2021-2022
Digital Learning PD
Self-paced Online Courses

**The following courses count toward the Parkway Virtual Learning Certificate*
For more information about the certificate go to: bit.ly/digitalpd21-22
These self-pace online courses run from Oct. 4 through March 18
Courses can be started and finished anytime within that range

Teaching Online: Foundations for Virtual Learning (3 hours- .25 credit)**
Engage with fundamental frameworks and concepts that will shift your instruction for online learning.
Schoology Essentials: Part 1 (6 hours- .5 credit)**
Delve into the basics of all the tools of Schoology and how to use them.
Developing Your Schoology Class: Part 2 (6 hours- .5 credit)**
Go beyond the basics of all the tools of Schoology and plan, design and develop resources for your online class.
Schoology Assessments (3 hours- .25 credit)**
Think outside the box and assess students creatively with Schoology Assessments!
Beginning to Blend (6 hours- .5 credit)**
Learn the how and why of "blended" and how blended/personalized learning is changing the face of teaching and learning.
Flipped Learning (3 hours- .25 credit)**
Explore how flipped learning turns classroom time into a more individualized experience where learners move at their own pace.
Citizenship in the Digital Age (6 hours- .5 credit)**
Think about the ways that we can teach students to be safe and responsible digital citizens and explore resources that can help to guide these conversations.
Citizenship in the Digital Age: Part 2 (6 hours- .5 credit)**
Take your dig cit knowledge to the next level through implementation.

The following self-paced online courses will have a fall session (Oct. 4- Dec. 17) and a spring session (Dates TBD)
Google Certification Level 1 (12 hours- 1 salary credit)
Get certified as a Google Educator.
Google Certification Level 2 (12 hours- 1 salary credit)
Take your Google skills to the next level. You must pass Google Certification Level 1 first.
Media Literacy in Practice! (3 hours- .25 credit)
Understand the complexities of how information is created, spread, and consumed while considering how that affects teaching and learning.
Interactive Pixel Art (6 hours- .5 credit)
A clever way to provide instant feedback to students as they unlock an image by answering questions correctly.
