Families Making the Connection

Move Your Way – Be Active Every Day!

January is Family Fitness Month, a great time to renew or start a fitness routine with your family. Families that are active are healthier. Families that are active together have more fun!

Physical activity fosters normal growth and development, can make people feel better, function better, sleep better, and reduce the risk of chronic diseases. According to the Physical

Activity Guidelines for Americans, youth ages 6-17 should be active for at least 60 minutes each day. For substantial health benefits, adults should do at least 150-300 minutes a week of moderate-intensity, or 75-150 minutes a week of vigorous-intensity aerobic physical activity, or an equivalent combination.
