

Bosc Pear

**Color me your
favorite color!**

The thick skin of a Bosc (pronounced BAHtsk) Pear is golden tan while the ivory to off-white flesh is firm, dense, and crisp with an intense honeyed aroma. When ripe, Bosc pears are juicy, crunchy, and have a very sweet flavor.

Bosc is a fast favorite among pear lovers and has been for years, which is why it is one of the world's most popular pears.

Bosc Pears contain vitamin A, vitamin E, niacin, pantothenic acid, choline, betaine, calcium, iron, phosphorus, zinc and selenium.

**Help the Pear find
their way through
the maze!**
