

# — Measuring Success — Education Data Sources

## California School Dashboard

The Dashboard is an online tool designed to help communities access important information about TK-12 schools and districts. The Dashboard features easy-to-read reports on multiple measures of school success. Accountability plan metrics are linked to dashboard indicators at the district and school site level.

## DataQuest

Additional reports are available on DataQuest, including more detailed information about school performance, test results, student enrollment, English learner, graduation and dropout, school staffing, course enrollment, and special education enrollment by program setting.

## CAASSP / ELPAC

CAASSP reports test scores from the Smarter Balanced Assessment System (ELA and Math), CA Science Test, CA Alternate Assessments, and additional optional tools. These standardized tests provide necessary achievement data to comply with federal laws.

The ELPAC is used to determine and monitor the progress of the English language proficiency for students whose primary language is not English. It assesses four domains: listening, speaking, reading, and writing. ELPAC scores are one of the criteria for English Learner reclassification.

## Kim's PUSD Reports

### Ed Source

this third party organization aggregates data from the dashboard and provides tools for comparison between districts.

## ED Data

Ed-Data is a partnership of the California Department of Education, EdSource, and the Fiscal Crisis and Management Assistance Team (FCMAT). It allows users to create graphs over time of education data, provides access to financial information, and allows for comparisons between districts.

## Other Sources

### Special Education Indicator Report

Indicators aligned with state and national targets publicly available in a weird word doc.

### School Accountability Report Card (SARC)

Lots of the same stuff as the Dashboard, plus school-level details on curriculum, facilities, class sizes, staff like counselors, and some salary information.

### California Healthy Kids Survey

The California Healthy Kids Survey (CHKS) is an anonymous, confidential survey of school climate and safety, student wellness, and youth resiliency.
