

4th Annual Science Expo Held at Bolles Upper School San Jose Campus

Bolles Upper School San Jose Campus students Vedika Shenoy '28 and Abby Naugle '28 presented their project, "Toxic Tampons," at the Bolles Science Expo December 10 in the new, three-story Frank R. Sanchez & Hope and Dana E. Fender Center for Innovation.

Bolles middle school students Akshat Ranjan '29, Nikhil Desai '29 and Krish Manohar '30 traveled to the Bolles Upper School San Jose Campus to participate in the Bolles Science Expo, an annual event that was held in The Bolles School's Frank R. Sanchez & Hope and Dana E. Fender Center for Innovation for the first time this year.

More than 100 middle and upper school students participated in the fourth annual Bolles Science Expo on Tuesday, Dec. 10.

Mayo Clinic SPARK research, Honors/AP biology, middle school and independent research students participated in the

expo, which was held at the Bolles Upper School San Jose campus, in its new 47,000-square-foot Sanchez Fender Center for Innovation. The science expo also offered demonstrations and displays from the school's 3D CAD design and printing classes, robotics team and robotics classes.
