

## **Athletic Liaison: 12/12/24**

**Girls Basketball:** The girls basketball team starts the year with 17 players on both JV and Varsity, while the junior high program has 19 players. The high school team started the season with a 4-0 win streak. They just recently won their tip-off tournament at Tulpehocken this past weekend with wins over Schuylkill Valley and Upper Perk. The girls finish their week of games with a home game vs. Susquenita on Wednesday and an away game against Octorara on Friday. The girls have the opportunity to make a strong playoff run this season.

**Boys Basketball:** The boys basketball team starts the year with 16 players on both JV and Varsity. While the junior high program has 24 players. The high school team is coached by 2nd-year head coach Ehren Graybill and looks to build off their encouraging start from last season. The boys lost a tough-fought game to Garden Sport during their home opener. They then went 1-2 in their tip-off tournament at Tulpehocken. The boys will host Northern Lebanon this Friday, where we will be inducting three new members into PV's Hall of Fame during halftime. The boys team goal is to make the district playoffs this season.

**Wrestling:** The wrestling team has 12 wrestlers on the varsity team, while the junior high team has 13 wrestlers. The team consists of a couple returning wrestlers, but the core of their team is relatively new to wrestling. The boys lost their first match to Northern Lebanon but had a productive tournament last Saturday at Springfield High School, where they won two dual matches. The boys wrestle at ELCO this Wednesday and cap the week off with an individual tournament that Pequea Valley will be hosting this Saturday in our high school gym.

**Winter Cheer:** Winter Cheer has made great improvements from last year, as they now have 12 cheerleaders for the season compared to only 5 from last season. Our new coaching staff of Ashley Brown and Sara Cochran has done a great job at keeping cheerleaders from the fall interested in continuing to cheer in the winter season. They are developing new cheers, stunts, and halftime routines to help cheer on our winter teams.
