

REMINDER

Use Red Flag Reporting for Financial Matters Only

Red Flag Reporting is our District's designated system for reporting financial concerns such as fraud, misuse of funds, or other financial irregularities. Recently, there has been an increase in student discipline and staff issues that have been submitted through this system.

The preference for submitting student-related issues, such as discipline concerns, is to take the matter directly to the Building Administrator or supervisor. Another option will be to use the District Tip Line, which can be accessed on the District website on the Community tab. Once this tab is open, it is easily accessible by clicking on the Tip Line icon.

Thank you for ensuring Red Flag Reporting remains focused on financial matters. If you have any questions about the proper reporting process, please reach out to your supervisor.
