WHAT WERE THEIR EXPERIENCES?

“All my wishes for a summer internship were achieved through this program. I went onsite, expanded my network, and got to know more about UCI Health.”

Yuehanna @ UCI

“I believe this experience has taught me things about the career I am interested in beyond what a textbook can. I was able to gain firsthand experience about what the daily lives of consultants at one of the Big 4 Consulting companies are like and how they got the positions they are at. Additionally, I gained friendships and mentorships that I couldn't have found any other way.”

Aydan @ EY

“One aspect of the Career Exploration Experience that was most valuable to me were the friendships I made and the people I have met along the way. I loved being able to work alongside people who cared about my future and who wanted to teach me new and exciting things.”

Eliana @CHOC
