

The Monster

I was in my bed reading when I heard my sister crying. I ran into my sister's room and I said "What?" She said "I saw a face!" I looked where she was pointing. I saw the face in the corner of the room too and I screamed! My mom came as soon as she saw the door shut. She unlocked it and still couldn't open it. Me and my sister saw the blob coming out of the shadow. The blob said to us "do not scream or I will take you away." My sister and I froze. The blob looked happy. Mom screamed "Kids are you okay?" My sister screamed "no!" I screamed when I saw the blob getting closer to us. The blob said to us "I will take you now." I saw my mom knock down the door. She looked frightened at what she saw. My sister and I ran towards our mother and cried "mom! He is going to take us away now!" Mom replied "Don't worry, he won't take you away!" The blob skimmed its way towards us. "Stop right there!" mom screamed. The blob stopped and replied "okay! okay! I will stay right here. I just want to make friends." Mother cautiously walked towards my phone that I dropped by the door to call Ghost Busters. The Blob grabbed the

Phone out of my moms hands,
and slimed away through
the window. My sister, mother,
and I ran towards the window
and saw the blob heading towards
our neighbors house. My mother ran
downstairs to grab the home phone
to call Ghost Busters. I heard her
say to them "we have a blob monster
in our neighborhood and it is
heading towards our neighbors
house, please hurry! you can track my
daughters phone since he took
it with him." Ten minutes
later we saw three Ghost
Buster guys getting out of their
van running towards our neighbors
house. My mom, sister, and I
went outside to see what was going
to happen next. The Ghost Busters
turned on their machine yelling "blob,
it is time to go home!" we saw blob
being sucked into the big
machine and told us "Don't worry, he won't
be back ever again. You guys are safe."
My sister, mom, and I went to bed
peacefully. I got a new phone the
next day.

The Closet of Darkness

by Sabryn Johnson

Chapter I

It was a dark and stormy night, a young girl sees a closet and the doors creaked open. She walked inside and sees a light, a mysterious light. She walks closer and closer then picks up the light but it faded away. She then runs towards the closet door, but she couldn't get out she was trapped, trapped in the darkness. No way out!

Her socks, her shoes, and her pants begin to feel wet, "OH NO," she says. "Water? Am I going to drown?"

^{Sad}
(Singing). "I'm an orphan girl, at least my mom won't miss me!"

All of the sudden, the lights turn on, the water goes down. Mr. Friendly our janitor appears in the light, but changes into a clown. Then the lights go out! "What am I going to do?" The lights begin to flash and it seems to be 100 clowns.

(sinister music plays Da Da Da da)

She starts to run away from the

Clowns. She is terrified of clowns. "Why?" She keeps running, "Why is this happening to me?" She falls and can't get up. She can't walk, her leg is broke. It feels like a boulder is on her leg. ^(cry singing) "Help me, Find me now."

Then she passes out.....

Chapter 2.

She wakes up, only to hear mumbling and feels something squeezing her leg, its a bright red cast. The lights flash again, the clowns are gone. Her body is wet once more, this time its not water! She is laying in a puddle of blood. She screams "Is that my blood!!" She sits up, little did she know someone or something is right behind her. A hand grabs her shoulder, she jerks around to see but.....

She wakes up still with a cast on her leg. It was only a dream.

The house of monsters

Once there was a house of monsters that people were moving into. When they got there they stepped into the house and unpacked their stuff. They opened one of the closets and saw a monster! They jumped with fright and ran away. The monster said don't be scared I am nice, but the people did not believe him. They told their friends and they all said go talk to him, be nice. So they went to their new house and talked to the monster. He said I have no friends.

Will you be my friends? Yes we will be your
friend. they didn't see the smile on the monster's
face, the monster said he wanted a hug ok,
all the people said, so the monster picked them
up and pretended to hug them. the monster held
them by his mouth and ate them in one bite!

Haf a gat day

It is a monster story. A scary one. It happened under the bed. The little boy named Cole looked under his bed because he heard something. When he looked, there was nothing. So he went back to bed. But, he heard something so he checked again. There was a monster. He followed the monster and crawled under the bed because the swamp monster said, "come on, I want to show you something cool!" They opened the door that said Party and there was a big monster party. There were really cool crazy monsters there. Like, Skeletons and invisible monsters and ones that can fly. Cole went into the party and danced, and played games. He listened to the monster mash song and played tag. It was a great party. When you left the party there was a pumpkin patch where you can get a pumpkin and take a hay ride. The hay ride took you back to your bedroom. It was the night before Halloween and every time that comes around, there is a Halloween Monster Party. The swamp monster wants you to come again next year! The end.

I had no idea what to do sweat dropping off the floor tired eyes about to fall and then i see this i look down and theres a tongue under me and its drinking the sweat it knew It knew i was there but I couldn't run i knew i was surrounded.

Chapter 3 my plan.

So i had to make my own plan to protect myself OF COURSE this is what it was step 1 quietly go out the door step 2 drive the car until we reach the military base step 3 ask for help it was a pretty good idea so i did it i went out to reach for help cause im cool and because im gonna die if i don't.

Chapter 4 reaching out.

I got to the military base and I was trying to get in there but it was locked and shooting noises like they were fighting so I looked up and I saw a helicopter and it was shooting missiles everything was getting destroyed and I heard HELP! I look to my left and an alien was attacking this little boy i had to stop him so i ran and punched that alien as hard as i could in the forehead he was knocked out i ask if the kids ok he says he's fine LUCKLY he would not be on ground if i didn't save him.

Chapter 5 its on.

So turns out he knows karate and his name is jake so he knocked out 5 aliens and i killed 14 but i find this gun i the ground so of course i picked it up and we were killing them faster then lightning and they bring out stronger aliens sadly but still it was kinda easy and then BOOM BOOM BOOM i see this titan sized alien i was shocked helicopter shooting it but they just got crushed by that titanic sized thing but then i hear IM GETTING ATTACKED i quickly shot whatever was hurting jake and helped him up and then start running as fast as i could i was carrying jake in 1 hand and the gun in the other i run and run then i turn the corner and hide behind a bush all of the aliens turned the corner but didn't see me then i ran to the car and drive home with the kid.

Chapter 6 new house member.

So me and the kid got to my house first thing i did is go in the garage and shoot that alien puppy thing until i find out it's now a grown dog it's not a puppy anymore so i shot it and i was so stupid for doing that i regretted it a second or two later i here right now still regret it and that was like years ago what happened was lots a goo came out long story short i slammed the door and then i see my calendar on the ground i realize only 2 more days until halloween i knew it would be the hardest night to survive in two days.

Chapter 7 the next day.

A day before halloween i knew i would have to do something about it but then i saw aliens alot heading for the house we had to leave if i didn't i would die so i did i woke up jake then we hoped in the car and i hoped once we got to the place i wake up sadly i didn't but we did arrive at the place.

Chapter 8 rocket to the moon.

We arrived at the rocket finally i was less stressed from arriving here the thing we needed to do was go to the moon in the rocket but sadly we needed to do something unforgettable one of us needed to leave the other what we needed to do was one of us needed to set the rocket on and flying but that's when i thought it once we set the rocket we run to get inside it was a great idea and it worked i never thought it would not work but it did i was surprised and before we went in the rocket of course we put on gear.

Chapter 9 bad fail.

Remember how i said "i thought the plan would fail but it worked" it didn't it failed miserably and i knew it at first what happened was we accidentally sen the rocket TO MARS i thought he sent the rocket to the moon but he didn't we crashed sadly and this was the last time i saw jake as we crashed he floated away but then i see a hole a big one it was like an alien meeting place but it had a thing on the wall it was the picture of earth they have been planning to attack earth i was in shock and then i see misles in neptune i wondered why but then i saw they were heading to the sun i needed to go back in time but i couldn't i needed to think fast.

Chapter 1: Doomsday

One spooky night, it was 10:00... and then it happened... a horrible shriek from the graveyard. Then zombies started walking toward one boy named Flare Black. The zombies reached the house and they started to pound on the door. Flare grabbed his backpack, food, water, some weapons, and his phone. He opened the garage and ran out of the garage, but that's when he realized that the zombies were at every house. Zombies were slamming down doors, people running for their lives luckily as you know zombies are slow, then quickly got away. But there were still more zombies and monsters ahead.

Chapter 2

Luck

It was dawn and Flare grabbed a handful of dry cereal and water. After he finished he heard HUGE footsteps a monster's footsteps and it was HUGE at least 40 feet big it had a lot of fur, with big fangs. It charged at Flare, Flare ran the monster was so big that in two steps it already by accident past him then it came back it accidentally past him again, Flare got away. This was a whole new life. Flare realized it was a HUGE werewolf, Flare didn't know what was going on all he knew was that something was going on.

Chapter 3

Friend

Flare found a good sized house and went inside he locked all the doors then put his stuff down he went down on the couch and fell asleep almost instantly. That night he had a dream about a bike with a ghost on it then a 10 ton garbage truck came to life and destroyed the city. When Flare woke up he used the bathroom when he was done he had breakfast, after that he grabbed his things and left knowing there were still people out there. Flare was walking down a path and all the sudden a boy came running down the path and then they realized who they were. Flare the boy shouted then Flare realized he was his best friend Fred.
