

Selection Process

- Students will be recommended to attend the Applied Trades Academy by their 8th grade administrator/counselor.
- Student application and supporting documentation will be submitted to the CCST staff.
- Records are reviewed at CCST and eligible students are interviewed by CCST staff at the home school.
- CCST staff will notify home schools and students of acceptance decisions.
- Selected students will begin ATA at the beginning of their 9th grade school year.

Applied Trades Academy

Cecil County School of Technology
Cecil County Public Schools

The ATA Difference

This trade skills experience program provides selected students with an opportunity to explore entry level trade skills at the Cecil County School of Technology. Specifically, students may gain experience with basic skills in welding, masonry, carpentry, residential electrical, and basic auto maintenance. Students also develop employability skills including the employment application process, as well as successful work habits.

The Applied Trades Academy provides qualified students with an opportunity to combine the exploration of basic trade skills with delivery of English and Mathematics content instruction through hands-on, real life applications.

CONTENT COURSES

Students will be enrolled in English 9 and the appropriate level of mathematics (Pre-Algebra or Algebra I).

ATA students have the opportunity to take Advance Technology I and Advance Technology II classes which will get them started towards a completer program.

An elective credit can also be earned through the Applied Trades Academy I class.

FOUNDATIONS OF TECHNOLOGY

This course explores the application of technical knowledge, tools, and skills needed to solve practical problems. Instruction is centered on problem solving and hands-on activities in the areas of construction, manufacturing, communication, biotechnology, power and energy, and transportation.

Students will attend the Applied Trades Academy everyday from September through June of their 9th grade school year. Uniforms are required to be worn everyday at

CCST.

What are students saying?

“I like the program because it’s fun and I get to do hands on work.”

“I like working with kids from other schools, and we get to be responsible.”

“I like not having to sit in my seat all day and being active.”
