Independent Auditor's Report

UNMODIFIED OPINIONS ON THE BASIC FINANCIAL STATEMENTS

Board of School Trustees Big Spring Independent School District Big Spring, Texas

Report on the Audit of Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Big Spring Independent School District (the District), as of and for the year ended August 31, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Big Spring Independent School District, as of August 31, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

-1-

-2-

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

GAAP requires that the management's discussion and analysis on pages 4-11, budgetary comparison information on page 48, and pension and other post-retirement benefit obligation (OPEB) related information on pages 49–53 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying combining non-major fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining non-major fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the required Texas Education Agency (TEA) schedules but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 11, 2024, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting.

BIG SPRING INDEPENDENT SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

INTRODUCTION

This section of Big Spring Independent School District's (the District) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year ended August 31, 2024. Please read it in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

• The District ended the year, August 31, 2024, with total net position of \$45,842,745, including unrestricted net position of \$7,614,080. The balance of cash and investments at August 31, 2024, was \$40,095,108.

 \cdot Total government-wide expenses were \$49,002,699 for the year ended August 31, 2024. This compares with expenses of \$51,671,192 for the year ended August 31, 2023. The District's total revenues on the Statement of Activities decreased from \$64,144,767 in 2022-23 to \$52,515,067 in 2023-24.

• The District made principal payments on bonds of \$1,510,000 during the year ended August 31, 2024. Bonds payable at August 31, 2024 total \$36,295,000. This compares to a balance of \$37,805,000 in 2023.

 \cdot Total general fund expenditures were \$41,919,231 for the year ended August 31, 2024. This compares with general fund expenditures of \$46,376,772 for the year ended August 31, 2023. This net decrease is mainly due to decreased recapture payments paid to the state.

• The District's total revenues on the fund financial statements decreased from \$63,820,890 in 2022-23 to \$54,648,799 in 2023-24. This decrease is largely property tax collections with a reduced M&O tax rate, but also includes decrease grant funding.

 \cdot The general fund reported a fund balance this year of \$28,187,653. Of this amount, \$3,500,000 is committed for future construction.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—management's discussion and analysis (this section), the basic financial statements, and required supplementary information.

The basic financial statements include two kinds of statements that present different views of the District:

• The first two statements are government-wide financial statements that provide both long-term and short-term information about the District's overall financial status.

• The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in more detail than the government-wide statements.

• *The governmental funds* statements tell how *general government* services were financed in the *short-term* as well as what remains for future spending.

• *Fiduciary fund* statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements.

		Fund Statements					
Type of Statements	Government-Wide	Governmental Funds	Fiduciary Funds				
Scope	Entire Agency's government (except fiduciary funds) and the Agency's component units	The activities of the district that are not proprietary or fiduciary	Instances in which the district is the trustee or agent for someone else's resources				
Required financial statements	Statement of net positionStatement of activities	 Balance sheet Statement of revenues, expenditures & changes in fund balances 	 Statement of fiduciary net position Statement of changes in fiduciary net position 				
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus				
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both short- term and long-term; the Agency's funds do not currently contain capital assets, although they can				
<i>Type of inflow/outflow information</i>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid				

Figure A-1. Major Features of the District's Government-Wide and Fund Financial Statements

Fund Statements

Figure A-1 summarizes the major features of the District's financial statements, including the portion of the District government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Government-Wide Financial Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position—the difference between the District's assets and liabilities—is one way to measure the District's financial health or *position*.

Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively. To assess the overall health of the District, one needs to consider additional nonfinancial factors such as changes in the District's tax base.

The government-wide financial statements of the District include the *Governmental activities*. Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services and general administration. Property taxes and grants finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds—not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State law and by bond covenants. The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has the following kinds of funds:

- Governmental funds—Most of the District's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explains the relationship (or differences) between them.
- *Fiduciary funds*—The District is the trustee, or fiduciary, for certain funds. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Our analysis focuses on the net position (Table A-1) and changes in net position (Table A-2) of the District's governmental activities.

Net Position: The District's restricted net position represents the balance of restricted proceeds from debt service taxes (\$5,448,670) and amounts restricted for food service (\$2,040,383). The debt service tax proceeds, when received, are restricted to payment on bonded debt. The 7,614,080 of unrestricted net position represents resources available to fund the programs of the District next year; however, this figure is also reduced by the pension and OPEB liabilities that the District contributes to on a pay-as-you-go basis.

Without the recognition of the District's proportionate share of the State's pension and OPEB liabilities, the District would have reported total net position of \$69,029,476 and unrestricted net position of \$30,800,811.

Increase in Net Position	\$ 3,512.4	\$ 12,473.6	-71.8%

The District's total revenues were \$52,515,067; a significant portion, about 65%, of the District's revenue comes from property taxes. In addition, about 17% and 9% come from operating grants and state funding, respectively. (See Figure A-2)

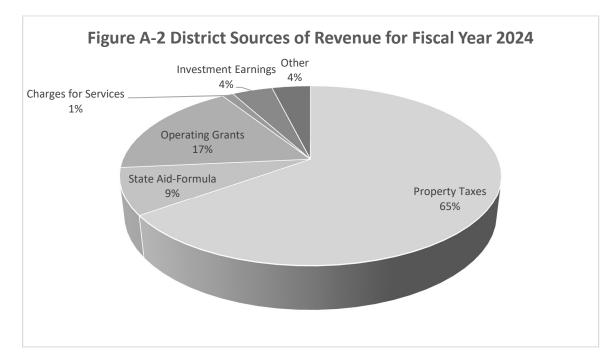

Table A-3 presents the cost of each of the District's largest functions as well as each function's net cost (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by state revenues as well as local tax dollars.

- The cost of all *governmental* activities this year was \$49,002,699.
- 51% of these costs are for instructional services.
- 70% of these total costs were funded by property taxes.

Table A-3Net Cost of Selected District FunctionsFor the Years Ended August 31, 2024 and 2023(In thousands)

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Revenues from governmental fund types totaled \$54,648,799, a decrease of 14.4% from the preceding year.

General Fund Budgetary Highlights

Over the course of the year, the District revised its budget several times. After these adjustments, actual expenditures were \$2.0 million below final budget amounts.

Resources available were \$3.5 million above the final budgeted amount.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of 2024, the District had invested \$150,662,548 in a broad range of capital assets, including land, equipment, buildings, and vehicles. (See Table A-4.) This amount represents a net increase of \$4,375,059 from last year.

Table A-4Capital AssetsFor the Years Ended August 31, 2024 and 2023(In thousands)

Net Capital Assets	\$ 69,053.3	\$	68,987.8	0.1%

More detailed information about the District's capital assets is presented in the notes to the financial statements.

Long-Term Debt

At year-end the District had \$36,295,000 in bonds outstanding and \$228,738 in lease liabilities as shown in Table A-5. More detailed information about the District's debt is presented in the notes to the financial statements.

Table A-5Long-Term DebtFor the Years Ended August 31, 2024 and 2023(In thousands)

	 Governme	Percentage Change

Total Long-Term Debt	\$ 36,523.7	\$ 37,821.9	-3.4%

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Beginning in the 2024-2025 school year, Big Spring Independent School District has restructured and consolidated from eight to six campuses. In order to make efficient use of the District's resources, changes were made at the Pre-Kindergarten and Intermediate levels. The Pre-Kindergarten classes were consolidated into the same facility as the Kindergarten classes and their building was closed down. The Intermediate building was also closed and the students moved to a newer, more energy efficient building. The ultimate goal was to eliminate unnecessary overhead and make better use of our newer facilities.

The property tax valuation used for the 2025 budget preparation is significantly higher from the previous year by \$836 million or 19.77%, which is reflective of a regional trend. Oil and gas drilling activity continues to be prolific.

The District's 2025 refined average daily attendance has been trending slightly downward to the current attendance of 3,108 as compared to 3,186 in 2024. General operating fund spending per student increased in the 2025 budget from \$12,413 to \$12,898 or 4%. This increase in expenditures for 2025 is mainly due to the increase for the 2025 recapture budget of \$1.048 million as compared to the actual expenditure of \$17,636 in 2024, which was an adjustment for the previous year. No material capital expenditures are planned due to the COVID related funds ending on September 30, 2024 except in the Child Nutrition Fund where we are upgrading various kitchen equipment and serving lines.

If these estimates are realized, the District's budgetary general fund balance is expected to decrease at the close of 2025. However, the District has a healthy fund balance and anticipates future budgets to be economical, but appropriate to the changes in student enrollment.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's Business Services Department.

Data Control		
Codes	Total Fund Balances - Governmental Funds (Exhibit C-1)	\$ 35,539,704
1	General capital assets are not financial resources and are not reported in the fund financial statements. This amount is the cost, net of accumulated depreciation, of the District's general capital assets.	69,053,252
2	Long-term liabilities (e.g., bonds, capital leases, etc.), including premiums on related debt and gains and losses on debt refunding, do not require current financial resources and are not reported in the funds. This amount is the District's total long-term liabilities.	(38,313,640)
3	A liability for accrued interest on long-term debt is not recognized on the fund financial statement, but it is included on the government-wide financial statement. The net effect of including this liability is to decrease net position.	(32,050)
4	Included in the items related to debt is the recognition of the District's proportionate share of the net pension liabilities required by GASB 68, a deferred resource inflow, and a deferred resource outflow. This amounted to a decrease in net position.	(9,000,656)
5	Included in the items related to debt is the recognition of the District's proportionate share of the net post employment obligation liabilities required by GASB 75, a deferred resource inflow, and a deferred resource outflow. This amounted to a decrease in net position.	(14,186,075)
6	Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing deferred revenue as revenue and eliminating interfund transactions. The net effect of these reclassifications and recognitions is to increase net position.	 2,782,210

-17- BIG SPRING INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED AUGUST 31, 2024		Exhibit C-4
Net Change in Fund Balance - Total Governmental Funds (Exhibit C-3)	\$	2,475,091
Amounts reported for governmental activities in the statement of activities (Exhibit B-1) are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation and amortization exceeded capital outlays in the current period.		(251,013)
Property Tax revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		(1,001,908)
A liability for accrued interest on long-term debt is not recognized on the fund financial statement, but it is included on the government-wide financial statement. The net effect of including the change in this liability is to increase the change in net position.		1,550
Repayment of the bonds and other long-term debt principal of \$1,510,000 are expenditures in the governmental funds, but repayment reduces long-term liabilities in the statement of net position. This amount of repayments, plus amortization bond premiums net of amortization of loss on refunding of \$208,646 increases the change in net position.		1,718,646
Repayment of the leases are expenditures in the governmental funds, but repayment reduces long-term liabilities in the statement of net position. The amount of lease repayments increases the change in net position.		104,608
GASB 68 and 75 required that certain expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of August 31, 2023 are recognized as deferred outflows. The District's share of the unrecognized deferred inflows and outflows as of the measurement date had to be amortized. The impact of these transactions is to decrease the change in net position.	_	465,394

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Big Spring Independent School District's (the District) is a public education agency operating under the applicable laws and regulations of the State of Texas. The District prepares its basic financial statements in conformity with accounting principles generally accepted in the United States of America promulgated by the Governmental Accounting Standards Board (GASB) applicable to governmental units. The District also complies with the appropriate version of the Texas Education Agency's (TEA) Financial Accountability System Resource Guide (FASRG) and the requirements of contracts and grants of agencies from which it receives funds. GASB is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

A. REPORTING ENTITY

The Board of School Trustees (the Board), a seven-member group, has fiscal accountability over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public. The Board has the exclusive power and duty to govern and oversee the management of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency (the Agency) or to the State Board of Education are reserved for the Board, and the Agency may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District is not included in any other governmental "reporting entity" as defined in governmental accounting and financial reporting standards. There are no component units included within the reporting entity.

The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding entities.

B. BASIS OF ACCOUNTING AND PRESENTATION

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The statement of net position and the statement of activities display information about the government-wide entity as a whole. These statements report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes, state foundation funds, grants, and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District currently has no business-type activities.

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or statement of net position. Bond premiums are deferred and amortized over the life of the bonds. Bond issue costs are charged to expense.

NOTES TO FINANCIAL STATEMENTS

These government-wide financial statements were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "Charges for Services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the District, school lunch charges, etc. The "Operating Grants and Contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Taxes are always general revenues.

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions but are reported separately in the statement of activities. Depreciation expense is specifically identified by function and is included in the direct expense to each function allocated. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

Interfund activities between governmental funds and fiduciary funds remain as due to/due from on the government-wide statement of activities. All other interfund activity is eliminated.

FUND FINANCIAL STATEMENTS

Separate financial statements are provided for governmental funds and fiduciary funds. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. Major governmental funds are reported as separate columns in the fund financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Revenues from local sources consist primarily of property taxes. No amounts have been recorded for property tax revenues collected after August 31, 2024. State revenues are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

NOTES TO FINANCIAL STATEMENTS

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures and claims and judgments are recorded only when payment is due.

In the fund financial statements, governmental fund types recognize bond issue costs in the current period. The face amount of the debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Premiums and discounts on bonds issued, as well as applicable gain or loss on refinancing of bonds, are recognized on the statement of net position and amortized over the life of the applicable bonds.

The fiduciary financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The District applies all GASB pronouncements, as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless the pronouncements conflict or contradict GASB pronouncements.

GOVERNMENTAL FUND TYPES

The District reports the following major governmental funds:

General Fund – This fund is established to account for resources used for general operations. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. This is a budgeted fund and unassigned fund balances are considered resources available for current operations.

Debt Service Fund – This fund is used to account for payment of principal and interest on longterm general obligation debt and other long-term debts for which tax has been dedicated. This is a budgeted fund and any unused sinking fund balances will be transferred to the general fund after all of the related debt obligations have been met.

Additionally, the government reports the following governmental fund types:

Special Revenue Funds – These funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal financial assistance generally is accounted for in a special revenue fund. Except for the food service fund, any unused balances are returned to the grantor at the close of specified project periods.

The food service fund is the only required budgeted special revenue fund and historically operates at a deficit that is funded by an operating transfer from the general fund. The District's food service is considered a special revenue fund since the general fund only subsidizes the food service program for all expenditures in excess of National School Lunch Program (NSLP) and user fees. For all other funds in this fund type, project accounting is employed to maintain integrity for the various sources of funds.

NOTES TO FINANCIAL STATEMENTS

FIDUCIARY FUND TYPES

Custodial Funds – These custodial funds are used to account for activities of student groups and other organizational activities. Student activity organizations exist with the explicit approval of, and are subject to revocation by the District's Board of School Trustees.

C. BASIS OF ACCOUNTING APPLICABLE TO ALL FINANCIAL STATEMENTS

Capital assets, which include buildings and improvements, furniture and equipment, vehicles, and construction in progress are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' useful lives are not capitalized.

Revenues from state and federal grants are considered to be earned to the extent of expenditures made under the provisions of the grant. Funds received but unexpended are reflected as unearned revenues, and funds expended but not yet received are shown as receivables. If balances have not been expended by the end of the project period, grantors generally require the District to refund all or part of the unused amount.

Supplies and materials are debited as expenditures when purchased.

It is the District's policy to permit some employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District.

When the District incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first whenever they will have to be returned if they are not used.

In accordance with the FASRG, the District has adopted and installed an accounting system which exceeds the minimum requirements prescribed by the State Board of Education and approved by the State Auditor. Specifically, the District's accounting system uses codes and the code structure presented in the Accounting Code Section of the FASRG. Mandatory codes are utilized in the form provided in that section.

The Data Control Codes on the financial statements are prescribed codes required by TEA. These are used by TEA to ensure accuracy in building a statewide database for policy development and funding plans.

D. BUDGETARY DATA

The official budget was prepared on the modified accrual basis of accounting, which is consistent with accounting principles generally accepted in the United States of America, for the general fund, debt service fund, and the food service special revenue fund. The remaining special revenue funds adopt project-length budgets which do not correspond to the District's fiscal year.

NOTES TO FINANCIAL STATEMENTS

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- a. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
- b. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least 10 days public notice of the meeting must be given.
- c. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board.

The budget is prepared and controlled at the function level within each fund and is amended at this level as needed. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. Such amendments are made before the fact, and they are reflected in the official minutes of the Board. During the year, several amendments were necessary.

E. ENCUMBRANCE ACCOUNTING

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either cancelled or appropriately provided for in the subsequent year's budget. There were no outstanding encumbrances at August 31, 2024.

F. FUND EQUITY

The District has adopted GASB Statement 54, which defines how fund balances of the governmental funds are presented in the financial statements. Fund balances are classified as follows:

Restricted – Amounts that can be spent only for specific purposes because of restrictions by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

Committed – Amounts that can be used only for specific purposes determined by formal action by the Board, the highest level of decision-making authority.

Assigned – Amounts that can be used only for specific purposes determined by an individual authorized to do so by the Board.

Unassigned – Amounts not included in other spendable classifications.

The Board of School Trustees has adopted a minimum fund balance policy for the general fund. The policy requires the unassigned fund balance at fiscal year-end to be at least 10% of the current fiscal expenditures less capital outlay and transfers out budgeted for the fund.

NOTES TO FINANCIAL STATEMENTS

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board has provided otherwise in its commitment or assignment actions.

G. NET POSITION ON THE STATEMENT OF NET POSITION

Net position on the statement of net position include the following:

Net Investment in Capital Assets – this component of net position represents the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding any unspent bond proceeds that is directly attributable to the acquisition, construction, or improvement of those assets.

Restricted for Debt Service – this component of net position represents the difference between assets and liabilities of the Debt Service Fund that consists of assets with constraints placed on their use by creditors.

Restricted for Other – this component of net position represents the difference between assets and liabilities of other special revenue funds that consist of constraints placed on their use by granting agencies.

Unrestricted – the difference between assets and liabilities that is not reported in Net Position Net Investment in Capital Assets, Net Position Restricted for Capital Projects, and Net Position Restricted for Debt Service.

H. PENSIONS

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

I. OTHER POST-EMPLOYMENT BENEFITS (OPEB)

The fiduciary net position of the TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

NOTES TO FINANCIAL STATEMENTS

J. MANAGEMENT'S USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

2. DEPOSITS AND INVESTMENTS

Legal and Contractual Provisions Governing Deposits and Investments

The **Public Funds Investment Act** (Government Code Chapter 2256) (the Act) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas and its agencies; (2) guaranteed or secured certificates of deposit issued by state and national banks domiciled in Texas, (3) obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality not less than an "A", (4) no load money market funds with a weighted average maturity of 90 days or less, (5) fully collateralized repurchase agreements, (6) commercial paper having a stated maturity of 270 days or less from the date of issuance and is not rated less than A-1 or P-1 by two nationally recognized credit rating agencies or one nationally recognized credit agency and is fully secured by an irrevocable letter of credit, (7) secured corporate bonds rated not lower than "AA-" or the equivalent, (8) public investment pools, and (9) guaranteed investment contracts for bond proceeds investment only, with defined termination date and secured by U.S. Government direct or agency obligations approved by the Texas Public Funds Investment Act in an amount equal to the bond proceeds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

NOTES TO FINANCIAL STATEMENTS

Policies Governing Deposits and Investments

In compliance with the **Public Funds Investment Act**, the District has adopted a deposit and investment policy. That policy does not address the following risks:

- a. Custodial Credit Risk Deposits and Investments: In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits and investments in certificates of deposits may not be returned to it. The District's policy does not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits and investments, other than the following: The State of Texas requires that a financial institution secure deposits and investments made by state or local governments by pledging securities in excess of the highest cash balance of the government. The District is not exposed to custodial credit risk for its deposits and investments in certificates of deposit are all covered by depository insurance and pledged securities held by a third party in the District's name.
- b. Concentration of Credit Risk The investment policy of the District contains no limitations on the amount that can be invested in any one issuer. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent five percent or more of the total entity investments represent a concentration risk. At August 31, 2024, all of the District's investments are in an investment pool and mutual funds.
- c. Credit Risk The risk that an issuer of other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At August 31, 2024, the District was not significantly exposed to credit risk.
- d. Interest Rate Risk Not applicable
- e. Foreign Currency Risk Not applicable

The carrying amount of the District's cash and temporary investments at August 31, 2024, approximates fair value and consisted of the following shown below:

	_	Amount	Percent	-	Maturity in Less than 1 Year	Credit Rating
Cash on Hand	\$	7,150	0.0%	\$	7,150	N/A
Cash in Bank		3,657,873	9.0%		3,657,873	N/A
Lone Star Investment Pool	_	36,759,943	90.9%	-	36,759,943	AAAm
	\$_	40,424,966	99.9%	\$	40,424,966	
Statement of Net Position	\$	40,095,108				
Statement of Fiduciary Net Position	_	329,858				
	\$_	40,424,966				

NOTES TO FINANCIAL STATEMENTS

Public Funds Investment Pools

Public funds investment pools in Texas (Pools) are established under the authority of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: (1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; (2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and (3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares.

The District's investment in Pools are reported at an amount determined by the fair value per share of the Pool's underlying portfolio, unless the Pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission (SEC) as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

3. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed.

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. All property taxes remaining uncollected after ten years are provided for in the allowance for uncollectible taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

4. DUE FROM OTHER GOVERNMENTS

The amount due from other governments consisted of the following:

		General Fund		Special Revenue Funds		Total
State Foundation Revenue Receivable	\$	180,262	\$		\$	180,262
Grant Funds Receivable	1		_	1,212,670		1,212,670
Total Due from Other Governments	\$	180,262	\$_	1,212,670	\$_	1,392,932

NOTES TO FINANCIAL STATEMENTS

5. INTERFUND RECEIVABLES AND PAYABLES

Interfund balances occur as a result of normal operations and are cleared periodically. Management intends to settle these balances within one year. Interfund balances at August 31, 2024, consisted of the following individual fund receivables and payables:

General Fund		Due From Other Funds	-	Due to Other Funds
Special Revenue Funds	\$	953,995	\$	
Custodial Funds	Ψ	61,718	Ψ	
Special Revenue Funds General Fund				953,995
Custodial Funds General Fund	_		_	61,718
	\$	1,015,713	\$	1,015,713

6. CAPITAL ASSETS

Capital asset activity for the year ended August 31, 2024, was as follows:

		9/1/2023		Additions		Retirements	Transfers		8/31/2024
Capital Assets:			-		•			•	
Land	\$	2,558,889	\$		\$		\$	\$	2,558,889
Building		127,320,416		174,927			7,596,312		135,091,655
Equipment/Vehicles		9,869,077		586,637					10,455,714
Right of Use Asset		42,133		316,477					358,610
Construction Work in Progress	_	6,496,974	-	3,297,018	-		 (7,596,312)	-	2,197,680
	\$_	146,287,489	\$_	4,375,059	\$	0	\$ 0	\$	150,662,548
Accumulated Depreciation/Amortiz	atio	n:							
Buildings	\$	70,016,702	\$	3,685,851	\$		\$	\$	73,702,553
Equipment/Vehicles		7,243,214		524,870					7,768,084
Right of Use Asset	-	39,785	-	98,874			 		138,659
	\$	77,299,701	\$	4,309,595	\$	0	\$ 0	\$	81,609,296
Total Net Value of Capital Assets	\$	68,987,788	\$_	65,464	\$	0	\$ 0	\$	69,053,252

Capital assets are being depreciated using the straight-line method over the following useful lives:

Buildings and Improvements	15 - 50 years
Furniture and Equipment	3 - 15 years
Vehicles	5 - 15 years

The District presents right of use lease assets with fixed assets. See Note 9 for more information on these leases.

-30-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Depreciation and Amortization expense were allocated by function as follows:

	 Depreciation/ Amortization
Instruction	\$ 2,349,703
Curriculum and Instruction	80,527
School Leadership	271,822
Guidance, Counseling	146,470
Student Transportation	112,278
Food Service	235,792
Extracurricular Activities	157,509
General Administration	114,316
Plant Maintenance and Operations	729,385
Data Processing Services	 111,793
	\$ 4,309,595

7. DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

The financial statements report separate sections for deferred outflows and inflows of resources. Deferred outflows represent an acquisition of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until that time. Deferred inflows represent an acquisition of fund balance that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

Deferred Inflows and Outflows on the Statement on Net Position consist of the following:

	-	Deferred Outflows	_	Deferred Inflows
Unamortized Loss (See Note 9)	\$	1,352,826	\$	
Pension Related (See Note 12)		5,104,997		747,592
OPEB Related (See Note 13)	_	1,358,109	_	9,667,703
Deferred Outflows/Inflows	\$	7,815,932	\$_	10,415,295

Deferred Inflows on the Balance Sheet – Governmental Funds consist of the following:

	_	General Fund	_	Debt Service Fund
Property Taxes - Delinquent	\$	2,614,112	\$	380,242
Less: Allowance for Uncollectible Taxes	_	163,832	_	48,312
Total Unavailable Tax Revenues	\$	2,450,280	\$_	331,930

-31-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

8. UNEARNED REVENUE

Unearned revenue consists of the following:

	_	General Fund	Special Revenue Fund	_	Totals
State Foundation Overpayment Unearned Grant Proceeds	\$	2,193,226	\$ 22,520	\$	2,193,226 22,520
Total Unearned Revenue (Exhibit A-1 and C-1)	\$_	2,193,226	\$ 22,520	\$	2,215,746

The state foundation overpayment has been accumulated over the prior two years.

9. LONG-TERM LIABILITIES

A summary of long-term liabilities as of August 31, 2024, is as follows:

	Interest			Current Year Interest	Due Within	
Description	Rates		Issued		Expense	 1 Year
2017 Refunding Bonds Lease Liability	3.15% various	\$	46,715,000	\$	1,635,150 11,202	\$ 1,585,000 102,132
		\$_	46,715,000	\$	1,646,352	\$ 1,687,132

A summary of changes in long-term liabilities for the year ended August 31, 2024, is as follows:

Description	 Amount Outstanding 9/1/2023	 Increases Current Year		Retired Current Year	Amount Outstanding 8/31/2024
2017 Refunding Bonds Lease Liability	\$ 37,805,000 16,869	\$ 316,477	\$	(1,510,000) \$ (104,608)	36,295,000 228,738
Total Current Interest Bonds	\$ 37,821,869	\$ 316,477	\$_	(1,614,608) \$	36,523,738

In September 2017, the District issued \$46,715,000 in unlimited tax refunding bonds with an average interest rate of 3.15% to refund \$47,545,000 of 2010 unlimited tax building bonds with an average interest rate of 4.685%. The net proceeds of \$52,126,900 were in deposited escrow to be used to advance refund the majority of the outstanding 2010 bonds. The result caused a loss on refunding to be recognized on the statement of net position and amortized over the life of the new debt. The balance of this unamortized loss at August 31, 2024 is \$1,352,826.

-32-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

As of August 31, 2024, the District has \$3,142,729 in unamortized bond premiums. Amortization for the year ended August 31, 2024 amounted to \$366,343.

Bonds Payable								
Fiscal Year Ending August 31,		Principal		Interest		Total		
2025	\$	1,585,000	\$	1,559,650	\$	3,144,650		
2026		1,665,000		1,480,400		3,145,400		
2027		1,750,000		1,397,150		3,147,150		
2028		1,835,000		1,309,650		3,144,650		
2029		1,925,000		1,217,900		3,142,900		
2030-2034		11,050,000		4,679,450		15,729,450		
2035-2039		13,460,000		2,262,200		15,722,200		
2040		3,025,000		121,000		3,146,000		
	\$	36,295,000	\$	14,027,400	\$	50,322,400		

Scheduled debt service requirements for bonds payable are as follows:

Per GASB 87 for Leases, the District presents lease liabilities for operating leases. These lease liabilities are attributable to copiers and a postage machine. None of the lease agreements have interest rates listed in the lease agreements. A discount rate of 2% was used for the calculation of net present value of lease liabilities. These leases had terms of 39 months, 48 months, and 20 quarters. The remaining leases have maturities within the next three years.

Scheduled debt service requirements for lease liabilities are as follows:

	Lease Lia	bility		
Fiscal Year Ending August 31,	 Principal		Interest	 Total
2025	\$ 102,132	\$	7,228	\$ 109,360
2026	100,776		8,230	109,006
2027	 25,830		172	 26,002
	\$ 228,738	\$	15,630	\$ 244,368

-33-BIG SPRING INDEPENDENT SCHOOL DISTRICT

-34-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

12. DEFINED BENEFIT PENSION PLAN

Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for onehalf or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained at https://www.trs.texas.gov; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

The information provided in the Notes to the Financial Statements in the 2023 and 2022 Annual Comprehensive Financial Report for TRS provides the following information regarding the Pension Plan fiduciary net position as of August 31, 2023 and 2022:

Net Pension Liability	_	2023	_	2022
Total Pension Liability Less: Plan Fiduciary Net Position	\$	255,860,886,500 (187,170,535,558)	\$	243,553,045,455 (184,185,617,196)
Net Pension Liability	\$_	68,690,350,942	\$_	59,367,428,259
Net Position as Percentage of Total Pension Liability		73.15%		75.62%

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3% (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with five years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with five years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic cost of living adjustments (COLA). Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

-35-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Texas Government Code, Title 8, Section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS's unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the System's actuary.

State law requires the plan to be actuarially sound in order for the legislature to consider a benefit enhancement, such as supplemental payment to the retirees. The pension became actuarially sound in May 2019 when the 86th Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provided gradual contribution increases from the State, participating employers, and active employees for the fiscal years 2019 through 2024.

Contributions

Contribution requirements are established or amended pursuant to Article 16, Section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2019 through 2025.

The following table shows contribution rates by type of contributor for the fiscal years 2023 and 2024, and the contributions by type reported by TRS which were received by TRS during the measurement year (TRS FY 2023). These are included in the calculation of the District's proportionate share of the net pension liability.

	Contribution Rates				
	2023	2024			
Member	8.00%	8.25%			
Non-Employer Contributing Entity (State)	8.00%	8.25%			
Employers	8.00%	8.25%			
TRS FY 2023 Employer Contributions	\$	1,010,098			
TRS FY 2023 Member Contributions		2,053,213			
TRS FY 2023 NECE On-Behalf Contributions		1,444,207			

The actual contributions during the District's 2024 fiscal year were \$1,043,348 by the employer and \$2,126,457 by employees.

-36-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers, including public schools, are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-education and general, or local funds.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- All public schools, charter schools, and regional educational service centers must contribute 1.7% of the member's salary beginning in fiscal year 2022, gradually increasing to 2% in fiscal year 2025. The surcharge for fiscal year 2023 is 1.8%.
- When employing a retiree of the TRS, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions

Roll Forward – The actuarial valuation was performed as of August 31, 2022. Update procedures were used to roll forward the total pension liability to August 31, 2023.

The total pension liability is determined by an annual actuarial valuation. The actuarial methods and assumptions were selected by the Board based upon analysis and recommendations by the System's actuary. The Board has sole authority to determine the actuarial assumptions used for the Plan. The actuarial methods and assumptions were primarily based on a study of actual experience for the fouryear period ending August 31, 2021 and adopted in July 2022.

The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables with full generational projection using the ultimate improvement rates from the most recently published projection scale (U-MP). The active mortality rates were based on the published PUB(2010) Mortality Tables for Teachers, below median, also with full generational mortality.

-37-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

The following table discloses the assumptions that were applied to the measurement period:

Valuation Date	August 31, 2022 rolled forward to August 31, 2023
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Fair Value
Single Discount Rate	7.00%
Long-Term Expected Rate	7.00%
Municipal Bond Rate at August 2022	4.13%*
Last year ending August 31 in	
Projection Period (100 years)	2122
Inflation	2.30%
Salary Increases	2.95% to 8.95% including inflation
Ad Hoc Post-Employment Benefit Changes	None

* - Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."

The actuarial methods and assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2022. For a full description of these assumptions please see the TRS actuarial valuation report dated November 22, 2022.

Discount Rate

A single discount rate of 7.00% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on pension plan investments of 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from active members, employers, and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 9.50% of payroll in fiscal year 2024 increasing to 9.56% in fiscal year 2025 and thereafter. This includes all employer and state contributions for active and rehired retirees.

Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.00%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which bestestimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

-38-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2023 are summarized below:

		Long-Term	Expected
		Expected	Contribution
	Target	Arithmetic Real	to Long-Term
Asset Class	Allocation % (b)	Rate of Return (c)	Portfolio Returns
Global Equity			
USA	18.00%	4.00%	1.00%
Non-U.S. Developed	13.00%	4.50%	0.90%
Emerging Markets	9.00%	4.80%	0.70%
Private Equity <i>(a)</i>	14.00%	7.00%	1.50%
Stable Value			
Government Bonds	16.00%	2.50%	0.50%
Absolute Return <i>(a)</i>	0.00%	3.60%	0.00%
Stable Value Hedge Funds	5.00%	4.10%	0.20%
Real Return			
Real Estate	15.00%	4.90%	1.10%
Energy, Natural Resources, and			
Infrastructure	6.00%	4.80%	0.40%
Commodities	0.00%	4.40%	0.00%
Risk Parity	8.00%	4.50%	0.40%
Asset Allocation Leverage Cash			
Cash	2.00%	3.70%	0.00%
Asset Allocation Leverage	-6.00%	4.40%	-0.10%
Inflation Expectation			2.30%
Volatility Drag (d)			-0.90%
Total	100.00%		8.00%

(a) - Absolute Return includes Credit Sensitive Investments

(b) - Target allocations are based on the FY 2022 policy model

(c) - Capital Market Assumptions come from Aon Hewitt (as of 8/31/2022)

(d) - The volatility drag results from the conversion between arithmetic and geometric mean returns

Discount Rate Sensitivity Analysis

The following table presents the Net Pension Liability of the plan using the discount rate of 7.00%, and what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

		1% Decrease in Discount Rate (6.00%)	 Discount Rate (7.00%)	1% Increase in Discount Rate (8.00%)
District's Proportionate Share of the Net Pension Liability	\$_	19,971,042	\$ 13,358,061	\$ 7,859,365

-39-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Pension Liabilities and Pension Expense

At August 31, 2024, the District reported a liability of \$13,358,061 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amounts recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's Proportionate Share of the Collective Net Pension Liability State's Proportionate Share that is Associated with the District	\$ 13,358,061 19,299,313
Total	\$ 32,657,374

The net pension liability was measured as of August 31, 2022 and rolled forward to August 31, 2023 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2022 through August 31, 2023.

At August 31, 2023 the employer's proportion of the collective net pension liability was 0.019447% which was an increase of 0.000263% from its proportion measured as of August 31, 2022.

For the year ended August 31, 2024, the District recognized pension expense of \$2,914,029 and revenue of \$1,444,207 for support provided by the State in the government-wide statement of activities.

Changes Since the Prior Actuarial Valuation

The actuarial assumptions and methods are the same as used in the determination of the prior year's net pension liability.

The Texas 2023 Legislature passed legislation that provides a one-time stipend to certain retired teachers. The stipend was paid to retirees beginning in September 2023. The Legislature appropriated funds to pay for this one-time stipend so there will be no impact on the net pension liability of TRS. In addition, the Legislature also provided for a COLA to retirees which was approved during the November 2023 election which was paid in January 2024. Therefore, this contingent liability was not reflected as of August 31, 2023.

-40-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2024, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	_	Deferred Outflows of Resources	_	Deferred Inflows of Resources
Differences Between Expected and Actual Economic Experience	\$	475,952	\$	161,752
Changes in Actuarial Assumptions		1,263,411		309,185
Difference Between Projected and Actual Investment Earnings		1,943,922		
Changes in Proportion and Difference Between the Employer's				
Contributions and the Proportionate Share of Contributions		378,364		276,655
Contributions Paid to TRS Subsequent to the Measurement Date	_	1,043,348	_	
Total	\$_	5,104,997	\$_	747,592

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions (not including the deferred contribution paid subsequent to the measurement date) will be recognized in pension expense as follows:

	Pension Expense
	 Benefit) Amount
2025	\$ 645,920
2026	415,805
2027	1,668,636
2028	520,073
2029	63,623
Thereafter	-

13. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS

Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

-41-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

OPEB Plan Fiduciary Net Position

Detail information about the TRS-Care's fiduciary net position is available in the separately issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained at https://www.trs.texas.gov; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Components of the net OPEB liability of the TRS-Care plan as of August 31, 2023 and 2022 are as follows:

Net OPEB Liability		2023	-	2022
Total OPEB Liability Less: Plan Fiduciary Net Position	\$	26,028,070,267 (3,889,765,203)	\$	27,061,942,520 (3,117,937,218)
Net OPEB Liability	\$_	22,138,305,064	\$	23,944,005,302
Net Position as Percentage of Total OPEB Liability	_	14.94%	-	11.52%

Benefits Provided

TRS-Care provides health insurance coverage to all retirees from public schools and charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a highdeductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

The General Appropriations Act passed by the 86th Legislature included funding to maintain TRS-Care premiums at their current level through 2021. The 86th Legislature also passed Senate Bill 1682 which requires TRS to establish a contingency reserve in the TRS-Care fund equal to 60 days of expenditures. This amount is estimated at \$336,000,000 as of August 31, 2023.

The premium rates for retirees are presented below:

TRS-Care Plan P	remi	um Rates	
	_	Medicare	Non-Medicare
Retiree or Surviving Spouse	\$	135	\$ 200
Retiree and Spouse		529	689
Retiree or Surviving Spouse and Children		468	408
Retiree and Family		1,020	999

-42-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and participating employers based on active employee compensation. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the employer. The actual public school contribution rate is prescribed by the Legislature in the General Appropriations Act, which is 0.75% of each active employee's pay for fiscal year 2023.

The following table shows contribution rates by type of contributor for the fiscal years 2023 and 2024, and the contributions by type reported by TRS which were received by TRS during the measurement year (TRS FY 2023). These are included in the calculation of the District's proportionate share of the net OPEB liability.

	Contribution Rates			
	2023	2024		
Active Employee	0.65%	0.65%		
Non-Employer Contributing Entity (State)	1.25%	1.25%		
Employers	0.75%	0.75%		
Federal/Private Funding Remitted by Employers	1.25%	1.25%		
TRS FY 2023 Employer Contributions	\$	242,059		
TRS FY 2023 Member Contributions		166,415		
TRS FY 2023 NECE On-Behalf Contributions	;	277,851		

The actual contributions during the District's 2024 fiscal year were \$232,974 by the employer and \$166,927 by employees.

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS-Care OPEB program). When employers hire a TRS retiree, they are required to pay TRS-Care a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$21.3 million in fiscal year 2023 provided by Rider 14 of the Senate Bill GAA of the 87th Legislature. These amounts were re-appropriated from amounts received by the pension and TRS-Care funds in excess of the state's actual obligation and then transferred to TRS-Care.

-43-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Actuarial Assumptions

The actuarial valuation was performed as of August 31, 2022. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2023.

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2021.

The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2022 TRS pension actuarial valuation that was rolled forward to August 31, 2023:

Rates of Mortality Rates of Retirement Rates of Termination Rates of Disability Incidence General Inflation Wage Inflation

The active morality rates were based on PUB(2010), Amount-Weighted, Below-Median Income, Teacher male and female tables (with a two-year set forward for males). The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2021.

Additional actuarial methods and assumptions were as follows:

Valuation Date	August 31, 2022 rolled forward to August 31, 2023
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	4.13% as of August 31, 2023
Aging Factors	Based on Plan Specific Experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs
Salary Increases	2.95% to 8.95%, including inflation
Ad Hoc Post-Employment	
Benefit Changes	None

The election rates for normal retirement were 62% participation rate prior to age 65 and 25% participation rate after age 65. For pre-65 retirees, it is assumed that 30% will discontinue coverage at age 65.

The initial medical trend rates were 7.75% for Medicare retirees and 7.00% for non-Medicare retirees. There was an initial prescription drug trend rate of 7.75% for all retirees. The initial trend rates decreased to an ultimate trend rate of 4.25% over a period of 12 years.

-44-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

Discount Rate

A single discount rate of 4.13% was used to measure the total OPEB liability. This was an increase of 0.22% in the discount rate since the previous year. Because the investments are held in cash and there is no intentional objective to advance fund the benefits, the single discount rate is equal to the prevailing municipal bond rate.

The source of the municipal bond rate is the Fidelity "20-year Municipal GO AA Index" as of August 31, 2023, using the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% point lower and 1% point higher than the discount rate that was used (4.13%) in measuring the Net OPEB Liability.

		1% Decrease in Discount Rate (3.13%)	Discount Rate (4.13%)	1% Increase in Discount Rate (5.13%)
District's Proportionate Share of the Net OPEB Liability	\$_	6,921,271	\$ 5,876,481	\$ 5,023,908

Healthcare Cost Trend Rates Sensitivity Analysis

The following presents the net OPEB liability of the plan using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is 1% point lower or 1% point higher than the assumed healthcare cost trend rate.

	Current Healthcare					
		1% Decrease	_	Cost Trend Rate		1% Increase
District's Proportionate Share of						
the Net OPEB Liability	\$_	4,838,988	\$	5,876,481	\$	7,211,219

OPEB Liabilities and OPEB Expense

At August 31, 2024, the District reported a liability of \$5,876,481 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's Proportionate Share of the Collective Net OPEB Liability	\$ 5,876,481
State's Proportionate Share that is Associated with the District	7,090,878
Total	\$ 12,967,359

-45-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

The Net OPEB Liability was measured as of August 31, 2022 and rolled forward to August 31, 2023 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2022 thru August 31, 2023.

At August 31, 2023, the employer's proportion of the collective net OPEB liability was 0.026544% which was a decrease of 0.000358% proportion measured as of August 31, 2022.

For the year ended August 31, 2024, the District recognized OPEB a credit to expense of (\$1,515,880) and revenue of \$277,851 for support provided by the State.

Changes Since the Prior Actuarial Valuation

The discount rate changed from 3.91% as of August 31, 2022 to 4.13% as of August 31, 2023, accompanied by revised demographic and economic assumptions based on the TRS experience study.

There were no changes in benefit terms since the prior measurement date.

Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At August 31, 2024, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	_	Deferred Outflows of Resources	_	Deferred Inflows of Resources
Differences Between Expected and Actual Actuarial Experience	\$	265,866	\$	4,943,946
Changes in Actuarial Assumptions		802,097		3,598,325
Difference Between Projected and Actual Investment Earnings		2,539		
Changes in Proportion and Difference Between the Employer's				
Contributions and the Proportionate Share of Contributions		54,633		1,125,432
Contributions Paid to TRS Subsequent to the Measurement Date	_	232,974	_	
Total	\$_	1,358,109	\$_	9,667,703

The net amounts of the employer's balances of deferred outflows and inflows of resources (not including the deferred contribution paid subsequent to the measurement date) related to OPEBs will be recognized in OPEB expense as follows:

	-	OPEB Expense (Benefit) Amount
2025	\$	(1,836,580)
2026		(1,567,056)
2027		(1,202,160)
2028		(1,212,276)
2029		(1,048,056)
Thereafter		(1,676,440)

-46-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

14. WORKMEN'S COMPENSATION

The District participated in a public entity risk pool for its Workmen's Compensation Insurance needs. The Pool was protected against unanticipated catastrophic loss by stop-loss coverage provided through Safety National Casualty Corporation. The stop-loss policy covered individual claims in excess of \$100,000 per incident. The District accounted for its costs associated with the Pool in the general fund. This agreement was not renewed as of September 1, 2022. However, the District continues to have claim liabilities for plan years between September 1, 2017 and August 31, 2024. Deposits held by the claims administrator on behalf of the District total \$18,711. The District has not recorded any claims payable as of August 31, 2024.

Since September 1, 2022 The has participated in the Texas Association of School Boards (TASB) Workers' Compensation Self-Insurance Fund (the Fund). The associated costs are accounted for in the General Fund and allocated to all funds. The Fund is protected against unanticipated catastrophic loss by stop loss insurance coverage. The Claims Administrator for the Pool has estimated the District's share of unpaid claims as of August 31, 2023 to be immaterial. The District has not recorded any claims payable at August 31, 2023 related to this liability.

15. HEALTH INSURANCE

During the year ended August 31, 2024, employees of the District were covered by a health insurance plan through TRS – Active Care Program administered by the Teacher Retirement System. The District contributed \$375 of the employee-only premium per month and employees, at their option, authorized payroll withholdings to pay contributions for dependents. Under this plan, the District is not liable for costs incurred beyond the premiums paid.

Payments made on behalf of the District by the state for Medicare, Part D fringe benefits and salaries amounted to \$140,376 and \$136,455 for the years ended August 31, 2024 and 2023, respectively.

16. LITIGATION

Management represents there is no litigation pending against the District which would have a material effect on the financial statements.

17. CHAPTER 313 AGREEMENT

The District entered into an agreement with Gunsight Mountain Wind Energy, LLC on December 11, 2014. The agreement was for Gunsight Mountain Wind Energy, LLC to invest capital of \$169,200,000 on a long-term basis for a valuation limitation of \$30,000,000. For fiscal year 2024, which is year nine of the agreement, with the M&O tax rate \$0.690 per \$100, with property valued at \$75,008,430 without considering the limitation and \$30,000,000 with the limitation. When calculated, the District forgoes collecting \$318,644 in M&O tax revenue; however, that will be offset by the increase in state funding through the FSP funding formula and a possible Revenue Protection Payment. In addition to the tax abatement, Gunsight Mountain Wind Energy, LLC has committed to pay supplemental payments to the District in the amount of \$100 per ADA or \$50,000 whichever is greater.

-47-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

The District has also entered into an agreement with Hyfuels Big Spring LLC for a valuation limitation. This is still in the agreement phase and is not set to commence until the 2028-29 fiscal year.

18. COMMITMENTS AND CONTINGENCIES

Federal and State Funding

The District participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

Note: This schedule shows only seven years for which this information is available. Additional information will be added until ten years of data are available and reported.

-53-BIG SPRING INDEPENDENT SCHOOL DISTRICT

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

A. NOTES TO SCHEDULES FOR THE TRS PENSION

Changes of Assumptions

The actuarial assumptions and methods are the same as used in the determination of the prior year's net pension liability.

Changes of Benefit Terms

The Texas 2023 Legislature passed legislation that provides a one-time stipend to certain retired teachers. The stipend was paid to retirees beginning in September 2023. The Legislature appropriated funds to pay for this one-time stipend so there will be no impact on the net pension liability of TRS. In addition, the Legislature also provided for a COLA to retirees which was approved during the November 2023 election which was paid in January 2024. Therefore, this contingent liability was not reflected as of August 31, 2023.

B. NOTES TO SCHEDULES FOR THE TRS OPEB PLAN

Changes of Assumptions

The discount rate changed from 3.91% as of August 31, 2022 to 4.13% as of August 31, 2023, accompanied by revised demographic and economic assumptions based on the TRS experience study.

Changes of Benefit Terms

There were no changes of benefit terms that affected measurement of the total OPEB liability during the measurement period.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of School Trustees Big Spring Independent School District Big Spring, Texas

We have audited, in accordance with the auditing standards generally accepted in the Unites States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Big Spring Independent School District (the District) as of and for the year ended August 31, 2024, and related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 11, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing our opinions on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY UNIFORM GUIDANCE

Board of School Trustees Big Spring Independent School District Big Spring, Texas

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Big Spring Independent School District's (the District's) compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2024. Big Spring Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Big Spring Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained *in Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of compliance section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design
 and perform audit procedures responsive to those risks. Such procedures include examining, on a
 test basis, evidence regarding the District's compliance with the compliance requirements referred
 to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in
 order to design audit procedures that are appropriate in the circumstances and to test and report
 on internal control over compliance in accordance with the Uniform Guidance, but not for the
 purpose of expressing an opinion on the effectiveness of the District's internal control over
 compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO THE SUPPLEMENTARY SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED AUGUST 31, 2024

Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Big Spring Independent School District under programs of the federal government for the year ended August 31, 2024. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

Summary of Significant Accounting Policies

- (A) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement.
- (B) Big Spring Independent School District has not elected to use the 10 percent de minimus indirect cost rate as allowed under the Uniform Guidance.
