- Reporting in PEIMS Fall and Summer Submission

DR47

ASSOCIATE-DEGREE-INDICATOR-CODE (E1596) indicates that the student earned an associate degree by August 31, immediately following graduation.

An associate degree is defined as an award that normally requires at least 2 but less than 4 years of full-time equivalent college work in a grouping of courses designed to lead the individual directly to employment in a specific career or to transfer to an upper-level baccalaureate program. This specifically refers to the associate of arts, associate of science, associate of applied arts, associate of applied science, associate of arts in teaching, and associate of occupational studies degrees. The term "applied" in an associate degree name indicates a program in which the content is primarily technical. (Source: Texas Higher Education Coordinating Board Glossary of Terms)

For the 2023-2024 PEIMS Fall Submission (1):

Local education agencies (LEAs) should report the associate degree earned by a graduate (if not previously reported) from the 2022-2023 school year using the PARTICIPATION-INDICATOR-CODE (C088) table.

For the 2023-2024 PEIMS Summer Submission (3):

LEAs should report the associate degree earned at any point in the 2023-2024 school year by a student in 11th or 12th grade using the ASSOCIATE-DEGREE-INDICATOR (C235) table.

For the 2024-2025 PEIMS Fall Submissions and after:

The district where the student received the associate degree will be the district to report this information using the ASSOCIATE-DEGREE-INDICATOR (C235) table. Schools should not wait to report the associate degree information at the point of graduation if the student earns the associate degree prior to graduation. It should be reported in the next PEIMS Submission after the degree is earned.

A student may be reported as having earned an associate degree at any point while in 11th or 12th grade or by August 31 immediately following graduation.
