Exceptional Support for Exceptional Faculty

Created in 2022, the Faculty Salary & Supplementation Endowment seeks to change the way Maclay's remarkable faculty are compensated in the long term, having a lasting, transformational impact on the institution. With the goal of Maclay faculty being compensated at 2 times the state average, this endowed fund has had an immediate impact for faculty since its inception. This impact will only increase as the fund grows and benchmarks are met and will allow the school to recruit and retain the best possible faculty. A gift to this fund supports Maclay's faculty and their incredible impact on students in perpetuity.
