

Pearson Gradebook

For Students

Accessing Your Gradebook

To access your gradebook, login into your Pearson Connexus account and select the main menu from the left hand side of the screen. From there, select the Gradebook option. After you select this option, you will see all your courses. After you select an individual course, you will have different option tabs to choose from, including: Grades (categories or syllabus order), Dashboard, For Me, What If, Activity, Badges, and Settings. Some of this tabs will not have enough data to load yet. But, Dashboard, What If, and Activity will be useful as you start to work through your courses. I have provided screenshots from my test account. Although this count has no activity, the tutorial given by the slides will help you navigate through the use of student gradebook. Please do not hesitate to reach out if you have any questions or concerns.
