¹ Lab Science Course.

Completion of the required number of credit hours above (excluding SDEV 101) represents 33 of the 36-40 credit hours in the associate of arts degree requirements. To complete the requirements, a student must take another three to seven credit hours from the above courses. LCCC students must complete a minimum of 60 credit hours to complete the associate of arts degree. Therefore, a student may earn the associate of arts degree by completing the above degree requirements of 36-40 credit hours, SDEV 101 for one credit hour, and additional elective hours selected from the above courses or any other courses to complete a minimum of 60 semester hours. CMMC 177G can now be used as a Diversity, Equity, and Inclusion (DEI) OT36 elective. Completion of these requirements includes the Ohio Transfer 36. Choices within these ranges will require careful academic planning and advice. Students should seek assistance from an advisor before proceeding.
