

BSME Services Software and Management Information Systems

BSME Partner Directory

BSME facilitates an invaluable relationship between our schools and over 90 Partners, who provide products and services to schools and staff.

Schools in need of software or MIS providers can use this brochure to browse trusted BSME Partners. To have a look at our other Partner categories, please visit our [website](#).

Services Software and Management Information Systems

BlueSky Education

www.blueskyeducation.co.uk | contact@blueskyeducation.co.uk

BlueSky simplifies staff development. Our all-in-one solution connects appraisal objectives, professional learning, evaluation and feedback processes, allowing the entire workforce to focus on continuous development in line with your relevant national standards and frameworks.

The intuitive reporting features help school leaders evaluate the impact of professional learning on school and trust priorities. Linking school quality assurance with holistic intelligence tools allows leaders to easily evaluate progress, while staff can see how their work contributes to school improvement.

BlueSky is uniquely flexible, meaning schools can easily tailor the process and terminology to match the organisation's values and priorities. The leading online solution of its kind, the platform is used by thousands of schools, trusts and groups in over 40 countries worldwide.

Education Horizons

www.educationhorizons.com/solutions/ | [LinkedIn](#)

Education Horizons is a global leading EdTech company, providing software for over 2200 schools and 3 million school users in more than 60 countries across Australia, UK, Europe, Asia, the Middle East, Africa and NZ.

Our purpose is to positively change the lives of children, their families, teachers and the school staff who support them through our suite of world class products: Engage, Zunia, AssetWhere and SEQTA. They provide best-in-class school management, teaching and learning, administration, data management and geo-mapping functionality which powers up schools to achieve their strategic goals and create amazing student and staff outcomes.

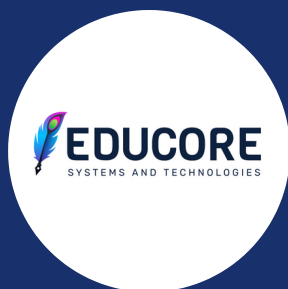

Juniper Education

www.junipereducation.org | [LinkedIn](#)

Serving K12 schools and groups, Juniper's technology and expertise deliver joined-up software, solutions and services for classrooms, the back office, staff development and engaging your parents. Our promise to our customers is simple: "We look after you so that you can look after our children."

Services Software and Management Information Systems

iEducore Systems and Technologies FZE

educore.io | [Linkedin](#)

Educore is a holistic system that serves the entire education system with a digitally empowered platform. Our system seamlessly integrates key modules such as CRM, LMS, HRM, SIS, SMS, ERP, and Admissions, providing reliable performance that optimizes school management. Educore makes it easy for quick and accurate allocation or maintenance of information about students and inquiries generated, which extensively increases the ability of school administration. We are a holistic and coherent system for education that covers all the operations of an educational establishment with consistent and reliable performance across Academic, Administrative, and Financial tasks.

Educore simplifies daily tasks for educators and administrators with its robust, cloud-based platform, allowing easy access across any device. Trusted by thousands, Educore empowers schools to monitor student progress, reduce educator workload, and achieve operational excellence.

iSAMS Ltd

info.isams.com/bsme | [Linkedin](#)

iSAMS was the first school student management system (SIS) to be entirely cloud-based. Its clever design combines a single database with a suite of modules and portals to give you bespoke management of all academic, pastoral, finance, and administrative information.

We are proud that over 1,500 schools use iSAMS every day to benefit their unique data needs across the globe, including over 40% of BSME member schools in the Middle East.

You might recognise some of our iSAMS schools, including Dubai English Speaking School & College, Brighton College Abu Dhabi, Sherborne Qatar, Cranleigh School Abu Dhabi, British International School Abu Dhabi, Doha British School, Dubai British School, Jebel Ali School, Ras Al Khaimah Academy, Bloom World Academy, British School Dhahran, and New English School Kuwait.

This intuitive system is perfect for everyone at your school and is also accessible on mobile devices for maximum flexibility. From data administrators and staff to students and parents, iSAMS brings together the whole school community.

Our experienced and dedicated Development team is constantly working to enhance the SIS with its extensive portfolio of integrated modules and online portals. This allows our schools to streamline and improve their information management processes while they focus on delivering excellence for their students.

Our bespoke financial management solution, iFinance, was also built with the needs of International schools in mind. Eliminate unnecessary duplication of work and reduce costly mistakes with a cloud-based system that brings together administrative and fee billing elements.

Visit our website at the link above for more information and to watch a system demo! We'd love to show you what iSAMS can do.

SchooliP - Derventio Education

www.derventioeducation.com | LinkedIn

SchooliP is the ultimate EdTech platform for school improvement, integrating appraisal, professional development, quality assurance, and school evaluation. It streamlines processes, fosters professional growth, and enhances educational outcomes.

SchooliP supports appraisal processes with annual reviews and ongoing feedback, linking professional development to appraisals for personalised growth plans. Quality assurance tools help leaders monitor and evaluate school performance comprehensively, integrating data for a clear picture of progress. The platform supports school evaluation using frameworks and self-evaluation tools for strategic planning.

SchooliP allows schools to design processes reflecting their unique culture and needs, fostering professional dialogue and open conversations for incremental improvement. By consolidating multiple processes into one platform, SchooliP enhances efficiency and transparency, saving time and resources.

Trusted by schools worldwide, SchooliP offers continuous support and training for seamless integration. Contact the SchooliP team today to book your free demo and see how our platform can help your school thrive.

Schools BI Ltd

www.schoolsbi.co.uk | LinkedIn

Discover the power of Schools BI – an online school analytics tool that allows you to instantly access, view, and report on your School or Multi-Academy Trust (MAT) internal data with expertly designed dashboards that bring your information to life.

Gain valuable insights and make effective decisions to positively impact the teaching and learning environment.

Partnering with Schools BI offers key benefits:

- Maximize your institution's performance with user-friendly dashboards that lead you straight to essential information, empowering you to drive results effortlessly.
- Identify triumphs and areas of concern with intuitive dashboards. Take proactive action based on a deep understanding of your education data.
- Present key information to your senior leadership and compare pupil performance data across your trust.
- Save time by finding the information you need with just a click. Analyse and derive meaningful insights without the hassle.

At Schools BI, we understand that each School or Trust has unique needs. That's why our solution is flexible and adaptable, tailored to your specific requirements.

We integrate with all major systems, including SIMS, Arbor, Bromcom, iSAMS, Engage, Schoolbase, DCPro, and many more.

Say goodbye to standard dashboards and hello to custom analytics designed to make a real impact for your school or Trust.

Join the Schools BI community today.

Education Software Solutions / SIMS International

www.ess-sims.co.uk | LinkedIn

For over 30 years, Education Software Solutions (ESS) have been helping to reduce the amount of time schools, colleges, universities and libraries have to spend on administration, freeing up precious time to focus on what matters.

From improving decision making and simplifying communication with staff, students and parents for thousands of schools and colleges, to supporting public and academic libraries in stocking and issuing millions of books, our pioneering systems help organisations to manage one of their most important asset, data.

SIMS is the Management Information System at the heart of 19,000 schools, with 1 million users from over 40 countries. SIMS provides the tools to efficiently manage daily school life and drive improvement in learner outcomes.

WCBS International

www.wcbs.co.uk | LinkedIn

With 40 years' experience, operating in over 40 countries, WCBS is a trusted supplier of leading school admissions, MIS and finance software, providing integrated solutions to the independent and international education sector.

WCBS supports the whole school with HUB, the first cloud native platform, and a portfolio of solutions across Admissions, Finance, Academic.

Their cloud native Admissions solution HUBadmissions, professionally manages the entire applicant journey for independent and international schools, from enquiry to enrolment, all in one place.

With two-thirds of fee-paying schools struggling to meet their enrolment goals due to rising costs and increased competition, HUBadmissions provides the best first impression to applicants and their parents. Whether they are new prospects, returning pupils or part of the cohort moving on to the next year group, this Admissions solution makes school's stand out from the crowd with a simple, streamlined and tailored admissions process.

zenda

zenda.com | LinkedIn

zenda is a fintech partner to schools and colleges, building products exclusively for the education sector. It helps schools and colleges in:

- 1/ Digitising all payments - All payments from tuition to other services like trips/ ECAs, along with consent management. With stronger oversight and reconciliation with the existing ERPs, removing all manual intervention. Integrated with 50+ systems including Oracle, Microsoft etc
- 2/ Offering flexibility to parents - Enable parents to pay in parts or through custom payment plans, while school gets its money on the due dates (99.2% success rate)
- 3/ Improving collection efficiency - zenda's proprietary tools remove leakage and ensure money gets collected. Increase cash flow predictability with automated direct debits (i.e. digital PDCs)

Launched in 2021, it is present in 25% of all UAE K-12 schools, serving 100K+ parents across UAE, India and Qatar, and on track to process 2B+ in payments volume this academic year. It works with premium brands including Nord Anglia, Repton, ISP, Clarion, ESOL etc. zenda is backed by leading VCs including STV, GFC, Venturesouq etc.
