

MRS. STOVER'S RESOURCE ROOM UPDATE

November 2024

Classroom News

Happy November! We are finishing the first quarter and digging into the 5th grade curriculum.

In resource room this month, we are working on using strategies to help us in the classroom. We will also be focusing on writing about a topic.

As we work through grade level material, fractions and responding to a text will be a large focus!

We are also continuing to work on goals. Students participate in weekly tracking of goals on Fridays! We are still working hard on persevering and understanding our own needs as learners while still following classroom norms and expectations.

I will be attending parent/teacher conferences with homeroom teachers! If you would prefer a separate conference, let me know!

I encourage you to check out my webpage for more information on the special education process from a parent's perspective.

Reminders
