The School Site Council (SSC) completed a comprehensive needs assessment, including analyses of student performance in relation to the state

academic content standards. In order to provide supplemental interventions, the SSC analyzed the academic performance of all students and subgroups, and it considered the instructional program's effectiveness for at-promise students.

The School Site Council aligns the Long Beach Unified School District's Strategic Plan and LCAP into the SPSA. The LCAP Goals are presented at: lbschools.net/lcap. The LCAP Federal Addendum is presented at: lbschools.net/departments/business-and-finance/fiscal-services/state-and-federal-programs/state-and-federal-required-plans

Education Code 52062 (4) requires that the superintendent of the school district review school plans for schools within the school district and ensure that the specific actions included in the local control and accountability plan or annual update to the local control and accountability plan are consistent with strategies included in the school plans submitted.

Progress and components of LBUSD's Strategic Plan, viewable at lbschools.net/departments/strategic-planning, are rooted in the following core values:

- Centering student needs and voice
- Authentic community engagement and collaboration
- Culture of innovation and creativity
- Diversity and inclusion
- Environment that fosters connection, respect and safety
- Equity and social justice
- Excellence and accountability through continuous improvement
- Fostering joy and commitment
- Integrity and responsible leadership

The Board of Education has set goals to help guide the district and schools:

Goal 1: Reading: Proficiency

The percentage of Grade 3 students who meet or exceed grade-level standards on the state English Language Arts SBAC assessment will grow from 48% in June 2023 to 70% by June 2028.

Goal 2: Reading: Acceleration

The percentage of students in Grades 4-8 scoring at the “Not Met” achievement level in the prior year who meet the scale score growth target on the state SBAC-English Language Arts assessment will increase from 28% in June 2023 to 60% in June 2028.

Goal 3: Algebra Proficiency

In pursuit of having more than 80% of Black/African American students meet the Algebra A-G requirement by the end of Grade 9, the proficiency gap between Black/African American students and all other students will decline from 5% in June 2023 to 0% by June 2028.

Goal 4: College & Career Readiness

In pursuit of having more than 66% of Black/African American graduating seniors A-G eligible, the proficiency gap between Black/African American students and all other students will decline from 15% in June 2023 to 0% by June 2028

In addition, the SSC recognizes following recommendations made by the District Community Advisory Committee (DCAC) and the District English Learner Advisory Committee (DELAC):

DCAC Recommendations:

Recommendation 1: Provide more parent involvement and parent education training at all schools, including sending parent participants to conferences in order to empower and train parent leaders.

Recommendation 2: Create and provide a more inviting, safe and welcoming climate/community atmosphere at all sites for all cultures, parents and students.

Recommendation 3: Re-establish district Parent Centers and encourage sites to establish a parent center/parent resource room to better engage and serve parents.

DELAC Recommendations:

1. Monitor the implementation of the district's comprehensive English Language Development (ELD) program in grades K-12th addressing language and academic needs of a diverse EL population from newcomers to Long Term English Learners.
2. Provide parent workshops to build capacity on specific topics such as LCFF, LCAP and SSC to better understand how each functions;
3. Continue to explore programs at sites that address the social/emotional development and well-being of all students, including English Learners
4. Expand tutoring and other intervention programs that are content-specific to meet the student's identified needs including special education students

The SSC recognizes the importance of **Parent and Family Engagement** and emphasizes LBUSD Board Policy 6020:

The Governing Board recognizes that parents/guardians are their children's first and most influential teachers and that continued parent involvement in the education of children contributes greatly to student achievement and a positive school environment. For this reason, the Governing Board will have a written parent involvement policy developed jointly with and agreed upon by parents/guardians and applicable to non-Title I schools.

Parents/guardians shall be notified of their rights to be informed about and to participate in their children's education and of the opportunities available to them to do so.

The district's local control and accountability plan (LCAP) shall include goals and strategies for parent/guardian involvement and family engagement, including district efforts to seek parent/guardian input in district and school site decision making and to promote parent/guardian participation in programs for English learners, foster youth, students eligible for free and reduced-price meals, and students with disabilities. (Education Code 42238.02, 52060)

The Superintendent or designee shall regularly evaluate and report to the Board on the effectiveness of the district's parent/guardian and family engagement efforts, including, but not limited to, input from parents/guardians, family members, and school staff on the adequacy of involvement opportunities and on barriers that may inhibit participation.

Title I Schools

The Superintendent or designee shall involve parents/guardians and family members in establishing district expectations and objectives for

meaningful parent/guardian and family engagement in schools supported by Title I funding, developing strategies that describe how the district will carry out each activity listed in 20 USC 6318, as contained in the accompanying administrative regulation, and implementing and evaluating such programs, activities, and procedures. As appropriate, the Superintendent or designee shall conduct outreach to all parents/guardians and family members. (Education Code 11503; 20 USC 6318)

When the district's Title I, Part A allocation exceeds the amount specified in 20 USC 6318, the Board shall reserve at least one percent of the funding to implement parent/guardian and family engagement activities and shall distribute at least 90 percent of those reserved funds to eligible schools, with priority given to high-need schools as defined in 20 USC 6631. The Superintendent or designee shall involve parents/guardians and family members of participating students in decisions regarding how the district's Title I funds will be allotted for parent/guardian and family engagement activities. (20 USC 6318).

Conclusions from the needs assessment were used to prioritize supplemental programs, materials, professional development, targeted interventions, and other activities that will strengthen the school's academic achievement, close the achievement gap, and provide a safe, civil and productive school.

We plan to have three lunches in the 2022-23 school year in order to maintain the safest environment possible for our students. We would like to have additional recreational staff to facilitate lunch time activities. We purchased tether balls as well as other equipment to run games during lunches. We also have a game room that is often filled with students that don't do well in large crowds. We have a high special education population and want to ensure that everyone is supervised and able to participate in the various activities they feel comfortable in. Budgeted Items			
Line Number	Description	Cost	Personnel Summary
1	We plan to offer collaborative release days for teacher planning by quarter for all content teachers (1 day per quarter for Math, Science & History). ELA will have two days per quarter (one for professional development with planning time and the other for collaborative scoring followed by creating next steps for their students). All scheduled release days will have an agenda and teachers will be expected to show the outcome (plans) at the end of the day. The release time will be for using their data to do backwards planning using the standards. They will be working to support school and district initiatives such as our work in equity and use of GATE strategies. In addition we want to make sure that all teachers are using the same rubrics, giving timely feedback to students, and setting goals for interventions based on the assessments. The curriculum coaches will help guide the planning days. Special Education teachers will plan with the teachers they support (co-teach partners).		Substitute teacher full day
2	We plan to have three lunches in the 2022-23 school year in order to maintain the safest environment possible for our students. We would like to have additional recreational staff to facilitate lunch time activities. We purchased tether balls as well as other equipment to run games during lunches. We also have a game room that is often filled with students that don't do well in large crowds. We have a high special education population and want to ensure that everyone is supervised and able to participate in the various activities they feel comfortable in.		Hourly - Recreation Aide
3	With the loss of Bancroft's RJ coach, we would like to create a 3 member RJ team that would fill the role of the RJ coach. This team would model and train other teachers to implement Restorative Justice practices in their classrooms.		Teacher Hourly Extra Comp
