

## Section: Narratives - Needs Assessment

### Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three- part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

**Section 1 - Needs Assessment:** In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

### Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

Students at the elementary level will be identified for inclusion in the summer school programs by using multiple measures including benchmark assessments, curriculum-based assessments, progress monitoring assessments, and teacher input. Secondary students will

be identified for the summer school program based on a credit-recovery approach. Students who struggled to meet course expectations will be enrolled in the summer school program.

**Section: Narratives - Summer School Program Questions**

**Summer School Program Questions:** In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

- Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	300	Pretest/Posttest and progress toward achievement of course-based competencies.
Children with Disabilities	Academic Growth	100	Pretest/Posttest and progress toward achievement of course-based competencies.

- Describe the evidence-based resources that will be used to support student growth during the summer school program.

Elementary students will receive instruction in language arts and mathematics. Through an integrated approach, students will receive instruction in reading, writing, vocabulary, grammar, and research. Students will be immersed in non-fiction texts that are at the right level of challenge through the American Reading Company Summer Semester program. In math, students will be immersed in a center-based approach for math that includes ongoing assessment, progress monitoring, small group instruction, and daily math practice. Secondary students will receive in-person tutoring in addition to an online instruction in the subject area(s) that are being re-taught.

- Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role

Number of Staff Members	Internal/Outside Provider	Role
40	Internal Provider	Teachers and paraprofessionals

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
IRLA (American Reading Company)	Weekly	Elementary students will increase skill levels as identified within the IRLA.
Math Pretest/Posttest	Weekly	Elementary students will increase scores from pretest to posttest.
Credit Recovery	Annually	Secondary students will successfully complete the credit recovery courses to achieve credit for the courses taken in summer school.

6. How will the LEA engage families in the summer school program?

Families will receive email communications from the summer school coordinator including newsletters, progress reports, and other communications that are needed to encourage and support students.

**Section: Budget - Instruction Expenditures**

Instruction Expenditures

**Budget**

\$38,645.00

**Allocation**

\$38,645.00

**Budget Over(Under) Allocation**

\$0.00

Budget Summary

Function	Object	Amount	Description
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	600 - Supplies	\$15,000.00	Math curriculum
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	100 - Salaries	\$23,645.00	Salaries for summer school
		<b>\$38,645.00</b>	

**Section: Budget - Support and Non-Instructional Expenditures**

Support and Non-Instructional Expenditures
