After Action Review

1. Please list 3 positive outcomes of this meeting.

2. What are your concerns?

3. Do you have suggestions for improvements?

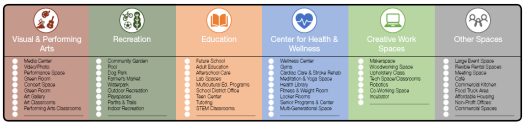

4. How would you explain in 2 sentences what we have accomplished at this meeting?

Activity Instructions

ACTIVITY 1

Honing the Program Vision

1. Review the **new** program ideas listed within each category. These ideas came directly from the suggestions in the first meeting. If you have an idea that isn't listed, you may add it in the blank slot under the relevant category.

2. Discuss with your group what your favorite new programming ideas are. Your table has 15 total star stickers to use to mark your favorites.

★ = 1 vote

You may place more than one star on an idea, or you may use them to select 15 different ones. You may select all program ideas within the same category or disribute your stars among all six.

3. Select 3 favorites to elaborate on. Write those program names at the top of columns 1, 2, and 3.

These selections should be the programs that your table wants to elaborate on in more detail. They don't have to be your top 3 favorites, though they can be. What you choose to elaborate on here will not affect the stars or votes awarded.

Think about the way this program interacts with other programs on the site and answer the 4 questions listed.

ACTIVITY 2

Evaluating 3 Conceptual Schemes

At the last meeting, residents arranged blocks to indicate their overall preferences related to building height, green space, parking structures, and site organization. In this activity, we would like you to review three concepts for site organization and give feedback.

1. Review and discuss the three conceptual schemes. Read the "characteristics" descriptions to help distinguish the major differences between them. Discuss with your group.

2. Evaluate each concept based on the prompts below. Fill in the bubbles that correspond to your rating for each category. 1 is the lowest score, and 5 is the highest.

3. Comment on the sheet to communicate any feedback, ideas, or other site considerations you want to express. You may use post-its, draw on the diagrams, and/or write in the area provided at the bottom.

4. Overall Ranking: Between the three concepts, decide as a group which you think is strongest overall and rank the three in the bubble at the bottom, 1 being your favorite and 3 being your least favorite.

OVERALL RANK
(among the three approaches)

Existing Programs

Cubberley Community Center

Current Tenants and Uses

TENANTS

Children's Preschool Center
Good Neighbor Montessori
