

Comprehensive Mental Health Support for LILA Students

At Lakes International Language Academy (LILA), we are committed to supporting the overall well-being of our students. We are excited to announce a new partnership with the experienced team at Lakes Center for Youth & Families to provide comprehensive mental health services on our campus.

Personalized Care and Comprehensive Services

The Lakes Center for Youth & Families team offers personalized care and a wide range of services designed to help our students navigate life's ups and downs, build resilience, and unlock their fullest potential. They provide the resources our students need to achieve lasting change and live their best lives.

Accessible and Affordable Support

LILA has partnered with Lakes Center for Youth & Families to offer on-site mental health services for our students. They bill services through the student's insurance, and also offer low-cost options for families who are uninsured or underinsured.

Referral Process

There are two ways to refer students for these services:

1. Directly refer a student's guardians to Lakes Center, where they can complete the Youth Intake Packet. They can reach out via phone or email at Receptionist@lc4yf.org.
2. Have the student's guardian complete the Youth Intake Packet and send it to Lakes Center for processing. Completed packets can be sent via fax or email to Receptionist@lc4yf.org.

Availability and Accessibility

Currently, the therapist, Cristina, does not have any LILA clients and has open availability to meet with students on Thursdays. She can visit both school sites and is available to start as early as October 10th.

We are thrilled to offer this additional support for our families and to create a nurturing environment where our students can thrive. If you have any questions, please feel free to reach out.
