

LAUNCH PROCESS

Selection and Participation For New Students

1. Apply

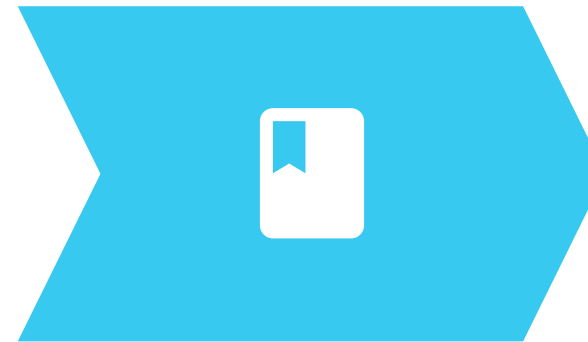

Students complete the online Launch application.
(Feb-March)

2. Interview

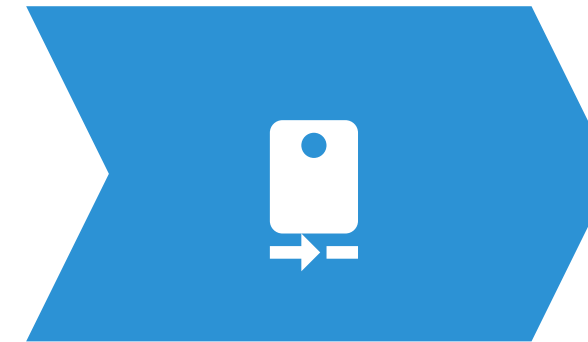

Students are interviewed by a panel of Launch staff. Then, students are selected based on their interview answers, grades, discipline, and attendance to school.
(March-April)

3-Placement Match

Once selected for Launch, students will be notified via email. Then, the process of matching students within a desired career field begins. This process takes most of the summer.
(April-July)

4- Interview/ Onboarding

Once matched with a placement, the business will contact the student about their own interview and onboarding process. The placement will ultimately make the final hiring decision. Students will also complete paperwork called a Training Agreement.
(June-July)

5-Work & Learn

When the school year begins, students will begin working at their placements during the periods dedicated to Launch on their school schedules. Students will also participate in a regular “professional skills” class.
(August-May)
