

WESTBURY PUBLIC SCHOOLS

BUILDING A FUTURE-READY DISTRICT

EXPANSION WORK WILL BEGIN THIS JUNE

Ninth Graders Will be Back at Westbury High School for the 2019-2020 School Year

Westbury high school rendering

Westbury middle school rendering

Confronted with severe overcrowding at Westbury High School and Westbury Middle School, the Westbury School District worked to offer the community a solution that would alleviate these pressing issues with no financial impact on taxpayers. The culmination of that effort was the community's approval of the District's May 2018 bond referendum.

Since that time, central administration has been working with the District's architectural and engineering partners to finalize and obtain required State Education Department approval of our middle school and high school renovation and expansion plans. This work, when completed, will ensure our ability to accommodate our continued enrollment increases while continuing to provide the necessary resources for all of our students to succeed.

We are proud to announce that EXPANSION WORK WILL BEGIN THIS JUNE AND OUR NINTH GRADERS WILL BE BACK AT WESTBURY HIGH SCHOOL FOR THE 2019-2020 SCHOOL YEAR.

TIMELINE

This summer we renovated 16 elementary school classrooms, updated the Westbury High School science labs and add state-of-the-art technology throughout the District

- optimal learning environment
