

- How will districts know if they employ one of these teachers?
- How will ESCs know which districts this applies to?

In mid-February, our team will notify districts and provide them with a list of designated teachers reported in their district's Fall PEIMS. Those districts will be invited to attend our live district webinar on February 22. ESCs will also receive a list of districts by region that employ designated teachers.

Keep an eye out for an email from TIA, Teacher Incentive Allotment, for your LEA's list of designated teachers as well as the invite for the district webinar schedule for February 22. I will keep you posted as we receive additional information.

REPORT UPDATES

- The following ECDS Submission report will be updated to correct three issues:
 1. Missing assessment and demographic details for students, if their course had no teacher of record.
 2. Student, staff, course data header information on the report that displays if the Campus is not found.
 3. Total students with ≥ 112 days in a PK program or in a HQ program displaying incorrect counts in the summary box.
 4. Total enrollment for all PK School Types not matching the aggregated total of each PK school type listed in the summary box.

- **ECDO-000-006 Early Childhood PK Data Submission**

VALIDATION RULE UPDATES

- The following ECDS validation rule will be updated to correct an issue where the rule failed to fire as it should:
