K-8 VIRTUAL

ABOUT US

Our Mission

To provide high quality instruction for every student using an alternative learning experience that addresses students' needs and engages families as partners in their instruction.

Our Staff

At K-8 Virtual our small staff of teachers are highly qualified. We love to see smiling faces and will support students in their independent learning. We also offer in-person scheduled contacts.

PARENT/GUARDIAN RESPONSIBILITY

In order to provide your child with the greatest opportunity of being successful, we need your help. Since the student is not always present in the building, it is the parent/guardian's responsibility to ensure the student is doing their online work and that they are attending their weekly meeting with their teacher/s. Parents/guardians must meet with teacher/s monthly.

"Education is a shared commitment between dedicated teachers, motivated students and enthusiastic parents with high expectations."

-Bob Beauprez

ACADEMIC EXPECTATIONS

Learning through Pearson

At Yakima K-8 Virtual, students will take their courses through Pearson. Students are expected to participate in their Online Instructions (Pearson) for 5-6 hours per school day. Pearson offers a pacing guide which informs staff and students of their progress and if they are on track to complete the course.

Pearson allows our teachers to track their students' performance and provides them with the following information:

- Coursework including assignments for scoring and feedback
- Current grade for assignments completed
- Percentage of course completed
- The amount of time a student has been logged in
- The exact dates a student has logged in

ATTENDANCE

Truancy laws still apply to our school. Students are expected to communicate with their teacher/s once a week to be considered in attendance. This weekly meeting is REQUIRED and can happen in one of three ways:

1. Direct one-on-one contact with a teacher, in person or by email, telephone, instant messaging, or interactive video. Google Meets is our preferred method.
2. In-person contact with a teacher in our learning lab. In-person instructional contact may be accomplished in a group setting between the certificated teacher and multiple students.
3. Synchronous, digital instructional contact with a teacher using online, voice, or video communication technology. Held in a group setting for instruction, review of assignments, testing, evaluation of student progress, or other learning activities or requirements.

If a student misses their weekly meeting they are considered absent for that week.
