Policy

It is the intent of the Board to comply with Sections 15 and 16 of Act 153 of 2010 requiring superintendents to work with school boards to develop policy guidelines for minimum, maximum and optimal class sizes in regular and technical education classes. Class size guidelines will be used to inform annual decisions related to staffing and program offerings. A "class" shall be defined as a group of students composed of one or two grades of students unless otherwise authorized by the superintendent.¹

Commented [1]: It seems we have not done this for technical classes specifically. If this law suggests we need to, then we need to.

Implementation

1. The superintendent or his or her designee shall, in consultation with building principals, develop district wide class minimum, maximum and optimum class size guidelines that take into account the instructional needs of specific elementary grade intervals and required and elective courses at the secondary level.

Deleted: 1.

Commented [2]: Perhaps this should replace "average" in our current procedure. Or, do we even need an "optimal" category in policy, which seems overly prescriptive

Current ACSD guidelines are as follows:

K: A minimum of 10, maximum of 19

Grades 1-3: A minimum of 10, maximum of 20

Grades 4-5: A minimum of 10, maximum of 24

Optimal Class size at all grades is 17.

2. Class size guidelines in the district may vary as necessary to reflect differences among schools such as school size and programmatic needs.

3. The guidelines shall ensure compliance with state or federal requirements related to matters such as student-teacher ratios, special education, technical education and English Language Learners.

4. The superintendent shall report to the Board at least annually on the implementation of this policy, and shall include in his or her report information related to the use of the guidelines in determining actual class sizes and program offerings in the schools within the district.

Deleted: supervisory union

¹ Typically, these class size guidelines are followed with greater fidelity in grades K-8 than in technical education settings or in grades 9-12, where a variety of factors may require smaller subsets of students.

Policy Contingencies

1. If a class exceeds or is projected to exceed the upper limit of D6 requirements and the superintendent determines the integrity of the [educational program](#) is jeopardized, the superintendent has the authority to divide that class into sections that meet policy guidelines.
2. If a class is projected to have a size that is below the minimum D6 requirements and the superintendent determines the integrity of the [educational program](#) is jeopardized, the superintendent will invite families across ACSD to indicate if they prefer to have their student move to that school and class. Families who volunteer to send their student to the receiving ACSD school can also choose to send the sibling(s) of that student to the same new school pending the superintendent's determination that all aspects of this policy continue to be met. Students of volunteer families will be provided transportation to the new school only under existing bus routes. Under this policy, it is anticipated that students who volunteer to move to the new school will be enrolled at that school for the duration of their elementary school education.
3. The superintendent will ensure that any movement of students across schools will take class size and school capacity into account ensuring compliance with D6 across all ACSD schools and classrooms.
4. If indicated preferences do not adequately ensure class sizes that comply with D6, the superintendent can assign a cohort of students—the entire class—to another school in order to ensure integrity of the educational program. In this case, ACSD will provide transportation for these students to and from their newly assigned school. These students can choose to attend a different school than the one they are assigned by the superintendent, in accordance with policy C30. In this case, ACSD may not be able to provide transportation for their student to and from school.

Commented [3]: All our policies are. Why is this here?

Deleted: This policy shall be posted on the Addison Central School District website and forwarded to the Secretary of Education.

Addison Central School District

Policy: School Residence
File Code: C30
Warned: June 8, 2017
Adopted: June 19, 2017

Policy

PK-12 students are assigned to schools based on the attendance area in which their parent(s) and/or legal guardian reside(s). The attendance areas are established with the premise that the assigned schools provide equal educational opportunities for students in the communities they serve. Attendance areas for Addison Central School District are town borders, and correspond to town elementary schools:

Town of Bridport: Bridport Central School
Town of Cornwall: Bingham Memorial Elementary School
Town of Middlebury: Mary Hogan Elementary School
Town of Ripton: Ripton Elementary School
Town of Salisbury: Salisbury Community School
Town of Shoreham: Shoreham Elementary School
Town of Weybridge: Weybridge Elementary School

Students who live in towns whose elementary school has a pre-Kindergarten program have first priority to enroll in their school of residence pre-Kindergarten program. If space allows, pre-Kindergarten slots will be opened annually at ACSD schools with pre-Kindergarten programs for students in Addison Central School District from towns in which their local schools do not provide a pre-Kindergarten program.

Students whose residence changes within the District boundaries after January 15 may continue in the school serving the former residence until the end of the school year. The parent/guardian will be responsible for providing transportation for his/her student changing attendance areas for reasons other than those provided by law.

The Board acknowledges that circumstances may arise that result in a need to transfer a student to a school outside of his/her designated attendance area. All intra-district transfers shall be evaluated based upon documented circumstances which may include the following:

1. The student is a victim of a violent criminal offense in or on the resident school grounds;
2. Continuing enrollment in the student's current school for the remainder of the school year, given a change of the parent/guardian official residence;
3. Significant family and/or student circumstances of an educational, medical, financial, or personal nature which would be relieved by a change in attendance status;
4. A request is made to enroll a student in a school prior to the parent/guardian moving into that school's attendance area with documentation showing the move will occur within two months of the start of the school year or the date of the transfer submission, whichever is later;

Decisions regarding a student transfer shall be made by the Superintendent or designee, in consultation with the student's parent(s)/guardian, and relevant education and social service professionals. The decision by the Superintendent is final and not subject to appeal.

Procedure outlines application and enrollment criteria.
