COMPREHENSIVE ANNUAL FINANCIAL REPORT

AND

INDEPENDENT AUDITORS' REPORT

PARKWAY C-2 SCHOOL DISTRICT

June 30, 2019

INTRODUCTORY SECTION

November 6, 2019

Members of the Board of Education and
Residents of the Parkway School District

The Comprehensive Annual Financial Report (CAFR) of the Parkway C-2 School District (District), Chesterfield, Missouri for the fiscal year ended June 30, 2019 is presented on the following pages. This report provides full disclosure of the District's financial operation. Missouri revised statute 165.111 requires an audit to be performed at least biennially of the financial records of all funds of the District. Parkway has always chosen to have an audit done annually rather than biennially. This CAFR, which includes an opinion from the Independent Auditors that conducted the District's audit, conforms to the Generally Accepted Accounting Principles in the United States of America (GAAP) as applicable to governmental entities. The District maintains full responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures.

We believe that all data, as presented, is accurate in all material respects and that it is presented in a manner to fairly set forth the financial position and results of the District's operations as measured by the financial activity of its various funds. We further believe that all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial activities have been included.

This letter of transmittal is designed to be read in conjunction with the Management Discussion and Analysis (MD&A) report which is located following the independent auditors' report. Financial highlights and a discussion of the District's financial condition are provided in the MD&A.

The Comprehensive Annual Financial Report is presented in three sections as follows:

1. The Introductory Section, which includes a Letter of Transmittal, Principal Officials, Organizational Chart of the District, and Association of School Business Officials (ASBO) Certificate of Excellence in Financial Reporting.

2. The Financial Section, which begins with the Independent Auditors' Report and includes the Management's Discussion and Analysis, the Basic Financial Statements, Notes To Basic Financial Statements, Required Supplementary Information and Supplementary Information.

3. The Statistical Section, which includes selected comparative financial, non-financial, demographic and economic data for the District.

Profile of the Organization

This report includes all funds of the District. The District is a political subdivision of the State of Missouri created under the Constitution of Missouri.

Parkway C-2 School District is considered a national leader in innovative education. Its teachers, administrators and students strive for excellence each day. Parkway is more than just a school system; it is a nurturing community that fosters individual talents and encourages collaborative thinking. At Parkway, when one person succeeds, everyone grows. It is the Mission of the Parkway School District to ensure all students are capable, curious and confident learners who understand and respond to the challenges of the ever changing world. The District believes that Higher Expectations bring Brighter Futures For All By All. Certain accomplishments of the District are as follows:

- **Blue Ribbon Schools** – Parkway has 17 U.S. Blue Ribbon and 19 Missouri Gold Star schools.
- **National Merit Scholars –** 20 Parkway students were named National Merit Semifinalists.
- **America's Best High Schools** – All four traditional Parkway high schools - Central, North, South and West were named best High Schools in America by U.S. News and World Report.
- **National Schools of Character** – Parkway was named as a National School District of Character. Parkway has twelve National Schools of Character.
- **Green Ribbon Schools** –Parkway now has six National Green Ribbon Schools - Bellerive Elementary, Claymont Elementary, Green Trails Elementary, Highcroft Elementary, McKelvey Elementary and North High - honored for innovative efforts to reduce environmental impact and utility costs, improve health and wellness, and ensure effective sustainability education.
- **Energy Star Certified Schools** – Parkway has 16 schools recognized as Energy Star certified schools.
- **Tax Rate –** Parkway consistently has one of the lowest property tax rates out of the 23 districts in St. Louis County.
- **Top Test Scores in Missouri** – Parkway earned a 98.9 on the most recent Annual performance report issued by the Missouri Department of Elementary and Secondary Education. Parkway ranked among the top 10 districts in the state with over 1,000 students.
- **Financials** –Parkway is one of only four school districts in Missouri to earn the Standard and Poor's AAA bond rating.
- **Top Workplace** - Parkway School District was selected as a Top workplace in St. Louis by *The St. Louis Post-Dispatch* based on surveys of employees for the sixth year in a row.
- **Social Justice Work -** The District was honored at the National Network for Education Renewal Conference for social justice work.
- **Longevity –** The average Parkway school is 50 years old.

The Parkway School District Board of Education (the "Board"), consisting of seven elected officials, has the power to sue and to be sued and to make rules and regulations for its own government consistent with the laws of the State of Missouri and the State Board of Elementary and Secondary Education (DESE). The Board has oversight responsibility and control over all activities related to public education in the District, including the authority to designate management, and the ability to significantly influence operations and primary accountability for fiscal matters.

It is the responsibility of the District to make public education available to residents of the Parkway C-2 School District. The District is an independent entity and receives its funding from local, state and federal government sources and must comply with the requirements of these funding agencies.

The District operates the seventh largest school district of the 523 districts operating in the State serving 17,575 students for Fiscal Year 2018-2019 The District provides a full range of public education services at all grade levels ranging from kindergarten through grade twelve. In addition to a superior regular academic curriculum, the District offers a broad range of other programs for students including gifted/talented, English as a second language, fine arts, advanced college placement, interscholastic and intramural athletics, assistance for at-risk students and others. In addition, the District provides services beyond the broad K-12. The District operates two Early Childhood Education centers and multiple classrooms throughout the district buildings, which serves children before they attend kindergarten and a Community Education program for adult continuing education. Some of the services provided to our students include instructional staff, instructional materials, instructional facilities, administrative and business service support, food service and bus transportation services and facility maintenance.

Accounting System and Budgetary Control

The District's comprehensive annual financial report was prepared pursuant to School Board Policy and in accordance with the standards established by the Governmental Accounting Standard Board (GASB).

The District utilizes a fully automated accounting system as well as an automated system of control for fixed assets and payroll. This system provides a complete set of self-balancing accounts for each District fund. The chart of accounts used in this accounting system was developed in accordance with the Missouri Financial Accounting Manual prepared by the Department of Elementary and Secondary Education, School Finance Section, State of Missouri.

The District's accounting system for governmental funds operates on the modified accrual basis of accounting. At year end, the governmental funds are converted from the modified accrual basis to a full accrual basis for the presentation of government wide financial statements. In developing the District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of these controls should not exceed the benefits and the evaluation of costs and benefits requires estimate and judgments by management.

The District believes that the internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

A complete budgetary system of accounts is maintained in all of the District's funds in accordance with District policy. The accounting system provides interim financial reports which detail year-to-date expenditures and encumbrances as compared to the budget. These reports are distributed to the District's management and Board on a monthly basis showing the status of the budget accounts for which they are responsible. These reports compare each program, building and line-item account balance to the approved budget. A monthly financial statement is prepared and distributed to the Board for their approval.

Economic Condition and Outlook

The District is located in St. Louis County, Missouri, and covers an area of approximately 68 square miles, including portions of unincorporated St. Louis County as well as areas of the following municipalities: Maryland Heights, Creve Coeur, Chesterfield, Town & Country, Des Peres, Ballwin, Manchester, Twin Oaks, Country Life Acres, Valley Park, Westwood and Winchester. The District is a blend of commercial, industrial and residential activity. The economic diversity of the District, along with the high quality of education, makes Parkway C-2 School District an attractive community.

Since the District was organized in 1954, it has expanded from a rural farming community to a suburban industrial one, expanding from a small district to one of the largest in St. Louis County and tenth largest in Missouri. Today, the District includes four high schools, five middle schools, 18 elementary schools and two Early Childhood Development Centers. Parkway is currently accredited with distinction in performance under the Missouri School Improvement Program (MSIP) Standards administered by the State Department of Elementary and Secondary Education. The District is governed by the Board of Education, whose seven members are elected for staggered three-year terms of office.

The population within the District's boundaries is estimated to be 143,296. There were 17,575 children that attended school during the 2018-2019 academic year. The District employed the following full time equivalent staff; 1,381 certificated instructional staff. The current certified staffing created a certified staff to student ratio of 12.73:1 during the past academic year. The staffing ratio is expected to decrease slightly to 12.72:1 in 2019-2020 based on a projected student enrollment of 17,611 and instructional staffing of 1,384.2 FTE.

Major Initiatives

<u>Current Year and Future Years</u>

The District has spent the past year implementing its next generation five year strategic plan, Project Parkway 2.0, under which it will operate for fiscal years ending 2017 through 2021. The District operates on a Mission Statement that focuses on successfully educating all Parkway students and preparing them for the next stage of their lives.

As part of the first generation of Project Parkway, the District initiated its Profession Learning Committees (PLC's). These committees meet for two hours, once a month, to discuss and evaluate the process of delivering the best education to the students in order for them to be more capable, curious and confident learners who understand and respond to the challenges of the ever-changing world.

In addition to the PLC's, the District equipped each of its 33 buildings with Solar Panels for energy efficiencies. It is estimated that the combined savings across the District will be $15,000 in the first year and over the twenty-year term of the lease, the cost savings for all sites is estimated to be $1,200,000.

During the fall of 2011, the District developed an Ad Hoc Budget Review Committee. The purpose was to take a detailed look at the budget and make recommendations to the Board to address the declining reserve balances. It was not sustainable to continue spending down these reserves. As this committee reviewed the budget, the following principals were established:

- Our strategic plan is our roadmap in budgeting;
- We cannot compromise the strategic plan;
- The best approach is a multi-year budget planning;
- Fund balance parameters must be maintained over time;
- Goal is to achieve an 80/20 ratio of personnel to operating expenses (current ratio is 85/15);
- Staffing models must be established and followed;
- Classroom staffing is the priority;
- Cannot compromise professional development in support of all staff;
- The budget process must be transparent.

Under Project Parkway 2.0, Goal 3 is dedicated to the efficient allocation of resources including finances, facilities, personnel and time. The plan includes three measurable objectives and key performance indicators will indicate success or improvements needed. The measurable objectives are as follows:

- Each school, department and program will maintain ethical and fiscally responsible practices to effectively accomplish mission
- All personnel, time and resources will be allocated responsibly and flexibly based on mission related needs of students and the financial reality of the district
- Each school, department and program will successfully integrate environmentally, socially and fiscally sustainable best practices into their area of focus.

The key performance indicators include fund balance growth, evidence of an unqualified audit, successful bond issue elections, maintaining AAA credit rating, capital projects completion on time and on budget, personnel allocation based on targets, energy usage by building, water usage by building, wellness initiatives, etc.

Debt Administration

As of June 30, 2019, long-term general obligation bonds totaled $245,760,000. This is an increase of $38,815,000 from the prior fiscal year. The District has remaining bonded debt capacity of $493,145,930 on June 30, 2019.

Significant Board Policies

The District has entered into agreements with the Parkway National Education Association, the Parkway Registered Nurses' Association and the Communications Workers of America. Each of these agreements dictate the work environment and compensation for the members of each organization.

The Parkway National Education Association is a three year agreement that covers 2017-2018, 2018-2019, and 2019-2020. The Communications Workers of America agreement covers 2018-2019, 2019-2020 and 2020-2021. The Parkway Registered Nurses' Agreement was extended to cover the 2019-2020 fiscal year.

Reserve requirements are set by the Board of Education policy at 17.3% of the current year's operating expenditure budget. These reserves include a 13.5% operating reserve maintained to cover cash flow needs during the first half of the fiscal year and the stabilization reserve of 3.8% of operating expenditures to cover either an unexpected facilities issue or VST program funding issue. The facilities contingency is needed due to the age of District buildings and the documented list of deferred maintenance projects. In order to lessen our need for annual borrowing for Tax Anticipation Notes, the Board has established a policy that operating fund reserves are to grow by at least .75% every three year period.

Independent Audit

The revised statutes of the State of Missouri require that an independent audit be conducted on a biennial basis. The District policy, however, requires that an independent certified public accounting firm conduct an audit annually. This requirement has been satisfied and the opinion of Kerber, Eck & Braeckel, LLP is included in this report.

The District is also required to undergo an annual single audit in conformity with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance). Information related to this single audit, including the schedule of expenditures of federal awards, and independent auditors' reports on the internal control over financial reporting and compliance with applicable laws and regulations is included in a separate single audit report and is available at the School District's Administrative Offices for inspection.

Acknowledgments

It is our desire that this report contain the necessary information and data that will provide a better understanding of the operations of the District to the District's Board of Education, outside investors and interested local constituents. It is further hoped that this report has been produced in a manner that all readers will obtain a clear and concise picture of the District's financial condition to enhance our accountability to the public.

The preparation of the Comprehensive Annual Financial Report on a timely basis could not have been achieved without the efficiency and dedication of the District's Finance Department. Each member of the Finance Department has our sincerest appreciation for their efforts that contributed to the quality of this report. All contributed significantly toward this project and should be very proud of the final product.

We would also like to express our appreciation to the Board of Education for their interest and support in planning and conducting the financial operations of the District in a responsible and progressive manner.

Respectively submitted,

Independent Auditors' Report

Board of Education
Parkway C-2 School District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Parkway C-2 School District as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Parkway C-2 School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Parkway C-2 School District as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Parkway C-2 School District's basic financial statements. The introductory section, supplementary information and the statistical section are presented for purposes of additional analysis and are not a required part of the financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards,* we have also issued our report dated November 6, 2019 on our consideration of Parkway C-2 School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Parkway C-2 School District's internal control over financial reporting and compliance.

Kerber, Eck & Braeckel LLP

St. Louis, Missouri
November 6, 2019

The Management's Discussion and Analysis (MD&A) of the Parkway C-2 School District's (District) financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2019. The intent of this MD&A is to look at the District's financial performance. Readers should also review the Transmittal Letter, financial statements and the accompanying notes to the financial statements to enhance their understanding of the District's financial performance.

This reporting model was adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* issued June 1999, and implemented by the District in 2002. It is intended to better communicate the past and current financial position of the District.

FINANCIAL HIGHLIGHTS

Key financial highlights for the Fiscal Year 2018-2019 include the following:

- Net position increased by $9,972,020 for the year ended June 30, 2019. The net increase was comprised of the following elements:

	Increase (Decrease)
Net investment in capital assets	$ 9,199,396
Restricted for:	
Debt service	(840,558)
Certificated employees' compensation and benefits	659,057
Unrestricted	954,125
Net increase	$ 9,972,020

"Unrestricted net position" increased $954,125 mostly due to operating revenues exceeding operating expenses by $1,936,733 and the proprietary fund increasing by $4,443,059. Those changes were partially offset by an increase in pension expense of $4,455,889 and an increase in other post-employment benefits (OPEB) expense of $1,374,539. Other changes in compensated absences, early retirement payable and postemployment benefits also led to the net change in unrestricted net position.

The amount, "Net investment in capital assets" increased mostly as a result of an increase in assets and a decrease in debt related to capital assets. Capital assets, net of accumulated depreciation increased $5,702,599 while long-term debt related to capital assets less unspent bond funds, increased $38,815,000, unspent bond funds increased by $38,656,339, and small changes in the capital lease obligations and deferred charges on refunding led to a net increase in net investment in capital assets of $9,199,396.

FINANCIAL HIGHLIGHTS (continued)

"Net position restricted for debt service" decreased $840,558 primarily as a result of debt payments exceeding dedicated debt revenue by $558,766. This decrease is part of the long term debt payment plan for the District.

- Total assets and deferred outflows increased by $49,728,629 attributed to the following elements:

	Increase (Decrease)
Cash and investments - restricted and unrestricted	$ 47,640,196
Receivables	1,337,020
Prepaid expenses and inventory items	(963,463)
Capital assets, net of depreciation	5,702,598
Deferred charge on refunding	(907,207)
Deferred OPEB outflows	(1,024,540)
Deferred pension contributions	(2,055,975)
Net decrease	$ 49,728,629

The increase in cash and investments is a result of a few different elements. The biggest contributor to the increase was $59.9 million in general obligation debt issued during the year for capital projects. Approximately $25 million was spent from the capital project fund for bond projects in the current year. That spending was partially offset by a property tax issued for capital projects, as a result, cash at year-end in the capital project fund increased $43.3 million. Cash from the proprietary fund used to account for the District's self-funded medical plan increased $4.5 million. The remainder of the increase is mostly from the operating fund cash and less than $100,000 from the debt service fund.

There was a net increase in capital assets of $5,702,599. This is primarily made up of current year additions of $23,189,857 mainly due to the capital projects activity noted above less $15,974,216 in depreciation. There was an increase in receivables of $1,337,020 this is primarily due to early collection of grant funds in fiscal year 2018 compared to fiscal year 2019.

FINANCIAL HIGHLIGHTS (continued)

- Total liabilities and deferred inflows of resources decreased by $39,756,609 due to the following items:

	Increase (Decrease)
Accounts payable, salaries and other payables	$ (3,526,312)
Claims payable	(337,584)
Unearned revenue	81,022
Interest payable	281,792
Net pension liability	6,043,658
Other postemployment obligation	(2,092,595)
Liabilities due within one year	25,069,101
Liabilities due in more than one year	15,438,677
Pension deferrals	(3,643,744)
OPEB deferrals	2,442,594
Net decrease	$ 39,756,609

The overall increase in liabilities and deferred outflows is primarily a result of the general bond obligation debt issued in 2019. Liabilities due within one year increased due to a $25 million crossover bond refunding payment due next year. Net pension liabilities increase primarily as a result in a change of assumptions. Deferred outflows related to other postemployment obligations increased primarily as a result of changes in assumptions. Deferred outflows related to pension deferrals decreased primarily as a result of changes in assumptions. The changes in assumptions are detailed in Note G and Note H in the notes to the financial statements.

Other financial highlights are as follows:

- The largest source of revenue for the District continues to be locally assessed property taxes. In fiscal year 2019, the assessed valuation decreased $20,304,000 (0.4%) to $4,684,978,070 from the prior year. The collection rate, on a full accrual basis of accounting, decreased to 5.6% from 96.24% in the prior year. The collection rate is lower than our historic collection of around 97.0%. The collection rate remains low due to the settlement of protested taxes. Total property tax revenue received amounted to $198,898,176.

- Other local Ad Valorem tax revenues, such as county stock insurance, M&M surtax, financial institution taxes and locally assessed railroad and utility taxes are collected and distributed by the St. Louis County Department of Revenue. These taxes accounted for $16,235,972 in general revenues. This was an increase of $1,712,569 from the prior year. The increase was primarily a result of an increase in financial institution taxes.

FINANCIAL HIGHLIGHTS (concluded)

- State aid is generated from the State of Missouri's School Foundation Formula and is distributed based on a modified per pupil basis. The District is considered a hold harmless district which means that local proceeds mainly support the District's operations. Hold harmless districts receive a minimum per pupil allocation from the State of Missouri. The per weighted average daily attendance rate for fiscal year 2019 was $562.83. Actual formula funding received was $8,847,452 or $261,364 less than prior year. The decrease is primarily a result of a prior year adjustment reconciling estimated average daily attendance (ADA) used for the 2018 fiscal year payments to actual ADA for the year.

- Total interest income generated in fiscal year 2019 was $2,586,215 or $756,101 higher than prior year. Interest income was higher than the previous year primarily due to a higher interest rate on our depository accounts and higher cash balances due to the bond issue and fund balance growth.

- Charges for services are considered program revenue. The largest revenue source of charges for services is the tuition reimbursement for students living in the City of St. Louis and attending the District. The District received $7,635,466 in tuition revenue from this source, which is a decrease of $255,466 from the prior year. This revenue source is projected to continue to decrease due to the program reducing new entrants. The child nutrition program also was a large contributor to this revenue category. Fees charged for the nutrition program accounted for $4,016,924 in revenue, a decrease of $192,090 from the prior year. Other large sources of program revenues include student activity receipts of $3,720,575. The total increase in charges for services revenue was $1,915,978 from the prior year. The increase is primarily a result of classifying transportation reimbursements from other school districts as charges for services. In prior years, the payments were considered operating grants and contributions.

- Grants and contributions account for $8,445,042 in program revenues. The four largest sources of revenue within this category are the adult education and literacy program, $1,612,474; federally funded child nutrition program, $2,146,245; state reimbursed transportation aid, $1,230,079; the federally funded Title programs, $1,773,165. These four sources generated $6,761,963 in program revenue. Total grants and contributions are $3,369,124 lower than the prior year. The decrease is mostly a result of the classification change for transportation reimbursements and lower federal Title grant awards.

COMPREHENSIVE ANNUAL FINANCIAL REPORT (CAFR)

The District uses the Comprehensive Annual Financial Report (CAFR) format to report financial information. This document consists of a series of financial statements and associated notes to those statements. These statements are organized so the reader can understand the District's financial standing. The "Government-wide Financial Statements" Section, consisting of the Statement of Net Position and the Statement of Activities provide highly consolidated financial information and render a government-wide perspective of the District's financial position. The "Fund Financial Statements" Section that follows provides increasingly more detailed information on specific financial activities.

THE DISTRICT AS A WHOLE

The Statement of Net Position and Statement of Activities

The Statement of Net Position and the Statement of Activities present an aggregate view of the District's financial standing. It also provides a more in depth view of the District's current financial standing than would normally be seen in the Governmental Fund Type statements. These statements include all assets and liabilities using the full accrual basis of accounting. Accrual basis of accounting factors when the funds are used regardless of when the District receives funds or when the District pays for services.

These two statements report the District's net position and changes in that net position. By showing the change in net position, the readers can determine whether the financial condition of the District improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, student enrollment, facility conditions and required educational programs for which little or no funding is provided.

Fund Financial Statements

The District's major funds financial statements provide more in depth information about the District's financial position and results of operations. The District's major funds are the General Fund, Special Revenue Fund, Capital Projects Fund and the Debt Service Fund. These fund statements report governmental activities on a current or short-term basis.

THE DISTRICT AS A WHOLE (continued)

Fund Financial Statements(continued)

Most of the District's activities are reported in governmental funds format. This format focuses on how money flows in and out of these funds and shows the reader the remaining balances left at end of the fiscal year. These funds are reported using the modified accrual basis of accounting. The statements measure cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a short-term view of the District's general governmental operations and the basic services the District provides. Governmental fund information helps the reader determine the changes in financial resources in order to understand what can be spent in the near future. The relationship between governmental activities (as reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds

Proprietary funds use the same basis of accounting as business-type activities because the District attempts to recover costs through charges to the user. An example of a proprietary fund would be the Internal Service Fund (Self-Funded Health Insurance Plans).

Governmental Activities

As reported in the Statement of Activities on page 19, the cost of the District's governmental activities for the year ended June 30, 2019 was $232,655,544. The Statement of Activities shows the cost of program services, the charges for services and the operating grants and contributions offsetting some of these services. Grants and contributions totaled $8,445,042 and helped pay for certain programs. Charges for services include the following activities; tuition reimbursement, activity fees, fees for school lunches and facility use charges, contributed $21,819,145 towards these programs. The remaining amount was financed primarily by the taxpayers of the District through ad valorem, and property tax revenue totaling $231,193,897. Investment earnings contributed $2,586,215. State aid and unrestricted grants and contributions accounted for $8,847,452. The "net cost" statement, on the following page, determines the remaining cost of the various categories and informs the reader how much each program is funded by proceeds other than charges for services and operating grants and contributions.

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

District Funds

Total sources of revenue for all governmental funds were $272,891,751 while District expenditures were $285,457,114. As the District completed its fiscal year ended June 30, 2019, the governmental fund balance was $150,314,072 as compared to $102,960,505 on June 30, 2018. The increase was mostly as a result of $59,876,057 general obligation bonds issued in fiscal year 2019.

The General Fund actual revenues were higher than budget by $410,436 or 0.47%. Total actual expenditures for the General Fund were below the revised budget estimates by $1,879,664 or 2.17%. The fund balance of $44,296,815 is $1,277,676 higher than the prior year. The increase is due to the Districts plan to grow operating fund balances.

The Special Revenue Fund actual revenues were over the revised budget by $204,651. Total actual expenditures for the Special Revenue Fund were under revised projections by $471,394. The fund balance of $4,132,404 is $659,057 higher than the prior year. The District combines the General Fund and Special Revenue Fund balance to measure operating fund balances. This is a measure used by the State of Missouri as well. In total the two funds balances as a percent of expenditures grew to 19.82%, an increase of .64%. The District policy calls for growth in operating funds of at least .75% over three years.

The Debt Service Fund actual revenues and other sources of $23,603,601 and expenditures of $24,162,367 resulted in a decrease in the fund balance of $558,766. The District's long-term plans include general obligation bond debt issuance in the future, which will continue to spend down some of the fund balance.

The Capital Projects Fund actual revenues and other financing sources were $70,929,606 while expenditures were $24,954,006, increasing the fund balance by $45,975,600. The increase is a result of a general obligation bond issue for capital projects.

BUDGETING HIGHLIGHTS

The District's budget is prepared according to the Public School Laws of Missouri. During the course of the fiscal year, the School Board has the opportunity to approve budget adjustments on two separate occasions, once in the fall and again in the spring. Missouri Revised Statute 67.030 permits budget amendments to the expenditure budget as long as the changes do not exceed estimated revenues to be received during the year plus the unencumbered balance at the beginning of the fiscal year. The original budget for the School District was adopted June 18, 2018 with amendments being approved on November 14, 2018 and May 8, 2019.

BUDGETING HIGHLIGHTS – (concluded)

Statements showing the District's original and final budget compared with the actual operating results of the District are provided in this Comprehensive Annual Financial Report (CAFR) on pages 62, 63, 67, and 68. The School District's year-end results were slightly better than had been projected, as conservative budgetary practices are customary.

During the fall of each school year, budget amendments are presented to the Board of Education. The main objective of these adjustments is to refine the initial budget based on newly acquired information from the State of Missouri's Department of Elementary and Secondary Education for purposes of revenue projections along with local tax revenues based on projections following the setting of the tax rate. On the expenditure side, adjustments are made to the initial salary and benefit projections to reflect actual salary and staffing levels. In addition, school and program budgets are adjusted to include certain budget surpluses left unspent from the prior year. These amounts are not known at the time the initial budget is developed but have the Board of Education's approval to add them at a later date. Throughout the year, $22,132,437 was added to the budgets within the General, Special Revenue, and Capital Projects Funds. Of this amount, $18,557,755 for increased capital bond project spending as a result of the bond issue, $2,105,050 related to payments for the new general obligation bond issue and $1,469,632 in funds carried forward from the previous year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

On June 30, 2019, the District had $519,786,443 invested in land, buildings, furniture, equipment, vehicles, buses and construction projects in process. Of this amount, $266,784,421 has been taken in depreciation. The District currently has a net book value of $253,002,022 or 48.67% of the all capital asset's original cost. Increases during the year represent additions to those categories, while decreases represent retirements of assets during the year and depreciation of assets for the year.

During the current year, additions of $23,189,857 of capital assets were capitalized while $7,083,085 were deleted or retired. Depreciation for the year ended June 30, 2019 was $15,974,216. Accumulated depreciation on the retired assets was $5,570,043.

Total	$ 519,786,443	$ 503,679,671

Debt Administration

On June 30, 2019, the District had $245,760,000 in outstanding general obligation bonds. These bonds were originally issued for the purpose of capital improvements, building additions, and technology system advancements.

Note: Other long-term obligations include accrued compensated absences, obligations under capital leases, other postemployment benefit obligations and early retirement incentives. More detailed information on capital assets and debt administration can be found in notes D and F of the notes to the basic financial statements beginning on pages 42 and 43, respectively.

Series 2010	29,000,000	30,000,000
Total	$ 245,760,000	$ 206,945,000

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The operating budget (which excludes debt service and bond issue) presented to the Board of Education for approval for fiscal year 2019-2020 includes operating revenues of $244,451,374, operating expenditures of $240,732,494 and a transfer to the capital projects fund of $2,570,000. The result is an anticipated operating fund balance gain for fiscal year 2019-2020 of $1,148,880.

As part of the normal budgeting process, long-range projections are developed and continually updated. This process allows the District to determine how much of the available resources can be used for on-going projects, such as new programs or initiatives, versus one-time projects, such as facility repairs.

In addition to balancing the revenue and expenditure budgets, District policy sets two separate and distinct beginning of the fiscal year minimum cash requirements. The first is an operating reserve equal to 13.5% of the original combined operating expenditure budgets. Due to the cyclical nature of District revenues and expenditures, this reserve is designed to cover cash flow needs during the period of October thru December, just prior to the collection of the property tax revenues in late December and January. This reduces the need to do short-term borrowing to cover cash requirements.

The second of the minimum cash requirement reserves is for contingency planning. This reserve is equal to 3.8% of the combined operating expenditure budgets. Due to the age of the buildings within the district, the potential for emergency situations will continue to persist. The District fund balance policy also requires growth in the operating fund balance of .75% every three year period. This requirement is planned growth in the fund balance in order to eliminate the need for short-term borrowing in the future. In addition to emergency funding for facilities, there is also a need to continuously update our bus fleet. The District has been making transfer to the capital projects fund for these purchases as well levying a property tax in the capital projects fund.

There are a few revenue sources that face uncertainty. Those sources include state transportation funds which have been cut over the last few years. These cuts have led to the District using more local funds for transportation. In addition to transportation, the financial institution tax may decrease significantly. That tax will decrease by an unknown amount as ScottTrade left the District due to its purchase by TD Ameritrade. We are projecting a gradual decrease in the revenue received from the Voluntary Student Transfer Program as we are projecting a decrease in enrollment in the program. The ongoing taxpayer protests of their assessed valuation and the resulting reduction of revenues is anticipated to continue. The mechanism that we can use to partially recover these lost revenues is the recoupment process with using our tax rate levies and the calculation process provided by the Missouri State Auditor's Office. Additionally our Title I revenues decreased by almost $500,000 for the 2019 fiscal year and remained at the lower level for the 2020 fiscal year. This decrease in Title I funds is due to the poverty level in the District shrinking.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET – (concluded)

The District's largest expense is salaries and that is followed by benefits. Salary and benefits account for over 85% of the District operating expenditures. Those expenses are directly tied to enrollment which is gradually increasing. Growth in revenue is currently projected to keep up with the growth in expenditures. The District is not increasing the District paid portion of health and dental insurance in the 2020 fiscal year. The increase was not needed due to the positive performance of the self-funded insurance plan. Not increasing the contribution will save the District over $500,000 in fiscal year 2020.

This report is designed to provide our citizens, taxpayers, investors and creditors with a full and complete disclosure of the District's finances and to show the District's accountability for the money it receives. RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET WITH THE STATEMENT OF NET POSITION
June 30, 2019

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balance - governmental funds		**$ 150,314,072**
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. The cost of the assets is $519,786,443 and the accumulated depreciation is $266,784,421		253,002,022
To recognize interest accrued on general obligation bonds and obligations under capital leases		(2,860,637)
An internal service fund is used by management to charge the costs of insurance to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position		14,301,375
Certain deferred outflows and inflows represent a consumption or acquisition of net position in a future period and, therefore, are not reported in the governmental funds.		
Deferred pension outflows		69,381,218
Deferred OPEB related outflows		8,411,474
Deferred pension inflows		(10,540,200)
Deferred OPEB related inflows		(2,442,594)
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds as follows:		
General obligation bonds, net	(257,750,317)	
Share of state net pension obligation	(211,551,174)	
Compensated absences	(1,135,585)	
Early retirement payable	(205,016)	
OPEB obligation	(38,925,589)	
Capital lease obligation	(1,385,524)	
Total		(510,953,205)
Total net position - governmental activities		**$ (31,386,475)**

The accompanying notes are an integral part of this statement.

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES WITH THE STATEMENT OF ACTIVITIES
Year ended June 30, 2019

Net change in fund balances - total governmental funds		**$ 47,353,567**
Capital outlays are reported as expenditures in the governmental funds. However, in the Statement of Activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital asset purchases	23,189,857	
Depreciation expense	(15,974,216)	
		7,215,641
The governmental funds report debt (e.g. bonds) proceeds as an other financing source, while repayment of debt principal is reported as an expenditure. Also, governmental funds report the effect of premiums when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. The net effect of these differences in the treatment of debt and related items is as follows:		
Proceeds from bond issue	(55,000,000)	
Repayment of bond principal	16,185,000	
Repayment of capital lease obligation	425,136	
Bond issuance premium	(4,876,057)	
Amortization on bond premium	1,694,325	
Total		(41,571,596)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:		
Decrease in compensated absences		366,666
Decrease in early retirement		697,152
Net increase in accrued interest		(281,792)
Pension expense		(4,455,889)
Deferred charge on refunding		(907,207)
OPEB expense		(1,374,539)
The internal service fund used by management to charge the costs of insurance to individual funds is not reported in the Statement of Activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities.		4,443,059
In the Statement of Activities, the loss or gain on the sale or disposal of capital assets is recognized. The fund financial statements recognize only the proceeds from these assets.		
Loss on disposal of capital assets		(1,513,042)
Change in net position of governmental activities		**$ 9,972,020**

The accompanying notes are an integral part of this statement.

Change in unearned revenue	153,636
Net cash provided by operating activities	**$ 4,320,507**

The accompanying notes are an integral part of this statement.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Parkway C-2 School District (the "District") is a political subdivision of the State of Missouri and operates under the regulations pursuant to Section 162.092 RSMo of the Public School Laws of Missouri, which designates a Board of Education to act as the governing authority. The District provides educational services to primarily prekindergarten through high school residents.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

1. Principles Determining the Scope of Reporting Entity

Generally accepted accounting principles require that the financial reporting entity is to include (1) the primary government, (2) organizations for which the primary government is financially accountable and, (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The criteria provided in the applicable GASB statements have been considered and there are no other agencies or entities, which should be presented with the District.

2. Fund Accounting

The accounts of the District are organized on the basis of legally established funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. District resources are allocated to, and accounted for, in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The following fund types are used by the District:

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (continued)

2. Fund Accounting (continued)

Governmental Funds

Governmental funds are those through which most functions of the District are financed. The District's expendable financial resources (except those accounted for in Proprietary Funds) are accounted for through Governmental Funds. The measurement focus is based upon determination of changes in the financial position rather than upon net income determination. Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's governmental funds, each of which the District considers to be a major fund:

General (Incidental) Fund

This fund is the general operating fund of the District and accounts for expenditures for noncertified employees, pupil transportation costs, operation of plant, fringe benefits, student body activities, community services, the food service program, and any expenditure not required or permitted to be accounted for in other funds.

Special Revenue (Teachers') Fund

The Special Revenue (Teachers') Fund is a special revenue fund which accounts for expenditures for certified employees involved in administration and instruction, and includes revenues restricted, committed or assigned for the payment of teachers' salaries and certain benefits.

Debt Service Fund

This fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for the periodic payment of principal, interest and fiscal charges on certain long-term debt.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (continued)

2. Fund Accounting (concluded)

Capital Projects Fund

This fund is used to account for and report financial resources that are restricted, committed or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities or other capital assets.

Proprietary Funds

The Proprietary Fund is used to account for the District's ongoing activities which are similar to those often found in the private sector. The measurement focus is upon determination of net income. The District's Proprietary Fund is:

Internal Service Fund

This fund accounts for the proceeds from contributions for the payment of claims and the liabilities associated with the District's self-insurance activities (primarily medical and dental benefits). Expenses include claims paid, direct insurance payments and administrative fees. A liability for estimated claims incurred but not reported is recorded in this fund.

3. Fund Balances – Governmental Funds

In the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

Committed – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to limitations imposed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only through ordinances approved by the Board. The District does not have any committed fund balances.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (continued)

3. Fund Balances – Governmental Funds (concluded)

Assigned – includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District's adopted policy, amounts may be assigned by the Chief Financial Officer.

Unassigned – includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed or assigned to those purposes, a negative unassigned fund balance may be reported. The District's policy requires a minimum unassigned fund balance of 17.3% of total operating expenditures in order to cover unexpected expenditures and revenue shortfalls.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board has provided otherwise in its commitment or assignment actions.

The details of the fund balances are included in the Balance Sheet – Governmental Funds.

4. Basis of Presentation

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities present financial information about the District as a whole. These statements include the financial activities of the primary government. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (continued)

4. Basis of Presentation (concluded)

Government-Wide Financial Statements (concluded)

The Statement of Net Position presents the financial condition of the governmental activities of the District at year-end. The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Amounts reported as *program revenues* include (a) charges paid by the students for tuition, fees, goods and services offered by the program and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as *program revenues* are presented as general revenues and include all property taxes. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

The fund financial statements provide detailed information about the District's funds. The emphasis of fund financial statements is on *major* governmental funds. Each fund is displayed in a separate column. The internal service fund total is presented in a single column on the face of the proprietary fund statement.

The accounting and reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are the balance sheet, which generally include only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (continued)

5. Basis of Accounting

Basis of accounting determines when transactions are reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting at the fund level. Proprietary funds also use the accrual basis of accounting at both reporting levels.

Revenues – Exchange and Non-Exchange Transactions – Revenues resulting from exchange transactions, in which each party receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of the fiscal year-end.

Nonexchange transactions, in which the District receives value without directly giving value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenues from nonexchange transactions must also be available before they can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes, sales tax, interest, tuition, grants, student fees and rentals.

Unearned Revenue – unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received, (i.e., cash advances) before eligibility requirements are met are recorded as unearned revenues.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (continued)

5. Basis of Accounting (concluded)

***Expenses/Expenditures* –** On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds at the fund reporting level.

6. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1 and are payable by December 31. The County collects the property tax and remits it to the District. An allowance for uncollectible taxes has been provided for delinquent taxes.

At the fund reporting level, property tax revenues are recognized when they become measurable and available. Available includes those property tax receivables expected to be collected within sixty (60) days after year end. Revenue recognition of delinquent property taxes not collected within sixty (60) days of fiscal year end is deferred.

The District also receives sales tax collected by the State and remitted based on prior year weighted average daily attendance. The District is required to reduce its property tax levy by one-half the amount of sales tax estimated to be received in the subsequent calendar year. The voters in the District approved a waiver of this tax rollback.

The assessed valuations of the tangible taxable property for the calendar years 2019 and 2018 for purposes of local taxation were $4,684,978,070 and $4,705,282,070, respectively.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (continued)

6. Property Taxes (concluded)

The tax levy per $100 of assessed valuation of tangible taxable property for the calendar years 2018 and 2017 for purposes of local taxation were:

	December 31, 2019	December 31, 2018
General Fund	$ 1.3116	$ 1.3003
Special Revenue Fund	2.4359	2.4146
Debt Service Fund	0.4900	0.4900
Capital Projects Fund	0.1497	0.0500
Total	$ 4.3872	$ 4.2549

The receipts of current property taxes during the fiscal year ended June 30, 2019, aggregated approximately 95.6% of the current assessment computed on the basis of the levy as shown above.

7. Pooled Cash and Temporary Investments

Cash resources are combined to form a pool of cash and temporary investments which is managed by the District Treasurer, except resources from the Debt Service Fund, as state law requires these deposits to be separately maintained. The reported value of the pool is the same as the fair value of the pool shares.

The District may invest in bonds of the State of Missouri, of the United States, or any wholly-owned corporation of the United States; or in other short-term obligations of the United States.

Investments in external investment pools are stated at amortized cost, which approximates fair value.

Interest income earned is allocated to contributing funds based on each funds' proportionate share of funds invested.

For purposes of the statement of cash flows, the District's internal service fund considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (continued)

8. Restricted Cash and Investments

Restricted cash and investments represent amounts whose use is limited by legal requirements and consist of unexpended bond proceeds and amounts escrowed for future general obligation bond principal and interest payments.

9. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2019, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

10. Inventory

Inventories are stated at cost, on a first-in, first-out (FIFO) basis, and are expensed when used.

11. Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are recorded at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values as of the date received. The District maintains a capitalization threshold of one thousand dollars for each individual asset for inventory control purposes and five thousand dollars for financial reporting purposes.

The cost of normal maintenance and repairs that do not add value to the asset or materially extend the asset's life are not capitalized.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (continued)

11. Capital Assets (concluded)

Major outlays for capital assets and improvements are capitalized as projects are constructed and placed in service. Improvements are depreciated over the remaining useful lives of the related capital assets. Except for land and construction in progress, all reported capital assets are depreciated. Depreciation is calculated using the straight-line method over the following useful lives:

Land Improvements	20 years
Buildings and improvements	20 - 50 years
Vehicles and equipment	7 - 20 years

12. Deferred Outflows of Resources

The District reports decreases in net position that relate to future periods as deferred outflows of resources in a separate section of its government-wide and proprietary funds statements of net position. The District reported two deferred outflows of resources in this year's financial statements. The two are deferred outflows of resources for contributions made to the District's defined benefit pension plans and the OPEB plan between the measurement date of the net liabilities from those plans and the end of the District's fiscal year. Additionally, the net difference between projected and actual earnings and changes in assumptions in the plans are required to be reported as deferred outflows of resources. No deferred outflows of resources affect the governmental funds financial statements in the current year.

13. Compensated Absences

It is the District’s policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for this amount is reported in governmental funds only after they become payable, for example, as a result of employee resignations and retirements.

14. Accrued Liabilities, Early Retirement, and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

14. Accrued Liabilities, Early Retirement, and Long-Term Obligations (concluded)

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, special termination benefits, claims and judgments, and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been made with current available financial resources. Bonds, capital leases and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

Individuals who retire with thirty years in the Missouri Public School Retirement System are entitled to a fixed retirement bonus if they provide certain nominal services over the first four to five years of their retirement. The liability for those benefits in the government-wide financial statements is recorded at the time of retirement.

15. Deferred Inflows of Resources

The District's statements of net position and its governmental fund balance sheet report a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net position that applies to a future period(s). Deferred inflows of resources are reported in the District's statement of net position for actual pension plan investment earnings in excess of the expected amounts included in determining pension expense and changes in assumptions for the OPEB plan. This deferred inflow of resources is attributed to pension and OPEB expense over multiple years, including the current year. In its governmental funds, the only deferred inflow of resources is for revenues that are not considered available. The District will not recognize the related revenues until they are available (collected not later than 60 days after the end of the District's fiscal year) under the modified accrual basis of accounting.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

16. Net Position

Net position is displayed in three components. Net investment in capital assets consist of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowings used for the acquisition, construction or improvement of those assets, net of any unspent bond proceeds, plus deferred amounts on refundings resulting from advance refundings. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by regulators, grantors or laws or regulations of other governments. The remaining balance of net position is reported as unrestricted. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first.

17. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are charges for services for self-insurance programs. Operating expenses are necessary costs incurred to provide the goods and services that are the primary activity of the fund. All revenues and expenses not meeting this definition are recorded as nonoperating revenues and expenses.

18. Interfund Activity

Interfund transfers are reported as other financing sources (uses) in governmental funds. The District transferred $2,500,000 to the Capital Projects Fund from the General Fund during year ended June 30, 2019. The purpose of the transfer is to build the capital projects fund balance in order to fund future capital needs such as new buses.

19. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from these estimates.

NOTE B – CASH AND INVESTMENTS

The District maintains a cash and temporary investment pool that is available for use by all funds except the Debt Service Fund (State law requires that all deposits of the Debt Service Fund be kept separate and apart from all other funds of the District). Each fund's portion of this pool is displayed on the balance sheet as "cash and investments" under each fund's caption.

NOTE B – CASH AND INVESTMENTS (continued)

Deposits

Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At June 30, 2019, the carrying amount of the deposits under District control was $117,686,029 and the bank balance was $120,634,591. All of the District's deposits were covered by federal depository insurance or collateral held by the District or by its agent in the name of the District.

Investments

The District may purchase any investments allowed by the State Treasurer. These include (1) obligations of the United States Government or any agency or instrumentality thereof maturing and becoming payable not more than three years from the date of purchase, or (2) repurchase agreements, maturing and becoming payable within 90 days secured by U.S. Treasury obligations or obligations of U.S. Government agencies or instrumentalities of any maturity, as provided by law. As of June 30, 2019, the District had the following investments and maturities.

Type	Fair Value	Investment Maturities	
		0 to 1 year	1 to 3 years
External investment pools -MOSIP	$ 8,011	$ 8,011	$ -
U.S. Government and agency securities	28,457,441	28,457,441	-
Commercial Paper	19,873,458	19,873,458	-
	$ 48,338,910	$ 48,338,910	$ -

Investments in external investment pools are stated at amortized cost, which approximates fair value. A separate financial report for the MOSIP external investment pool program can be obtained from PFM Asset Management LLC, 77 West Port Plaza Drive, Suite 220, St. Louis, Missouri 63146. The MOSIP program is exempt from regulatory oversight as it is a local Government Investment Pool.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The fair market value of U.S. Government and agency securities is valued using level 1 inputs and commercial paper is valued using Level 2 inputs.

NOTE B – CASH AND INVESTMENTS (continued)

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, one of the ways the District manages its exposure to interest rate risk is by purchasing a combination of short-term and long-term investments and by timing cash flows from maturities so a portion of the portfolio is maturing and coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investments in U.S. government agency securities were rated Aaa (long-term) or Aa2 by Moody's Investors Service. The District's investment in MOSIP is rated AAAm and the District's investments in Commercial Paper was rated A1 by Moody's Investors Service.

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond what is provided by law. Concentration of credit risk is required to be disclosed by the District for any single investment that represents 5% or more of the total investments (excluding investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds, external investment pools and other pooled investments). At June 30, 2019, the District has the following concentrations of credit risk required to be disclosed:

Issuer	Investment Type	Fair Value	Percentage
Banco Santander SA/NY	Commercial Paper	$ 4,968,250	10%
Natixis NY Branch	Commercial Paper	$ 4,968,782	10%
MUFG Bank Ltd/NY	Commercial Paper	$ 4,968,024	10%
Bennington Stark Cap Co	Commercial Paper	$ 4,968,403	10%

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District does not have a formal policy regarding the custody of its cash and investments. As of June 30, 2019, the District's investments were held by the investment's counterparty.

NOTE B – CASH AND INVESTMENTS (concluded)

Summary

The cash deposits and investments are summarized and presented in the financial statements as follows as of June 30, 2019:

Cash on hand	$ 4,180
Carrying amount of deposits	117,686,029
Investments	48,338,910
	$ 166,029,119
Cash and investments - governmental funds	$ 62,163,668
Restricted cash and investments - governmental funds	85,581,062
Cash - proprietary funds	18,284,389
Total reporting entity	$ 166,029,119

The District has funds invested in MOSIP. All funds in this program are invested in accordance with Section 165.061 RSMo. Each school district owns a pro rata share of each investment, which is held in the name of the Fund.

NOTE C – TAXES RECEIVABLE

The District had no property taxes receivable as of June 30, 2019.

NOTE D – CAPITAL ASSETS

The following is a summary of changes occurring in capital assets for the year ended June 30, 2019:

	Balance July 1, 2018	Transfers	Additions	Deletions	Balance June 30, 2019
Governmental activities					
Capital assets that are not depreciated					
Land	$ 3,457,837	$ -	$ -	$ -	$ 3,457,837
Construction in progress	50,522,193	(49,612,160)	21,614,075	1,394,891	21,129,217
Capital assets that are depreciated					
Land improvements	31,420,046	7,011	32,891	121,400	31,338,548
Buildings	164,857,542	-	-	-	164,857,542
Building improvements	218,750,105	49,605,149	-	175,122	268,180,132
Vehicles and equipment	34,671,948	-	1,542,891	5,391,672	30,823,167
Totals at estimated historical cost	503,679,671	-	23,189,857	7,083,085	519,786,443
Accumulated depreciation					
Land improvements	14,348,037	-	1,469,017	107,236	15,709,818
Buildings	115,068,402	-	1,456,363	-	116,524,765
Building improvements	105,422,864	-	10,494,911	113,673	115,804,102
Vehicles and equipment	21,540,945	-	2,553,925	5,349,134	18,745,736
Total accumulated depreciation	256,380,248	-	15,974,216	5,570,043	266,784,421
Governmental activities capital assets, net	$ 247,299,423	$ -	$ 7,215,641	$ 1,513,042	$ 253,002,022

Depreciation was charged to functions of the District at follows:

Instruction	$ 9,702,837
Student activities	230,208
Improvement of instruction	168,496
Executive administration	1,338
Building level administration	46,860
Business services	925,404
Operation of plant	3,835,664
Transportation	901,762
Food service	53,926
Community services	107,721
	$ 15,974,216

No interest was capitalized during 2019; interest incurred and charged to expenses totaled $8,050,206.

NOTE E – TAX ANITICIPATION NOTE

The District issues tax anticipation notes to provide funds for the use of operations due to timing of property tax collections. The District issued and redeemed $19,000,000 in a tax anticipation note during the year ended June 30, 2019.

NOTE F – CHANGES IN LONG-TERM LIABILITIES

The following is a summary of changes occurring in long-term liabilities for the year ended June 30, 2019:

	Balance July 1, 2018	Additions	Reductions	Balance June 30, 2019	Amounts due within one year
Governmental activities					
Bonds payable					
General obligation bonds	$ 206,945,000	$ 55,000,000	$ (16,185,000)	$ 245,760,000	$ 42,325,000
Deferred amounts for issuance premium	8,808,585	4,876,057	(1,694,325)	11,990,317	-
Total bonds payable, net	215,753,585	59,876,057	(17,879,325)	257,750,317	42,325,000
Obligations under capital leases	1,810,660	-	(425,136)	1,385,524	366,688
Compensated absences	1,502,251	2,236,298	(2,602,964)	1,135,585	1,135,585
Early retirement payable	902,168	90,993	(788,145)	205,016	142,001
Total governmental activity long-term liabilities	$ 219,968,664	$ 62,203,348	$ (21,695,570)	$ 260,476,442	$ 43,969,274

Payments on the general obligation bonds are made by the Debt Service Fund. The obligations under capital leases are paid by the General Fund or the Capital Projects Fund. The compensated absences and early retirement will be liquidated by the fund in which the employee's salary was charged.

NOTE F – CHANGES IN LONG-TERM LIABILITIES (continued)

Bonds Payable

The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities.

Bonds payable consist of the following at June 30, 2019:

Date Issued	Maturity Date	Rate of Interest	Original Issue Amount	Balance at June 30, 2019
11/10/10	3/1/2020	2.50% - 5.35%	$ 34,000,000	$ 29,000,000
9/21/11	3/1/2024	2.00% - 4.00%	27,120,000	14,420,000
3/14/12	3/1/2022	2.00% - 5.00%	25,220,000	14,965,000
9/6/12	3/1/2020	1.00% - 3.00%	6,250,000	690,000
3/4/15	3/1/2025	1.50% - 5.00%	27,080,000	21,080,000
3/25/15	3/1/2035	3.00% - 4.00%	50,000,000	50,000,000
10/12/16	3/1/2036	2.125% - 3.00%	44,000,000	44,000,000
10/11/17	3/1/2023	2.00% - 5.00%	27,405,000	16,605,000
4/9/19	3/1/2039	3.00% - 5.00%	55,000,000	55,000,000
			$ 296,075,000	$245,760,000

The annual requirements to amortize bonded debt outstanding as of June 30, 2019, are as follows:

Year ending June 30,	Principal	Interest	Total
2020	$ 42,325,000	$ 9,293,129	$ 51,618,129
2021	14,670,000	7,447,750	22,117,750
2022	13,800,000	6,742,775	20,542,775
2023	11,940,000	6,081,615	18,021,615
2024	9,655,000	5,579,775	15,234,775
2025-2029	30,080,000	21,931,776	52,011,776
2030-2034	61,150,000	15,835,858	76,985,858
2035-2039	62,140,000	5,558,583	67,698,583
	$ 245,760,000	$ 78,471,261	$ 324,231,261

NOTE F – CHANGES IN LONG-TERM LIABILITIES (continued)

Early Extinguishment and Advanced Refundings

In prior years, the District defeased certain general obligation bonds by placing the proceeds of the new bonds in irrevocable trusts to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for defeased bonds are not included in the District's financial statements. As of June 30, 2019, the total debt outstanding that is considered to be defeased is $35,810,000.

Cross Over Refunding

On October 11, 2017, the District issued general obligation refunding bonds in the amount of $27,405,000. The proceeds of the bond issue will be used to refund part of the District's Series 2010 Build America Bonds. The District will refund $28,000,000 on March 1, 2020.

Legal Debt Margin

Article VI, Section 26(b), Constitution of Missouri, limits the outstanding amount of authorized general obligation bonds of a District to fifteen (15%) percent of the assessed valuation of the District (including State assessed railroad and utility). The legal debt margin, computed excluding the assessed valuation of State assessed railroad and utilities, of the District at June 30, 2019, was:

Constitutional debt limit	$ 702,746,711
General obligation bonds payable	(245,760,000)
Amount available in Debt Service Fund	36,159,219
Legal debt margin	$ 493,145,930

NOTE F – CHANGES IN LONG-TERM LIABILITIES (concluded)

Capital Lease Payable

The District leases certain equipment under agreements classified as capital leases. The cost for such equipment as of June 30, 2019 was $4,213,952 and the accumulated depreciation was $2,366,035.

The following is a schedule of future minimum lease payments under the capital lease together with the present value of the net minimum lease payments as of June 30, 2019.

Year ending June 30,	
2020	$ 395,305
2021	328,981
2022	328,981
2023	284,419
2024	119,928
Total future minimum lease payments	1,457,614
Less amount representing interest	71,729
Present value of future minimum lease payments	$ 1,385,885

NOTE G – RETIREMENT PLAN

Public School and Education Employee Retirement Systems of Missouri

The District contributes to the Public School Retirement System of Missouri (PSRS), a cost-sharing multiple-employer defined benefit pension plan.

Plan Description

PSRS is a mandatory cost-sharing multiple employer retirement system for all full-time certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and all public community colleges. PSRS also includes certificated employees of PSRS, Missouri State Teachers' Association, Missouri State High School Activities Association, and certain employees of the state of Missouri who elected to remain covered by PSRS under legislation enacted in 1986, 1987 and 1989.

NOTE G – RETIREMENT PLAN (continued)

Plan Description (concluded)

The majority of PSRS members are exempt from Social Security contributions. In some instances, positions may be determined not to be exempt from Social Security contributions. Any PSRS member who is required to contribute to Social Security comes under the requirements of Section 169.070 (9) RSMo, known as the "2/3's statute." PSRS members required to contribute to Social Security are required to contribute two-thirds of the approved PSRS contribution rate and their employer is required to match the contribution. The members' benefits are further calculated at two-thirds the normal benefit amount.

The Public Education Employee Retirement System (PEERS) is a mandatory cost-sharing multiple employer retirement system for all public school district employees in Missouri (except the school districts of St. Louis and Kansas City), employees of the Missouri Association of school administrators, and community college employees (except the Community College of St. Louis). Employees of covered districts who work 20 or more hours per week on a regular basis and who are not contributing members of the Public School Retirement System of Missouri (PSRS) must contribute to PEERS. Employees of PSRS who do not hold Missouri educator certificates also contribute to PEERS. PEERS was established as a trust fund by an Act of the Missouri General Assembly effective October 13, 1965. Statutes governing the System are found in Sections 169.600 - 169.715 and Sections 169.560-169.595 RSMo. The statutes place responsibility for the operation of PEERS on the Board of Trustees of the Public School Retirement System of Missouri.

Benefits Provided

PSRS is a defined benefit plan providing retirement, disability, and death/survivor benefits. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of 5 years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 2.5% benefit factor. Beginning July 1, 2001, and ending July 1, 2014, a 2.55% benefit factor is used to calculate benefits for members who have 31 or more years of service. Actuarially age-reduced benefits are available for members with five to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

NOTE G – RETIREMENT PLAN (continued)

Benefits Provided (concluded)

PEERS is a defined benefit plan providing service retirement and disability benefits to its members. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of five years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 1.61% benefit factor. Members qualifying for "Rule of 80" or "30-and-out" are entitled to an additional temporary .8% benefit multiplier until reaching minimum Social Security age (currently age 62). Actuarially age-reduced retirement benefits are available with five years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

Summary Plan Descriptions detailing the provisions of the plans can be found on the Systems' website at www.psrs-peers.org.

Cost-of-Living Adjustments ("COLA")

If the June to June change in the Consumer Price Index for All Urban Consumers (CPI-U) is less than 2% for consecutive one-year periods, a cost-of-living increase of 2% will be granted when the cumulative increase is equal to or greater than 2%, at which point the cumulative increase in the CPI-U will be reset to zero. For the following year, the starting CPI-U will be based on the June value immediately preceding the January 1 at which the 2% cost-of-living increase is granted. If the June to June change in the CPI-U is greater than or equal to 2%, but less than 5%, a cost-of-living increase of 2% will be granted. If the June to June change in the CPI-U is greater than or equal to 5%, a cost-of-living increase of 5% will be granted. If the CPI decreases, no COLA is provided. For any PSRS member retiring on or after July 1, 2001, such adjustments commence on the second January after commencement of benefits and occur annually thereafter. For PEERS members, such adjustments commence on the fourth January after commencement of benefits and occur annually thereafter. The total of such increases may not exceed 80% of the original benefit for any member.

Contributions

PSRS members were required to contribute 14.5% of their annual covered salary during fiscal year 2017, 2018 and 2019. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 1% of pay.

NOTE G – RETIREMENT PLAN (continued)

PEERS members were required to contribute 6.86% of their annual covered salary during fiscal year 2017, 2018, and 2019. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 0.5% of pay.

The District's contributions to PSRS and PEERS were $18,403,716 and $2,706,540, respectively, for the year ended June 30, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District recorded a liability of $193,124,303 for its proportionate share of PSRS' net pension liability and $18,426,871 for its proportionate share of PEERS' net pension liability. In total, the District recorded net pension liabilities of $211,551,174. The net pension liability for the plans in total was measured as of June 30, 2018 and determined by an actuarial valuation as of that date. The District's proportionate share of the total net pension liability was based on the ratio of its actual contributions paid to PSRS and PEERS of $18,091,793 and $2,721,961, respectively, for the year ended June 30, 2018, relative to the actual contributions of $697,214,371 for PSRS and $114,141,743 for PEERS from all participating employers. At June 30, 2018, the District's proportionate share was 2.5949% for PSRS and 2.3847% for PEERS.

For the year ended June 30, 2019, the District recognized pension expense of $21,961,125 for PSRS and $3,605,022 for PEERS, its proportionate share of the total pension expense.

NOTE G – RETIREMENT PLAN (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

At June 30, 2019, the District reported deferred outflows of resources from the following sources related to PSRS and PEERS pension benefits:

	Deferred Outflows of Resources		
Balance of Deferred Outflows due to:	PSRS	PEERS	District Total
Differences between expected and actual experience	$ 10,059,986	$ 26,373	$ 10,086,359
Changes in assumptions	35,246,668	2,839,456	38,086,124
Net difference between projected and actual earnings on pension plan investments	(1,626,947)	(249,949)	(1,876,896)
Changes in proportion and differences between Employer contributions and proportionate share of contributions	1,973,262	2,113	1,975,375
Employer contributions subsequent to the measurement date	18,403,716	2,706,540	21,110,256
Total	$ 64,056,685	$ 5,324,533	$ 69,381,218

At June 30, 2019, the District reported deferred inflows of resources from the following sources related to PSRS and PEERS pension benefits:

	Deferred Inflows of Resources		
Balance of Deferred Inflows due to:	PSRS	PEERS	District Total
Differences between expected and actual experience	$ 9,110,890	$ 431,673	$ 9,542,563
Changes in proportion and differences between Employer contributions and proportionate share of contributions	671,140	326,497	997,637
Total	$ 9,782,030	$ 758,170	$ 10,540,200

NOTE G – RETIREMENT PLAN (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (concluded)

Deferred outflows of resources to PSRS and PEERS resulting from contributions subsequent to the measurement date of June 30, 2018 will be recognized as a reduction to the net pension liability in the year ended June 30, 2020.

Other amounts reported as collective deferred (inflows)/outflows of resources are to be recognized annually in pension expense as follows for the year ending June 30,:

	PSRS	PEERS	District Total
2020	$ 17,527,016	$ 1,980,344	$ 19,507,360
2021	10,646,658	969,742	11,616,400
2022	(2,163,804)	(873,251)	(3,037,055)
2023	6,119,041	(217,013)	5,902,028
2024	3,603,162	-	3,603,162
Thereafter	138,865	-	138,865
	$ 35,870,938	$ 1,859,822	$ 37,730,760

Actuarial Assumptions

Actuarial valuations of the Systems involve assumptions about the probability of occurrence of events far into the future in order to estimate the reported amounts. Examples include assumptions about future employment, salary increases, and mortality. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Board of Trustees adopts actuarial assumptions, each of which individually represents a reasonable long-term estimate of anticipated experience for the Systems, derived from experience studies conducted every fifth year and from Board policies concerning investments and COLAs. The most recent comprehensive experience studies were completed in June 2016. All economic and demographic assumptions were reviewed and updated, where appropriate, based on the results of the studies and effective with the June 30, 2016 valuation. For the June 30, 2017 valuations, the investment rate of return was reduced from 7.75% to 7.6% and the assumption for the annual cost-of-living adjustments was updated in accordance with the funding policies amended by the Board of Trustees at their November 2017 meeting. For the June 30, 2018 valuation, the investment rate of return assumption was further reduced from 7.60% to 7.50%. Significant actuarial assumption and methods, including changes from the prior year, are detailed below. For additional information please refer to the Systems' Comprehensive Annual Financial Report (CAFR). The next experience studies are scheduled for 2021.

NOTE G – RETIREMENT PLAN (continued)

Actuarial Assumptions (continued)

Significant actuarial assumptions and other inputs used to measure the total pension liability:

Measurement Date – June 30, 2018

Valuation Date – June 30, 2018

Expected Return on Investments – 7.50% net of investment expenses and including 2.25% inflation.

Inflation – 2.25%

Total Payroll Growth PSRS – 2.75% per annum consisting of 2.25% inflation, 0.25% real wage growth due to the inclusion of health care costs in pensionable earnings, and 0.25% of real wage growth due to productivity.

Total Payroll Growth PEERS – 3.25% per annum consisting of 2.25% inflation, 0.50% real wage growth due to the inclusion of health care costs in pensionable earnings, and 0.50% of real wage growth due to productivity.

Future Salary Increases PSRS – 3.00% - 9.50%, depending on service and including 2.25% inflation, 0.25% real wage growth due to the inclusion of health care costs in pension earnings, and .25% of real wage growth due to productivity.

Future Salary Increases PEERS – 4.00% - 11.00%, depending on service and including 2.25% inflation, 0.50% real wage growth due to the inclusion of health care costs in pension earnings, and 0.50% of real wage growth due to productivity

Cost-of-Living Increases PSRS & PEERS – The annual COLA assumed in the valuation increases from 1.25% to 1.65% over eight years, beginning January 1, 2020. The COLA reflected for January 1, 2019 is 2.00%, in accordance with the actual COLA approved by the Board. This COLA assumption reflects an assumption that general inflation will increase from 1.85% to a normative inflation assumption of 2.25% over eight years. It is also based on the current policy of the Board to grant a COLA on each January 1 as follows:

- If the June to June change in the CPI-U is less than 2% for consecutive one year periods, a cost-of-living increase of 2% will be granted when the cumulative increase is equal to or greater than 2%, at which point the cumulative increase in the CPI-U will be reset to zero. For the following year, the starting CPI-U will be based on the June value immediately preceding the January 1 at which the 2% cost-of-living increase is granted.

NOTE G – RETIREMENT PLAN (continued)

Actuarial Assumptions (continued)

- If the June to June change in the CPI-U is greater than or equal to 2%, but less than 5%, a cost-of-living increase of 2% will be granted.

- If the June to June change in the CPI-U is greater than or equal to 5%, a cost-of-living increase of 5% will be granted.

- If the CPI decreases, no COLA is provided.

The COLA applies to service retirements and beneficiary annuities. The COLA does not apply to the benefits for in-service death payable to spouses (where the spouse is over age 60), and does not apply to the spouse with children pre-retirement death benefit, the dependent children pre-retirement death benefit, or the dependent parent death benefit. The total lifetime COLA cannot exceed 80% of the original benefit. PSRS members receive a COLA on the second January after retirement, while PEERS members receive a COLA on the fourth January after retirement.

Morality Assumption –

Actives PSRS - RP 2006 White Collar Employee Mortality Table, multiplied by an adjustment factor of 0.75 at all ages for both males and females, with static projection using the 2014 SSA Improvement Scale to 2028.

Actives PEERS - RP 2006 Total Dataset Employee Mortality Table, multiplied by an adjustment factor of 0.75 at all ages for both males and females, with static projection using the 2014 SSA Improvement Scale to 2028.

Nondisabled Retirees, Beneficiaries and Survivors PSRS - RP 2006 White Collar Employee Mortality Table, with plan-specific experience adjustments and static projection to 2028 using the 2014 SSA Improvement Scale.

Nondisabled Retirees, Beneficiaries and Survivors PEERS - RP 2006 Total Dataset Employee Mortality Table, with plan-specific experience adjustments and static projection to 2028 using the 2014 SSA Improvement Scale.

Disabled Retirees - RP 2006 Disabled Retiree Mortality Table with static projection to 2028 using the 2014 SSA Improvement Scale.

Changes in Actuarial Assumptions and Methods PSRS and PEERS – The investment return assumption was lowered from 7.60% to 7.50% per year at the October 29, 2018 meeting.

NOTE G – RETIREMENT PLAN (continued)

Actuarial Assumptions (continued)

Fiduciary Net Positions: The Systems issue a publicly available financial report that can be obtained at www.psrs-peers.org.

Expected Rate of Return

The long-term expected rate of return on investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed rate of return. The long-term expected rate of return on the Systems' investments was determined using a building-block method in which best-estimate ranges of expected future real rates of returns (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Systems' target allocation as of June 30, 2018 are summarized below along with the long-term geometric return. Geometric return (also referred to as the time weighted return) is considered standard practice within the investment management industry. Geometric returns represent the compounded rate of growth of a portfolio. The method eliminated the effects created by cash flows.

Asset Class	Target Asset Allocation	Long-term Expected Real Return Arithmetic Basis	Weighted Long-Term Expected Real Return Arithmetic Basis
U.S. Public Equity	27.00%	5.16%	1.39%
Public Credit	7.00%	2.17%	0.15%
Hedged Assets	6.00%	4.42%	0.27%
Non-U.S. Public Equity	15.00%	6.01%	0.90%
U.S. Treasuries	16.00%	0.96%	0.15%
U.S. TIPS	4.00%	0.80%	0.03%
Private Credit	4.00%	5.60%	0.22%
Private Equity	12.00%	9.86%	1.18%
Private Real Estate	9.00%	3.56%	0.32%
Total	100.00%		4.61%
		Inflation	2.25%
		Long Term arithmetical nominal return	6.86%
		effect of covariance matrix	0.64%
		Long term expected geometric return	7.50%

NOTE G – RETIREMENT PLAN (concluded)

Actuarial Assumptions (continued)

Discount Rate

The long-term expected rate of return used to measure the total pension liability was 7.5% as of June 30, 2018, and is consistent with the long-term expected geometric return on plan investments. The actuarial assumed rate of return was 8.0% from 1980 through fiscal year 2016. The Board of Trustees adopted a new actuarial assumed rate of return of 7.75% effective with the June 30, 2016 valuation based on the actuarial experience studies and asset-liability study conducted during the 2016 fiscal year. As previously discussed, the Board of Trustees further reduced the assumed rate of return to 7.6% effective with the June 30, 2017 valuation, and to 7.5% effective with the June 30, 2018 valuation. The projection of cash flows used to determine the discount rate assumed that employer contributions would be made at the actuarially calculated rate computed in accordance with assumptions and methods stated in the funding policy adopted by the Board of Trustees, which requires payment of the normal cost and amortization of the unfunded actuarial accrued liability in level percent of employee payroll installments over 30 years utilizing a closed period, layered approach. Based on this assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Discount Rate Sensitivity

The sensitivity of the District's net pension liability to changes in the discount rate is presented below. The District's net pension liability calculated using the discount rate of 7.50% is presented as well as the net pension liability using a discount rate that is 1.0% lower (6.50%) or 1.0% higher (8.50%) than the current rate.

Discount Rate	1% Decrease 6.50%	Current Rate 7.50%	1% Increase 8.50%
Proportionate Share of the Net Position Liability			
PSRS	$ 346,189,748	$ 193,124,303	$ 65,910,952
PEERS	$ 34,699,890	$ 18,426,871	$ 4,778,754

NOTE H – OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Plan Description and Benefits Provided

In addition to providing the pension benefits described above, the District provides continuation of medical, dental and vision insurance coverage, including prescription drugs to employees who are eligible for normal or early retirement under PSRS or PEERS under a single employer plan. Retirees may cover spouses and eligible dependent children. Surviving spouses can continue coverage after retiree's death. The District does not have a trust for this plan, and the plan does not issue a standalone report. No assets are accumulated in a trust that meets all of the criteria in GASB Statement No. 75, paragraph 4.

Retirees who elect to participate must pay the premium in effect for the current plan year or any subsequent year at the premium rates in effect at that time. Since the retirees pay the premium for each year, the District's share of any premium cost is determined on the basis of a blended rate or implicit rate subsidy calculation. Administrators who are eligible for normal or early retirement receive a subsidy for the employee portion of their premium depending on years of service with the District. The administrative retirees with 10 to 15 years of service receive the subsidy for one year, those with 15-25 years receive the subsidy for two years and those with more than 25 years receive the subsidy for 3 years.

Employees covered by benefit terms at January 1, 2019:

Participants as of January 1, 2019

	Number	Average Age	Average Service
Actives	2,377	45.2	10.3
Inactive Plan Participants	680	68.4	
Total	3,057		

Contributions

The District currently pays for the implicit rate subsidy associated with these postemployment health care benefits on a pay-as-you-go basis. The implicit rate is the difference between the calculated claims cost and the premiums paid by retirees. The District determines contribution requirements and may be amended by the District. For fiscal year 2019, claims paid for retirees totaled $5,239,563. Retirees contributed $3,526,894 through premiums, the remaining $1,712,669 was paid by the District.

NOTE H – OTHER POSTEMPLOYMENT BENEFITS (OPEB) (continued)

Total OPEB Liability

The District's total OPEB liability of $38,925,589 was measured as of December 31, 2018, and the total liability used to calculate the total OPEB was determined by an actuarial valuation as of that date.

Actuarial Assumptions

Inflation – 2.50% long-term inflation, 1.00% real GDP growth and 1.00% medical technology

Discount Rate – 4.09% for determining June 30, 2019 disclosure and estimated fiscal 2020 expense; 3.16% for determining June 30, 2018 liability and fiscal 2019 expense.

Salary Increase Rate – 3.0%, based on actual and anticipated experience.

Healthcare cost trend rates – 7.50% for medical in 2019 decreasing to an ultimate rate of 4.50% for 2038 and beyond. Dental at 5.00%. Vision at 3.00%

Mortality rates – RP-2014 Combined Mortality Table backed off to 2006 and projected generationally with scale MP-2018.

Participation - It is assumed that 45% of employees who retire prior to age 65 will elect medical coverage upon retirement and 50% will elect dental and vision coverage.

Actuarial cost method – Entry age normal

NOTE H – OTHER POSTEMPLOYMENT BENEFITS (OPEB) (continued)

Changes in Total OPEB Liability

The components of the total OPEB liability of the District at June 30, 2019 are as follows:

	Total OPEB Liability
Balances at July 1, 2018	$ 41,018,184
Service cost	1,242,800
Interest	1,308,387
Employee contributions	3,526,894
Benefits paid	(5,239,563)
Changes in assumptions	(2,931,113)
Balances at June 30. 2019	$ 38,925,589

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower and 1 percentage point higher than the current discount rate.

	1% Decrease 3.09%	Current Rate 4.09%	1% Increase 5.09%
Total OPEB liability	$ 43,865,526	$ 38,925,589	$ 34,759,898

Sensitivity of the NET OPEB Liability to Changes in the Health Care Cost Trends

The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a healthcare trend rate that is 1 percentage point lower and 1 percentage point higher than the current healthcare trend rate.

	1% Decrease 6.50%	Current Rate 7.50%	1% Increase 8.50%
Total OPEB liability	$ 34,010,115	$ 38,925,589	$ 44,872,838

NOTE H – OTHER POSTEMPLOYMENT BENEFITS (OPEB) (concluded)

OPEB Expense and Deferred Outflows of Resources Related to OPEB

For the year ended June 30, 2019, the District recognized OPEB expense of $1,374,539. At June 30, 2019, the District reported deferred outflows of resources related to OPEB of $5,968,880 related to changes in assumptions.

Amounts reports as deferred outflows of resources, net of deferred inflows, related to OPEB will be recognized in OPEB expense as follows:

Year ending June 30	Net Outflows of Resources
2020	$ 536,021
2021	536,021
2022	536,021
2023	536,021
2024	536,022
Thereafter	3,288,774
Total	$ 5,968,880

NOTE I – RISK MANAGEMENT

District Health Insurance Plan – The District utilizes an internal service fund to account for the risks associated with the employees' health insurance plan. A premium is charged to each fund that accounts for employees' salaries based upon past trends in claims experience. Provisions are also made for unexpected and unusual claims.

Liabilities of the fund are recorded when it is probable that a loss has occurred and the amount of loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are calculated based upon recent claim settlement trends. Settlements have not exceeded coverage for each of the past three fiscal years.

NOTE I – RISK MANAGEMENT (concluded)

Changes in the balance of claims liabilities are as follows for the year ended June 30,:

	2019	2018
Unpaid claims, beginning of year	$ 2,331,849	$ 1,948,052
Incurred claims (including IBNRs)	29,166,635	30,629,731
Claim payments	(29,504,219)	(30,245,934)
Unpaid claims, end of year	$ 1,994,265	$ 2,331,849

The District purchases specific reinsurance with an attachment point of $325,000 annually, per employee, to limit its exposure to catastrophic claims. There have not been any significant reductions in insurance coverage from the prior year.

District's Other Risk – The District is exposed to various risks of loss related to theft, damage to and destruction of assets; errors and omissions; injuries to employees and natural disaster. To cover these risks, the District is a participant in the Missouri United School Insurance Council (the "Council") which is a Protected Self-Insurance Program of Missouri Public School Districts with 400 members. The District pays an assessment to the Council. Part of the assessment then goes to buy excess insurance contracts for the group as a whole. Should the contributions received by the Council not be sufficient, special assessments can be made to the member Districts.

NOTE J – COMMITMENTS AND CONTINGENCIES

Grants

The District received financial assistance from federal and state agencies in the form of grants. The disbursements of funds received under these programs generally require compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2019.

Litigation

The District is a party to legal proceedings. The District management is of the opinion that ultimate disposition of these claims will not have a material effect on the financial condition of the School District.

NOTE J – COMMITMENTS AND CONTINGENCIES (concluded)

Contracts

The District has entered into various contracts for building and grounds renovations and improvements which are included in the amount restricted for capital improvement in the fund financial statements.

Capital Commitments

The District's remaining commitment for uncompleted work under its construction contracts totaled approximately $14.76 million as of June 30, 2019.

NOTE K – TAX ABATEMENT DISCLOSURES

The District is subject to tax abatement agreements granted by St. Louis County and municipalities within the District. District property tax revenues were reduced by $2,403,259, as a result of these abatements for year ended June 30, 2019. These tax abatements are considered immaterial to the overall financial statements.

NOTE A – BUDGETS AND BUDGETARY ACCOUNTING

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 67 RSMo, the District adopts a budget for each fund.

2. Prior to July, the Superintendent, who serves as the budget officer, submits to the Board of Education a proposed budget for the fiscal year beginning on the following July 1. The proposed budget includes estimated revenues and proposed expenditures for all District funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year.

3. A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.

4. Prior to July 1, the budget is legally enacted by a vote of the Board of Education.

5. Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the Board. For each fund, total fund expenditures may not legally exceed final amended budgeted expenditures. Expenditure appropriations lapse at the end of the fiscal year.

6. Budgets are presented on the modified accrual basis of accounting for all governmental funds.

STATISTICAL SECTION

PARKWAY C-2 SCHOOL DISTRICT

SUMMARY OF STATISTICAL INFORMATION

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the financial information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

	Pages
Financial Trends	70 - 76
These schedules contain trend information to help the reader understand how the District's financial performance and position have changed over time.	
Revenue Capacity	77 - 81
These schedules contain information to help the reader assess the District's most significant local revenue source – property tax.	
Debt Capacity	82 - 84
These schedules contain information to help the reader asses the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	
Demographic and Economic Information	85 - 86
These schedules offer demographic economic indicators to help the reader understand the environment within which the District's financial activities take place.	
Operating Information	87 - 94
These schedules contain service data to help the reader assess how information in the District's financial reports relates to the services the District provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT
JUNE 30, 2019

Taxing Body	Debt Outstanding	Estimated Percentage Applicable	Estimated Share of Direct and Overlapping Debt
Direct			
Parkway School District	$ 245,760,000	100.00%	$ 245,760,000
Overlapping			
St. Louis County	97,401,000	17%	16,558,224
City of Chesterfield	1,925,000	47%	912,180
City of Kirkwood	525,000	21%	109,008
City of Manchester	9,000,000	9%	825,867
Fire District-Metro West	3,500,000	47%	1,628,979
Fire District-West County EMS	14,405,000	20%	2,878,318
Subtotal of Overlapping Debt	$ 126,756,000		$ 22,912,576
Total	$ 372,516,000		$ 268,672,576

NOTE: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is endured by the residents and businesses of the District. Percentage of overlap is calculated by the Collector of Revenue's office as follows: For the purpose of determining the appropriate composite property tax rates, all properties are within areas defined by what are called school district sub-codes. Each sub-code accounts for what taxing districts have jurisdiction over a particular parcel, or property. Periodic ledgers comprising the total assessed values for each sub-code area are generated by County Revenue. Appropriate percentage overlap values have been selected from the appropriate ledger.
