

New Hartford Public Schools
Plant Facility and Transportation Subcommittee Meeting
December 12, 2024
Superintendent's Office
5:00 pm
Minutes

Present: Jeffrey Sousa, Superintendent, Tom Buzzi, Subcommittee Chair, Meagan Albert, BOE member

1.) Antolini Energy Efficiency - Boilers and heat pumps-

Discussion relative to the boilers at Antolini was held. Superintendent Jeffrey Sousa reported that the boilers are not functioning properly leading to cooler temperatures in the buildings even after being reset and serviced. Superintendent Jeffrey Sousa has reached out to corporate to attain certified technicians for the specific make of the boilers. They have not returned calls nor emails after many attempts this year and in previous years. Costs to repair the boilers yearly are unpredictable. Instead the boilers should be functioning without fail after annual servicing.

Action steps to be taken include reaching out to previous members of construction committee for date of installation, historical knowledge and previous project specifics inclusive of general contractor and installation company. Energy audits are scheduled at Antolini to explore other solutions (heat pumps, etc.).

2.)Adjournment: 5:15pm.
