DID YOU KNOW...

Apricots are believed to have originated in China around 4,000 years ago and were spread to the Mediterranean region through trade. Apricots were a highly prized and popular gift in ancient Greece. They're low in calories but high in fiber and vitamins A and C, and beta-carotene!

HARVEST OF THE MONTH

Broccoli

Broccoli, cultivated in the Mediterranean over 2,000 years ago, is rich in vitamins C, K, fiber, and antioxidants. It gained popularity in the U.S. during the 20th century, thanks to Italian immigrants who introduced their recipes and traditions.
