

“Restrooms need more stalls”

“Wrestling room it shouldn't look almost run down”

“we need an upgraded school”

“The whole school because its too small for the amount of students.”

“The hallways need to be wider.”

“The hallways and classrooms are way too small for the amount of students that we have”

WE ASKED STUDENTS ANSWERED

“The new gym isn't so "new" anymore with the leaking ceilings”

“All of the classrooms need to be updated”

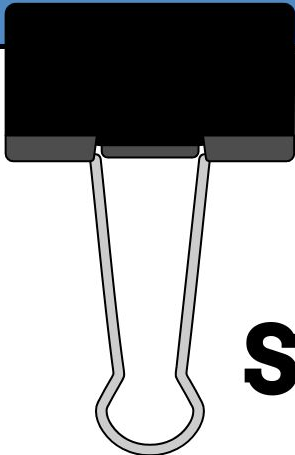

“the WHOLE school needs to be redone”

“Bigger classrooms upstairs”

“The band room lacks storage.”

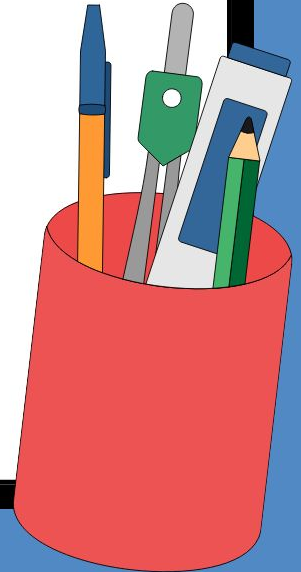

“We don't have a trainer are we broke or what”

“The school stair wells are hard to get into and out of during passing time.”

STUDENT FEEDBACK ABOUT HIGH SCHOOL FACILITIES

2024

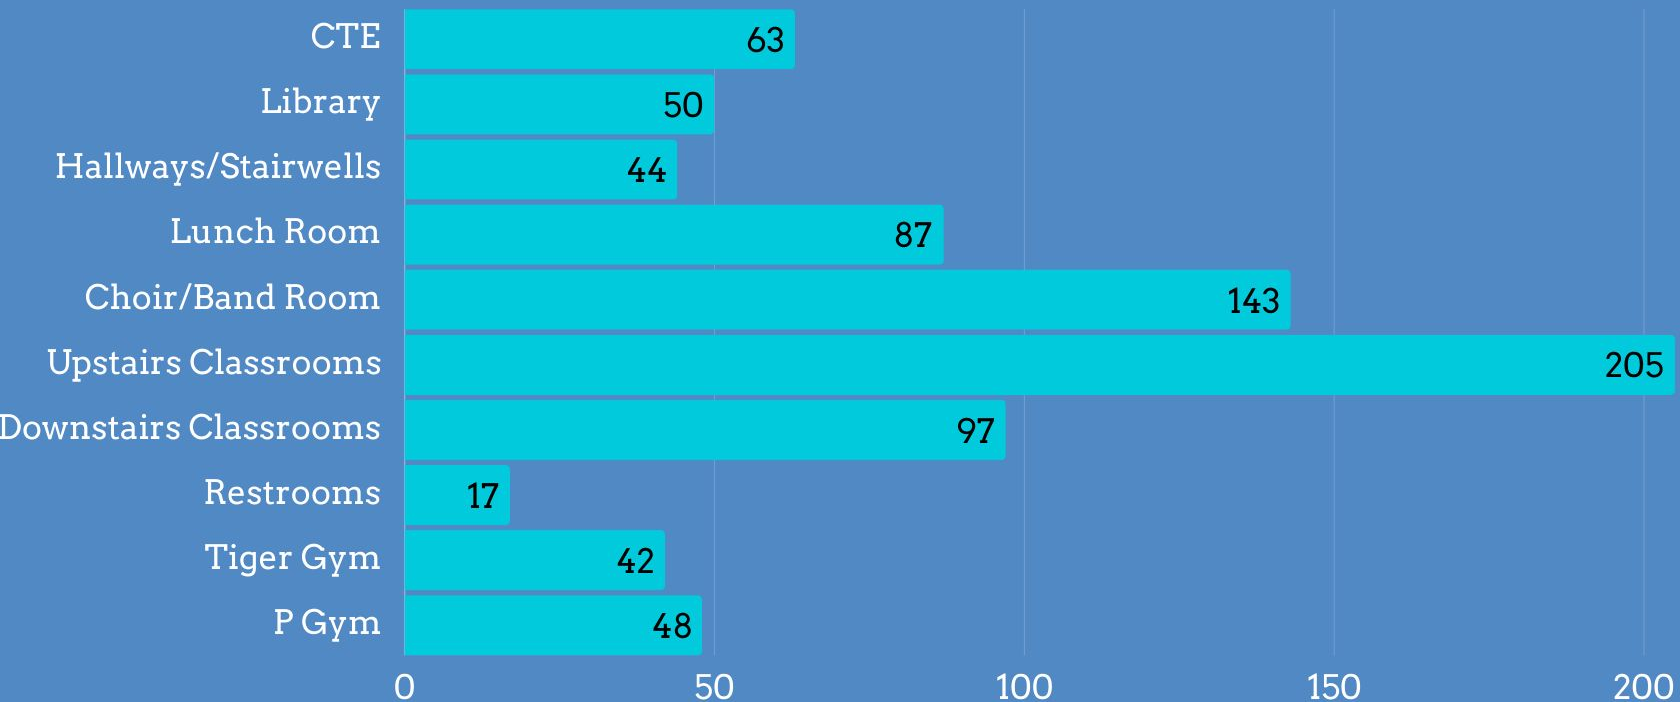

WHAT WAS THE GOAL?

- Wanted the student's opinion on how they felt about the High School Facility.
- Provide Community Task Force, School Board and possibly the community with a clear insight on how the students felt.

TIMELINE

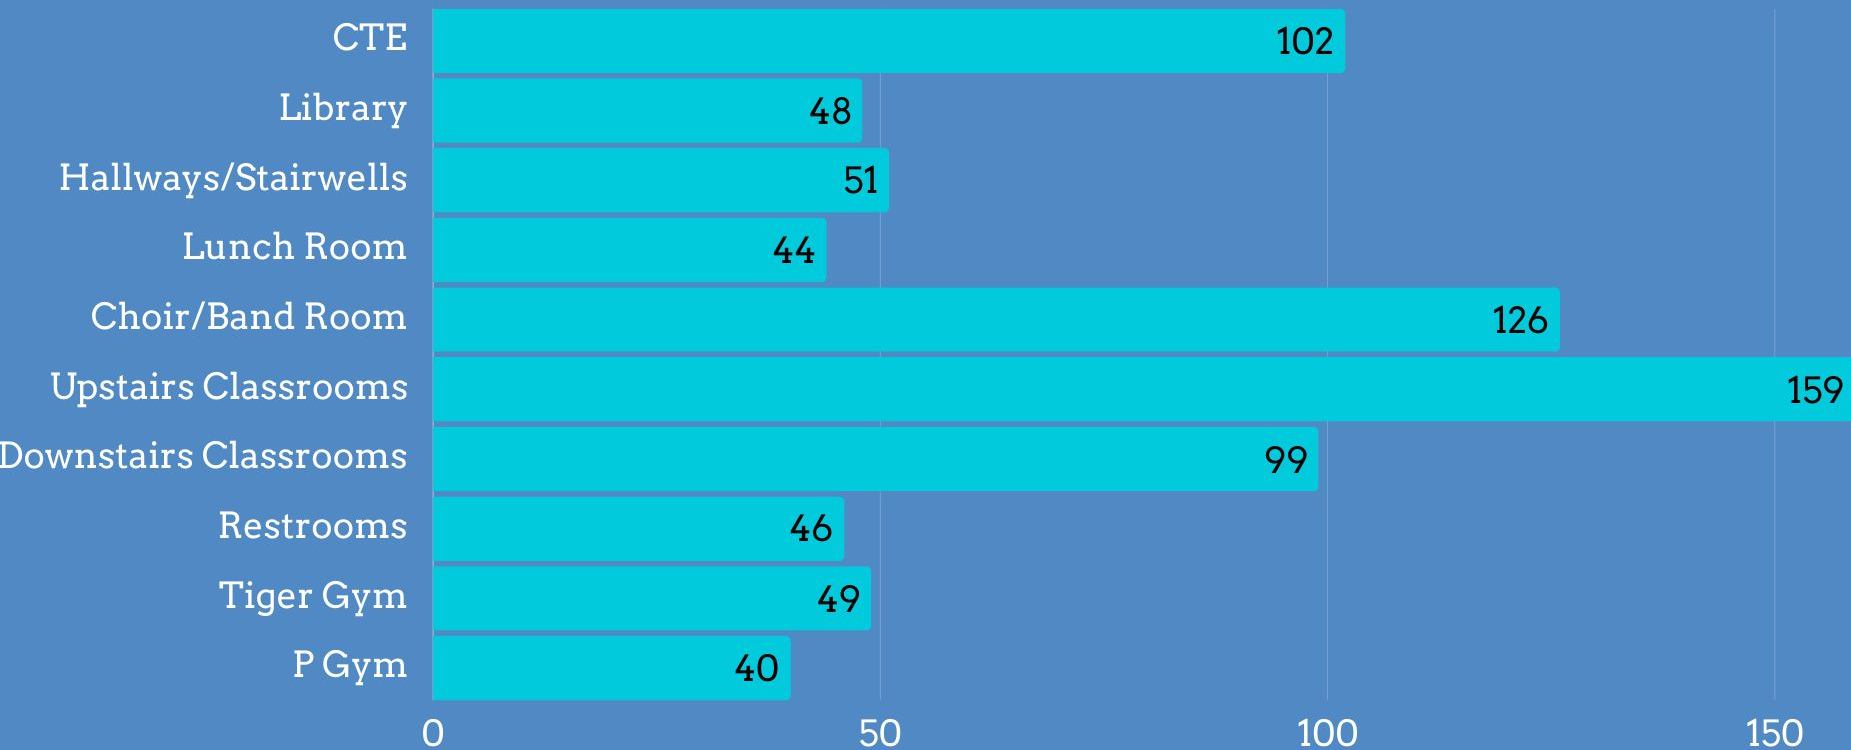

- Sent out morning of Dec. 4th
- Closed at 3pm Dec. 6th
- Total Responses: 271

Pick the top three places where the temperature effects your learning.

“I think that the choir room needs to be improved. The circulation and temperature regulations in the choir room are very irregular. Sometimes it is very difficult to breathe when the room is overly stuffy and hot (this is quite a hazard in a class that requires extensive breathing).”

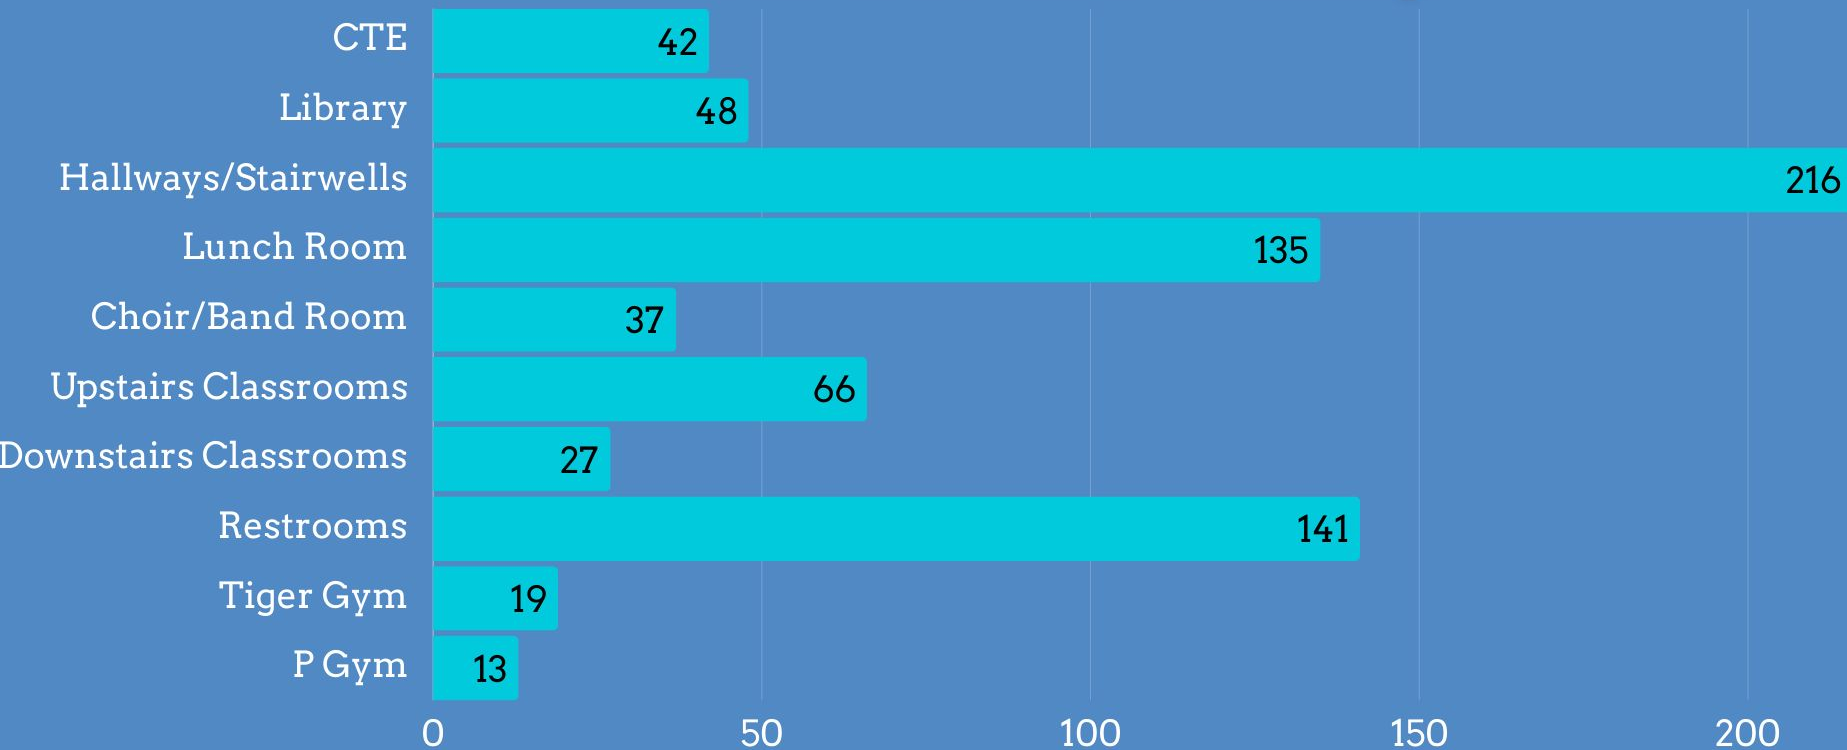

Pick the top three places where the ventilation is not adequate, making it hard for you to work.

“The shops need more adequate ventilation. The fumes are so thick it is a haze during a welding class. All of these fumes are harmful and should not be breathed in, which is why better ventilation is needed. Also, the shop needs more space/storage space. It gets crowded during welding, and there isn't enough space to put more welders in so all the students can actually weld at the same time. The shop also needs new insulation because I can see asbestos in the walls, and kids keep tearing it out. Finally, security cameras should be installed because there are super expensive items that can't be replaced, and it would cost more to replace those items than to put in a camera system. This is why the shop should be renovated and added on.”

“I feel the shop/welding classroom should have an improved ventilation system, and I feel the shop should have a classroom off the main work area so that the teacher can give instructions that can be easily heard by students. Also, if there is a sub, they should have somewhere to observe/teach the kids without them wrecking any expensive equipment in the shop without teacher supervision.”

Pick the top three places where you feel it is too crowded or noisy.

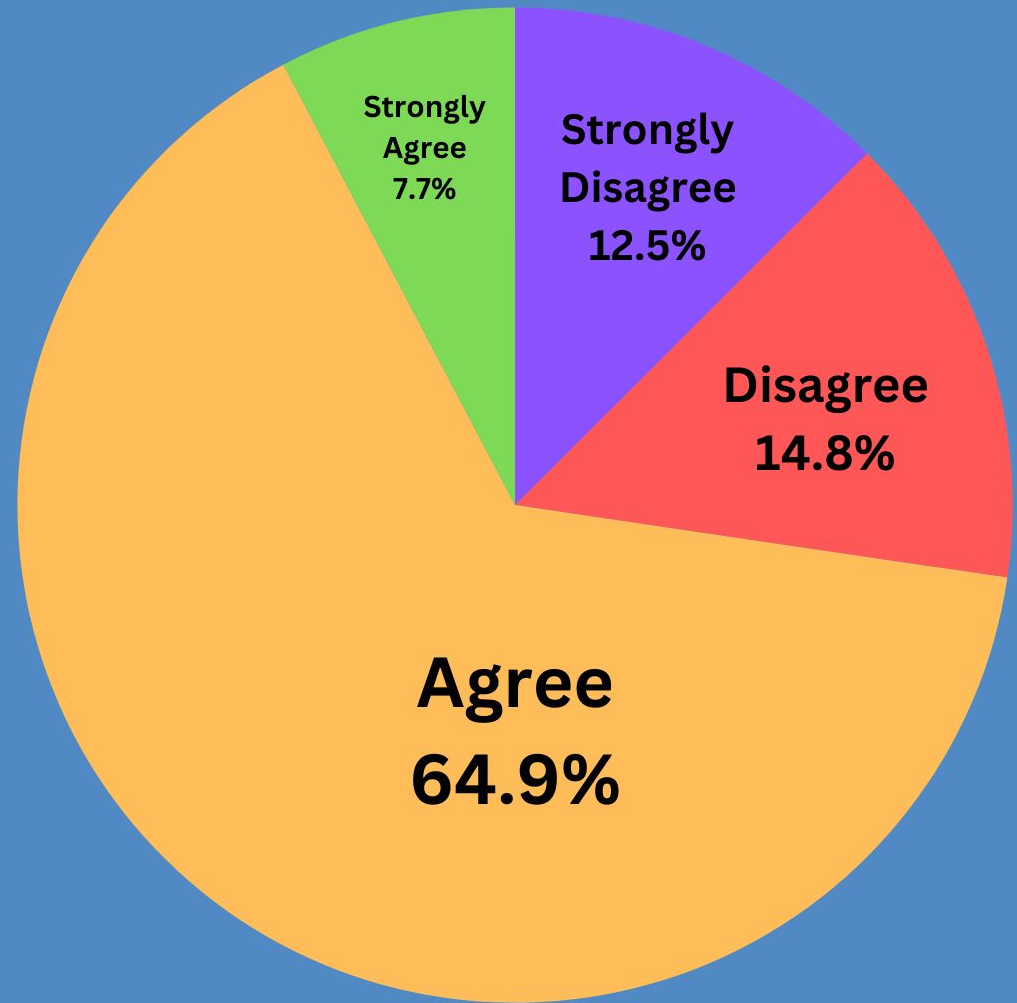

“Welding shop needs more welders. Every class that Mr. Storbakken has he has at least 3 kids just sitting at tables waiting for a welder to be open which also causes those kids to be behind on those welds.”

“The hallways are extremely small for the large amount of students walking through them everyday, some classes rooms are not ideal for some teachers classes (hammans, mukves old room, freddy, mores, tewalt, mattick, engbrecht, gracik) as examples, for the things they do and their class sizes it's far too small to house that many kids in one classroom without it getting uncomfortable. Let's be honest the school could use a upgrade.”

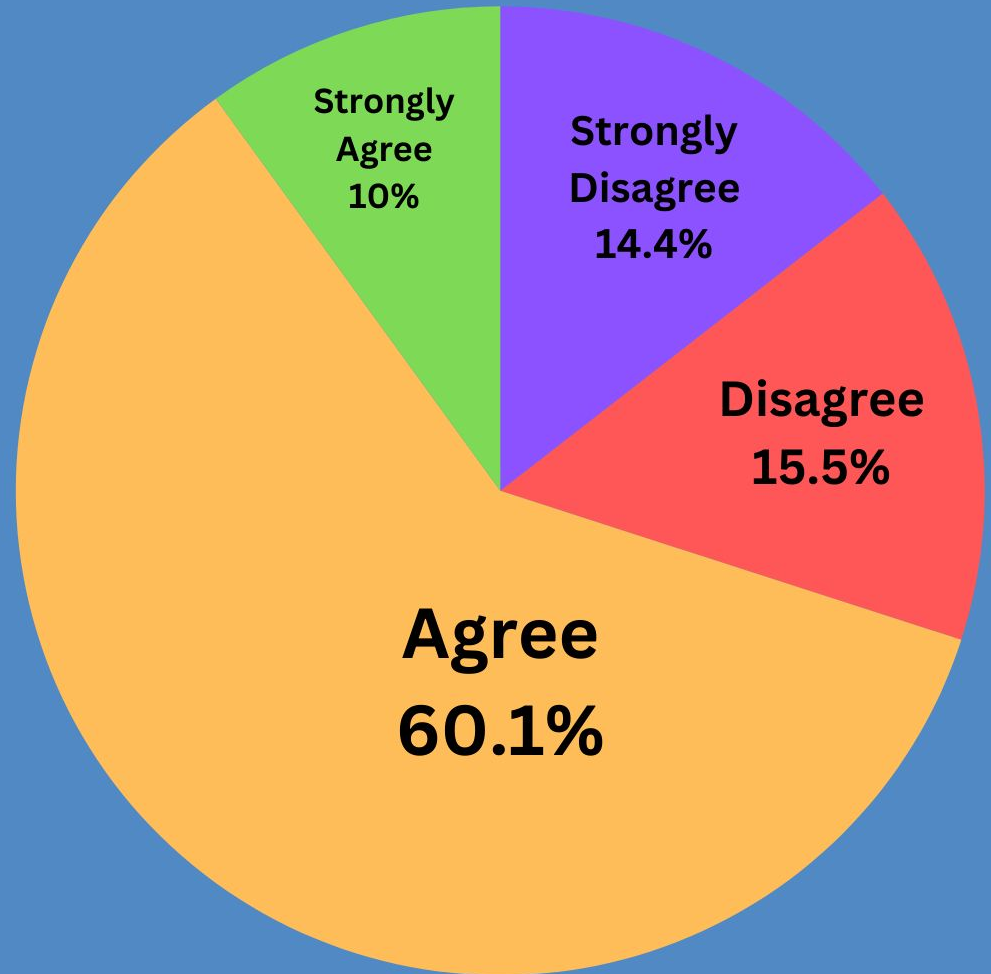

Pick the top three spaces that you feel do NOT have adequate lighting (either artificial or natural lighting).

**Do our High
school Facilities
allow you to
perform at your
best
academically?**

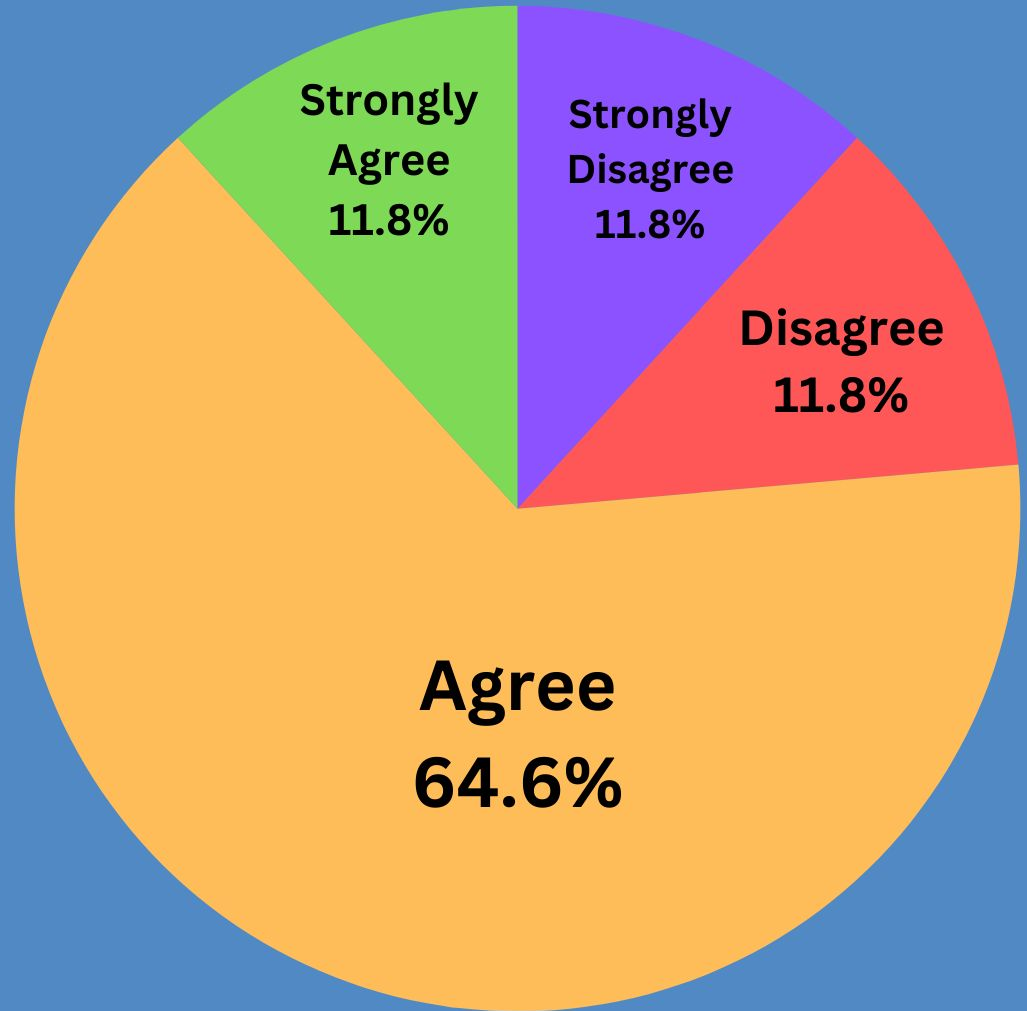

**Do our High
school Facilities
allow you to
perform at your
best in athletics
and/or
activities?**

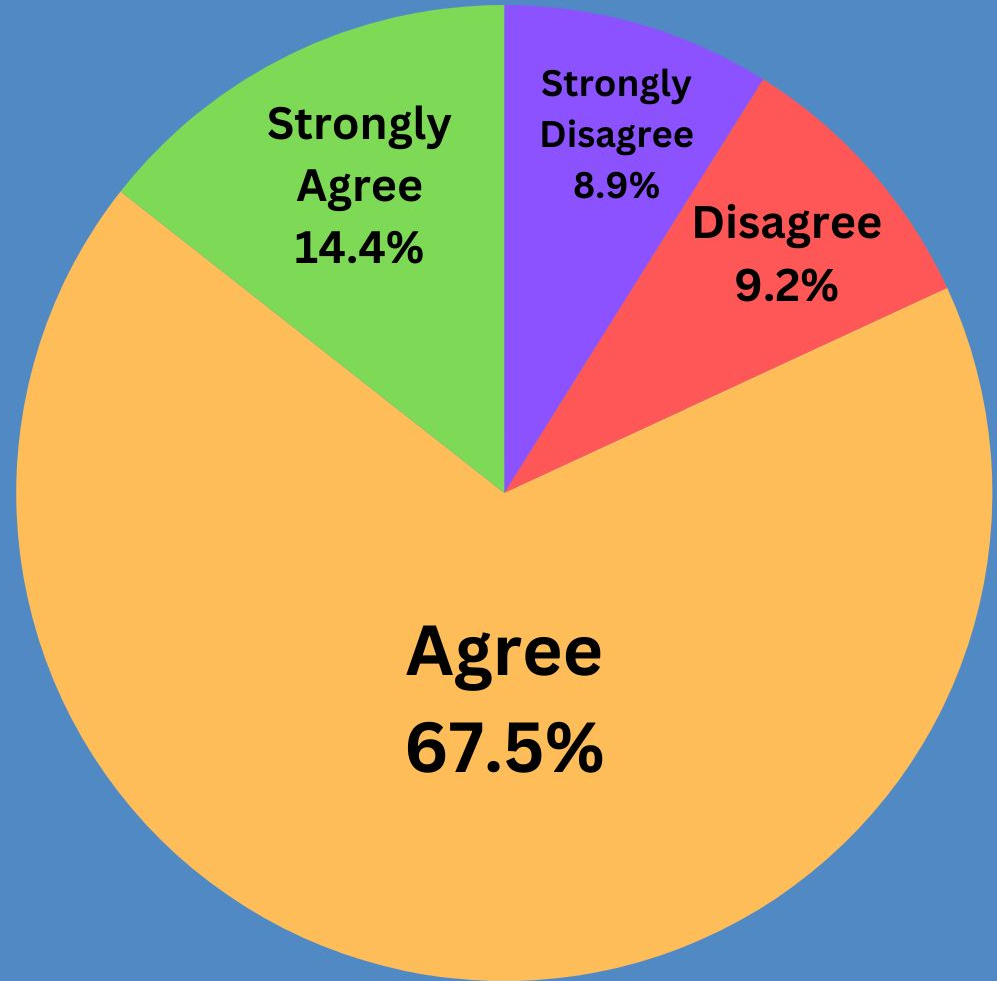

“I think that if we had a complete remodel or Just a new school in general it would be great for everyone, for all sports no matter what it is in general they all come to the high school and it would be nice to have a presentable high school for everyone to enjoy students staff visitors, one thing on my mind I can speak on is a bigger space for wrestling so basically new wrestling room because especially this year we have a lot more middle schoolers they’re back in the downstairs room we have a lot of kids on our team in high school including a big jump towards a future women’s wrestling team and when this continues to grow we are going to need new and bigger facilities because the rooms are Just simply too small for the amount of kids we have, we’ve actually had a few guys get hurt this season specifically because of the space issue guys falling on one another because it’s too small and it would be nice for the whole wrestling community to get a new facility.”

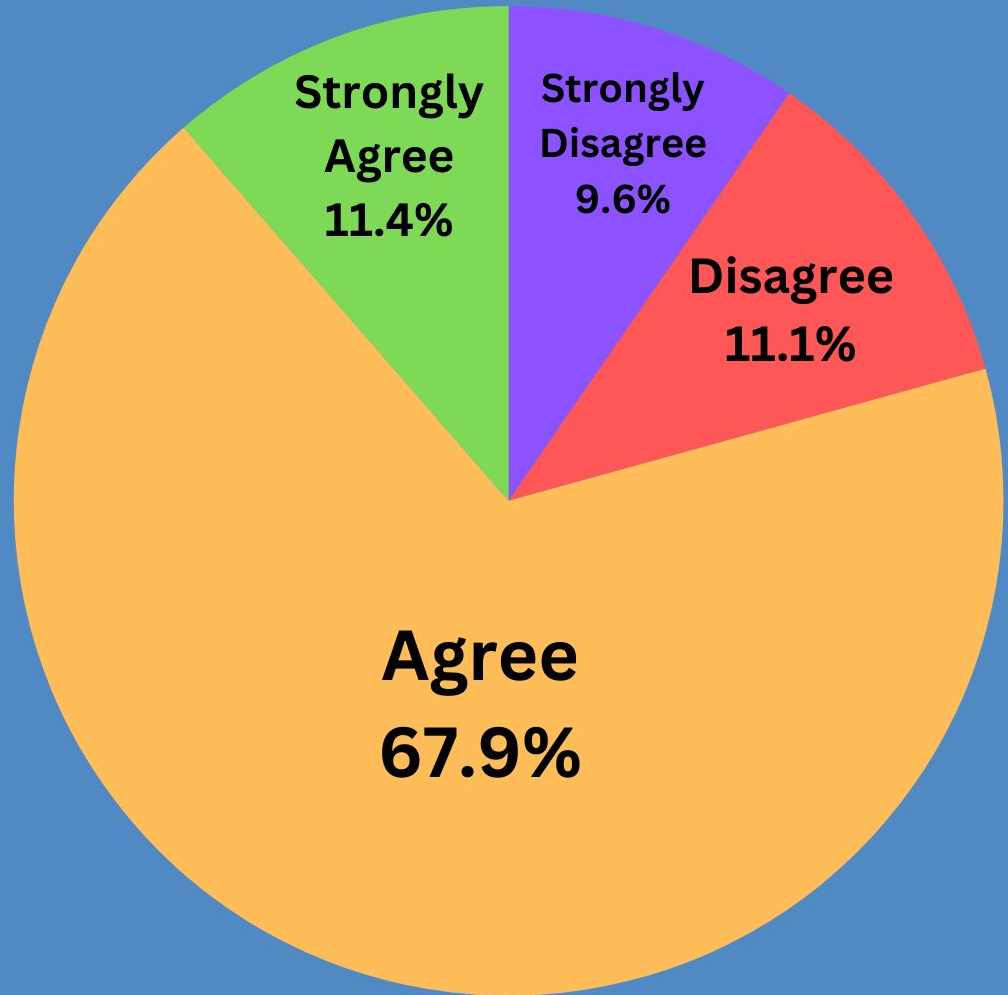

**Does the high
school building
allow all students
to have adequate
access to every
facility, regardless
of their
physical ability?**

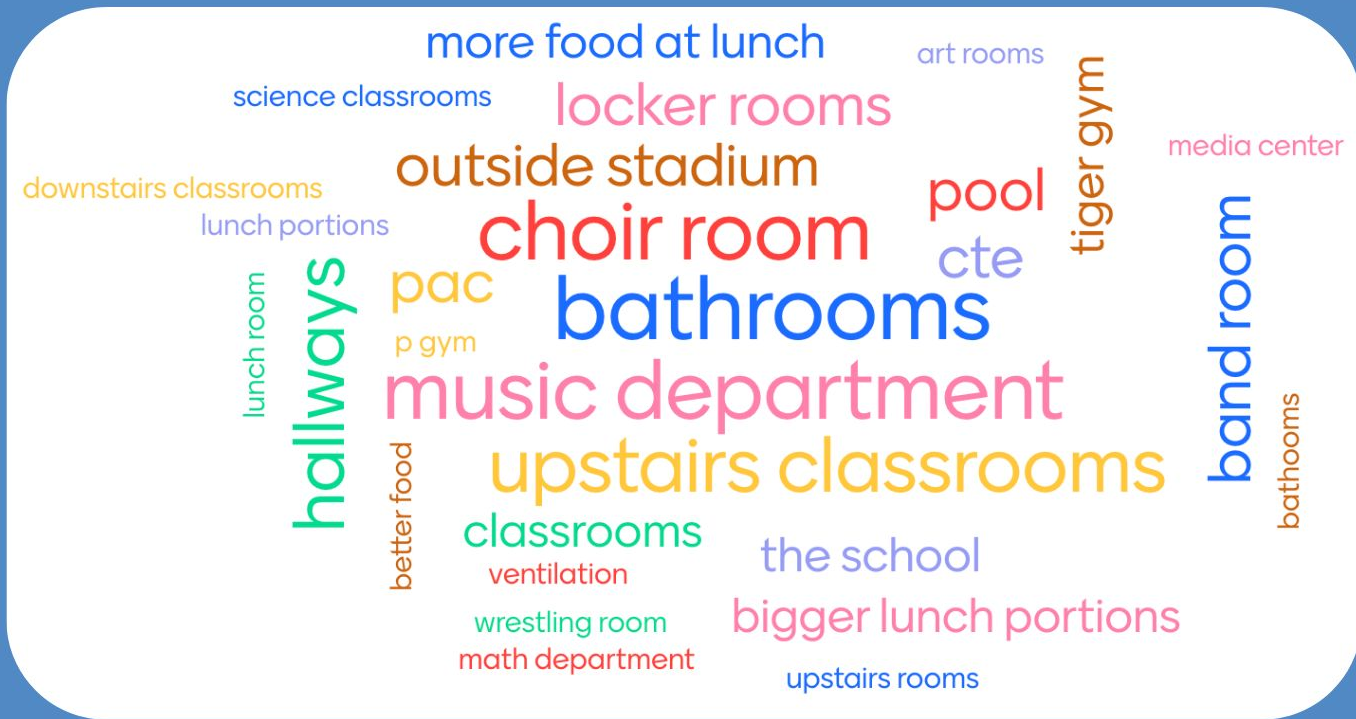

**Do you think all
students have equal
access to technology
and necessary
resources to use it
effectively and
easily?**

**Do you feel safe
in the physical
space that you
occupy?**

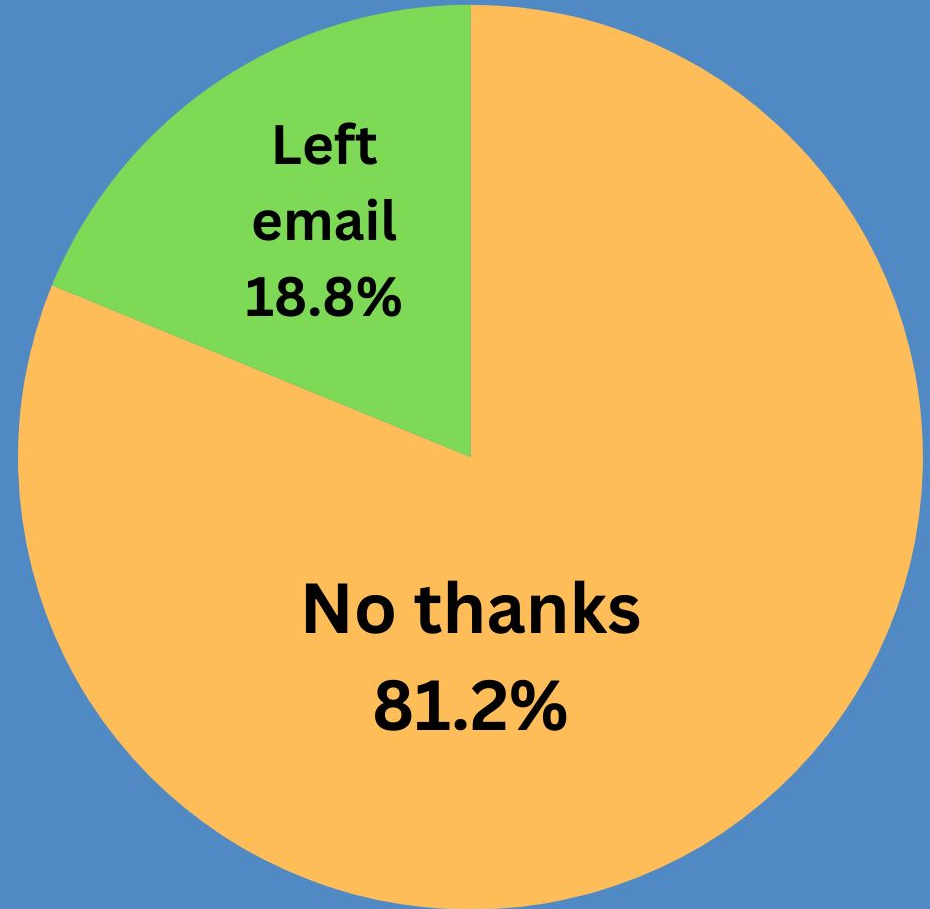

What is the ONE most important space in the high school you feel should be improved or replaced? Fill free to comment about any High School space.

“The PAC, the stage is broken, the green room has plumbing issues including pipes causing a sewage smell and lack of cold water in the sink in the guys bathroom. The curtains are overdue to be fireproofed, they haven’t been fire proofed since 2010! Last summer there were mice in the PAC. This activity is one of the few things done at PHS that makes a return on the money spent on it and more, I believe that the money should go back to improving the PAC, for comfort and safety. The director spends her own money on productions, I think that we should at least be improving the space we are working in.”

“The pool area is really bad the ventilation makes it hard to breathe and the water is cloudy from poor filtering and the boys showers floods because the water doesn't drain.”

Would you like to be involved in the process of making the school into an overall better space for staff and students? If so then please include your email in the "other" spot.

THANK YOU!
