

Special Education Articulation Process 2024-2025

Letter

You have already completed your first step in the articulation process. Included with the guide is our welcome letter to families. We look forward to walking this articulation path with you.

Collaboration Phase

The high school and middle school special education teams will work together to address your child's unique needs. We will review your child's recent evaluation, Individualized Education Program (IEP), and current school data to collaborate about academic courses and related services. All recommendations will be personalized and based on your child's specific needs as identified through evaluation documents.

Enrollment Phase

Parents will soon receive information from the high school. This will include important dates, placement details, and information about summer school. Please make note of these important dates and attend any sessions as necessary.

Mark Your Calendars
